Good morning Emily, Erin,

Agnico Eagle would like to request a second extension to respond to the opportunity to address comments regarding the TEMP version 8 comments. During this past week, we have reached out to other TAG members, and it was suggested that we review our responses together prior to our submission. As such, an extension until July 13 is required to allow us to continue to work collaboratively with our TAG members and finalize our response.

Thank you for this consideration

Warmest regards,
