

## Project Overview

Type of application: **New**

Proponent name:	Aziz Kheraj
Company:	994458 Nunavut Limited

### Schedule:

Start Date:	2021-06-01
End Date:	2025-10-15
Operation Type:	Seasonal

### Project Description:

Repair and upgrade existing runway at Arctic Haven Lodge to facilitate and accommodate our seasonal lodge operations along with the local aircraft charter company regulations. The current airstrip needs to be have gravel overlay and we would like to extend the overall length by about 800 ft over the next few years. The gravel needed for this work is about 500 cu mts. We will be essentially displacing the south west end of the airstrip, as it is currently much higher level than the North East end this using the material to extend the runway without taking material from another location. We will be using a dump truck, bull dozer, small excavator and compactor to transport and move the material. All the machinery used for this project is already located at Arctic Haven

### Personnel:

Persons:	6
Days:	75

## Project Map

### List of all project geometries:

ID	Geometry	Location Name
6410	polyline	Arctic Haven Airstrip location

### Planning Regions:

Kitikmeot

### Affected Areas and Land Types

Settlement Area

Keewatin Planning Region

## Project Land Use and Authorizations

### Project Land Use

Tourism Activities

Airport

Tourism Activities

### Licensing Agencies

NIRB: Screening Decision Report

INAC: Class A Land Use Permit

### Other Licensing Requirements

No data found.

## Material Use

### Equipment

Type	Quantity	Size	Use
Bull dozer	500	Cu MTS	Move gravel and sand

### Fuel Use

Type	Container(s)	Capacity	UOM	Use
No records found.				

**Hazardous Material and Chemical Use**

Type	Container(s)	Capacity	UOM	Use
No records found.				

**Water Consumption**

Daily Amount (m <sup>3</sup> )	Retrieval Method	Retrieval Location
0		No waterway is being displaced for this project

**Waste and Impacts****Environmental Impacts**

No flora or fauna is being harmed or displaced for this project. We are only extending the current airstrip by 800 ft. Wildlife does not live in the area where we will be extending the airstrip. All the workers will be using the Arctic Haven Lodge facilities while working on this project. Sewage, greywater and other human waste is all managed under the lodge.

**Waste Management**

Waste Type	Quantity Generated	Treatment Method	Disposal Method
No data found.
