Hi All,

As we will be updating our Board shortly on COVID-19 related impacts to Projects' abilities to fulfill their terms and conditions we were hoping to get some additional information on the Meadowbank and Whale Tail Projects monitoring program.

If it is easiest we can have a quick phone call with one or all of you to discuss a few points. I have re-attached the table previously sent as this covers the points we will be discussing.

Erin and myself are free anytime Monday or Tuesday if you can provide your availability I can set up a call.

Thanks and have a great weekend!

Hi Marie-Pier,

Thank you again for your update to the COVID-19 strategy. We will need to provide some more specific information to our Board on how the Terms and Conditions for Project Certificate's 004 and 008 may be adjusted due to COVID-19. As mentioned in your previous letter dated June 5, 2020 if you have already completed a comparison table to the Project Certificate Terms and Conditions, if you could provide that as part of your submission that would suffice. If not, we have created an example table that can be filled out (attached) with items that you may want to consider touching on if they are affected. Please adjust the items as you see fit and add any that may have been missed.

As well if you could update us on whether inspections are able to occur at site this year or whether any outside contractors are able to enter.

If you have any questions both Erin and myself are available for a phone call anytime next week and I would be happy to set one up.

We greatly appreciate you updating the NIRB on any monitoring changes.

Best Regards,

**Emily Koide**
