## PROJECT SCOPE:

The proposed “Renewal and Amendment of the Resolute Bay Utilidor System Water Licence #3 BM-RUT 1520 Type A for Ten (10) yrs. term” project is located within the Qikiqtani (North Baffin) region, within the community of Resolute Bay. The Proponent intends to upgrade its existing Nunavut Water Board (NWB) Type “B” Water Licence (Licence No. 3BM-RUT 1520, expires March 29, 2020) to a NWB Type “A” Water Licence. The municipal services under the proposed upgraded Type “A” Water Licence would be permitted to continue operations from March 2020 through March 2030.. The scope of this proposed project as identified by the NIRB includes the following undertakings, works or activities:

- Increase of the total amount of water drawn to 160,000 cubic metres (m3) annually to meet community needs for water and proper functioning of the utilidor system
- Construction and operation of a wastewater treatment plant to treat municipal wastewater and sewage before discharge
- Continuation of activities to treat, store and transport water for municipal use, and transport and discharge wastewater and sewage, as previously approved by the Nunavut Water Board under a Type “B” Water Licence; and
- Decommissioning of the airport facilities’ sewage lagoon when the wastewater treatment facility is operational as sewage will be treated through this facility.
