RE: NPC File # 149294 [Arctic Kingdom Floe Edge Camp Day Trips - 2020]

The following works and activities have been proposed in the above-noted project proposal:

1. **Tourism Activities:** Amendment of authorization to set up a temporary base camp in Navy Board inlet to support Arctic Kingdom's seasonal tourist expeditions to visit the floe edge, and various wildlife areas and sanctuaries. Activities at each location could include hiking, kayaking, wildlife viewing, filming and photography. In addition, twin otter, helicopters, snowmobiles... will be used for transportation of passengers and equipment and to facilitate sightseeing and wildlife watching.

2. Associated NPC FILE No: 148266 and 149008; Associated NIRB FILE No: 15AN029.
3. Summary of Modification: addition of a new location near Grise Fiord.
4. Location: Qikiqtani Region; [Bylot Island Migratory Bird Sanctuary near Pond Inlet, and Nirjutiqarvik National Wildlife Area near Grise Fiord]

A complete description of the project proposal reviewed by the NPC can be accessed online using the link below.

The Nunavut Planning Commission (NPC) has completed its review of the above noted project proposal. The NPC previously reviewed works and activities associated with the current proposal, including set up a temporary base camp in Navy Board inlet and conformity determinations issued on May 21, 2015, June 7, 2016, and January 15, 2019 which still apply. In addition, associated activities were previously screened by the Nunavut Impact Review Board (NIRB FILE NO.: 15AN029).

The NPC has determined that the above-noted project proposal is a significant modification to the project because of the addition of a landing and visit to a new location (Cobourg Island) near the community of Grise Fiord. It conforms to the North Baffin Regional Land Use Plan (NBRLUP). The proponent has undertaken to comply with the applicable conformity requirements of Appendix C, H, and I of the NBRLUP.

The above-noted project proposal requires screening by the NIRB under section 12.4.3 of the Nunavut Agreement as amended because it is for a component or activity that was not part of the original or previously amended proposal and its inclusion is a significant modification of the project. By way of this letter, the NPC is forwarding the project proposal with this determination to the NIRB for screening. Project materials, including the applicable conformity requirements, are available at the following address:

<https://lupit.nunavut.ca/portal/project-dashboard.php?appid=149294&sessionid=>

The regulatory authorities to which this letter is addressed are responsible under the Nunavut Planning and Project Assessment Act (NUPPAA) to implement any of the applicable requirements by incorporating the requirements directly, or otherwise ensuring that they must be met, in the terms and conditions of any authorizations issued.

This conformity determination applies only to the above noted project proposal as submitted. Proponents may not carry out projects and regulatory authorities may not issue licenses, permits and other authorizations in respect of projects if a review by the NPC is required. Regulatory authorities may consult with the NPC to obtain recommendations on their duties to implement the existing land use plans prior to issuing licenses, permits and other authorizations under subsection 69(6) of the NUPPAA.

My office would be pleased to discuss how best to implement the applicable requirements and to review any draft authorizations that regulatory authorities wish to provide for that purpose. If you have any questions, please do not hesitate to contact me at (867) 979-3444.

Sincerely,

Goump Djalogue
Senior Planner, MCIP, RPP
