

Solomon Amuno  
Technical Advisor II  
Nunavut Impact Review Board

February 12, 2020

**Re: Opportunity to address comments received regarding Baffinland Iron Mines Corporation's  
"Phase 2 Development" Project Proposal**

Dear Solomon,

Baffinland appreciates the opportunity provided by the Nunavut Impact Review Board (NIRB) to review updated technical review submissions and provide a detailed Response Package on or before Thursday, February 13, 2020, if we so choose. Baffinland has reviewed the updated submissions and has determined it requires additional time to ensure the Response Package properly reflects the most complete status of resolution with Interveners. Accordingly, Baffinland intends to provide a detailed Response Package on or before Friday, February 21, 2020.

Baffinland would also like to identify that Crown-Indigenous Relations and Northern Affairs Canada (CIRNAC) and Environment and Climate Change Canada (ECCC) have submitted several recommendations related to Baffinlands Waste Rock Management Plan, submitted to the Nunavut Water Board (NWB) on December 31, 2019. Understanding that these Interveners have submitted the same or similar recommendations to the NWB as part of a related, but separate review process, Baffinland feels it is appropriate to merge all responses to Waste Rock Management Plan recommendations as a single package for submission to the NWB.

Best Regards,
