Subject: NIRB: Online Public Registry

Dear Sarah Rahmer,

Thank you for contacting the NIRB for further clarification.

The excerpt you are referring to is standard in all Online Public Registry Correspondence.

The project dashboard, or application, will need to be created. You will be able to use your sarah.rahmer@dcc-cdc.gc.ca to create this application.

If you require additional assistance or clarification, please feel free to call the Environmental Administration team toll free at 1-866-233-3033 or reply to this email chain.

Best regards,

Savanna Moore

Subject: FW: EXTERNAL: NIRB: Online Public Registry

Good day,

Can you please tell me if there is a Project Dashboard created at the time of this email or does the proponent create the page? The wording in the email below:

"On the NIRB Public Registry all project assessments now have a unique individual page called a Project Dashboard, the information provided in your application populates this project dashboard allowing all documentation more accessible in English, Inuktitut, Inuinnaqtun and French."

suggests that perhaps something already exists, although I'm not sure if it would be linked to my account. I have created and been approved for an account at NIRB at sarah.rahmer@dcc-cdc.gc.ca so I'm hoping that any information pertaining to the below screening would be linked to my account. Please advise if this is the case or if in order to initiate the screening I need to create a new project and develop the dashboard. I suspect the latter but would like to confirm so as to prevent any duplication of applications.

Kind regards,
Sarah

Dear Sarah Rahmer:

On December 13, 2019 the Nunavut Impact Review Board (NIRB or Board) received a referral to screen Department of National Defence / Defence Construction Canada's (DND-DCC) "OP NANOOK-NUNALIVUT 2020" project proposal from the Nunavut Planning Commission (NPC or Commission), with an accompanying positive conformity determination with the North Baffin **AND** Keewatin Regional Land Use Plans.

The NIRB now processes applications through an online public registry system and as a result the NIRB requires the proponent to complete the online application form in order to determine the scope of the project activities being proposed and to ensure sufficient information has been provided to commence screening. **The NIRB will no longer accept applications or supporting documents via e-mail or regular mail.**

On the NIRB Public Registry all project assessments now have a unique individual page called a Project Dashboard, the information provided in your application populates this project dashboard allowing all documentation more accessible in English, Inuktitut, Inuinnaqtun and French. The online application can be accessed by registering and account at www.nirb.ca through the link found in the upper right hand corner of the webpage. Accounts will require approval prior to having access to the online application (usually less than 24 hours).

Please include a non-technical summary description of the proposed project in English and in the applicable languages of all potentially-affected communities: Inuktitut (Kivalliq, North/South Baffin, Eastern Kitikmeot), Inuinnaqtun (Cambridge Bay, Kugluktuk, Bay Chimo and Bathurst Inlet) and French (City of Iqaluit).

The summary should use plain language only and address the following points in < 5,000 characters:

- **Who:** Company, individual or entity proposing the project.
- **What:** The type of undertaking being proposed and how it would be carried out. It may be helpful to describe the scale of the project, number of people involved, permanence of any facilities constructed, and methods of transport.
- **Why:** The objective of and need for the project, potential long term implications.
- **Where:** general location of proposed activities in relation to closest communities, protected areas.
- **When:** timeframe of proposed activities (fixed period, seasonal, multi-year).

Please keep in mind that the project summary is intended to provide members of the public with sufficient information to understand what is being proposed and determine whether they might wish to further review the full project application and supporting information.

- *Please be advised that this online application form requires the use of Unicode-based fonts for Inuktitut translations, such as Pigiarniq. Older ASCII syllabic fonts, such as ProSyl, will not work with this application.*
- *To type in Pigiarniq, or other Unicode syllabic fonts you will need the font itself and a keyboard driver to produce the syllabic characters, available from: <http://www.ch.gov.nu.ca/en/ComputerTools.aspx>*

Please be advised that pursuant to paragraph 92(3)(b) of the NuPPAA, the 45-day timeline for the Board to provide a screening decision stops on the date of this notice. This 45-day timeline will start again on the date the NIRB receives a completed application and all the requested additional information. If the proponent fails to submit the requested information, the Board may suspend or terminate the assessment activities of the proposed project pursuant to the relevant provisions under section 144 of the NuPPAA. Therefore, it is in DND-DCC's best interest to provide the identified information in a timely manner.

Our administrative staff is committed to assisting with any and all inquiries you may have as you familiarize yourself with the NIRB's new public registry system. For general assistance or to report a problem, please contact the NIRB at info@nirb.ca or call us toll-free at 1-866-233-3033.
