**Re: Screening Decision for Qikiqtaaluk Environmental Inc.'s "Installation of an Incinerator" Project Proposal, Qikiqtani (South Baffin) Region**

---

Dear Honourable Minister:

On May 25, 2020 the Nunavut Impact Review Board (NIRB or Board) received a referral to screen Qikiqtaaluk Environmental Inc.'s "Installation of an Incinerator" project proposal from the Nunavut Planning Commission (Commission), which noted that the project proposal is outside the area of an applicable regional land use plan. The Commission noted that the previous conformity determination issued on November 24, 2015 for the activities associated with the current proposal continues to apply and has determined that the project proposal is a significant modification to the project because of the installation and operation of a biomedical waste incinerator that was not part of the previously screened project proposal.

Pursuant to Article 12, Sections 12.4.1 and 12.4.4 of the *Agreement between the Inuit of the Nunavut Settlement Area and Her Majesty the Queen in right of Canada (Nunavut Agreement)* and s. 87 of the *Nunavut Planning and Project Assessment Act*, S.C. 2013, c. 14, s. 2 (*NuPPAA*), the NIRB commenced screening this project proposal. Due to the proposal containing activities that were sufficiently related to previously assessed activities under NIRB file number **15XN051**, the NIRB viewed this project proposal as an amendment to the previously screened project and assigned this proposal with this previous file number.

Following the assessment of all material information provided, the NIRB is recommending that a review of Qikiqtaaluk Environmental Inc.'s "Installation of an Incinerator" project is not required pursuant to paragraph 92(1)(a) of the *NuPPAA*.

Pursuant to its discretion under paragraph 92(2)(a) of the *NuPPAA*, the NIRB has determined that specific terms and conditions are appropriate for this project.

Accordingly, the NIRB is issuing the attached Screening Decision Report dated September 1, 2020 to the responsible Minister. The Screening Decision Report provides, among other things, the regulatory framework, project overview and the NIRB's assessment process, factors relevant for the determining significance of impacts and recommended project-specific terms and conditions.

Please note that the project proposal will not be enclosed due to the size of the electronic document and the limited bandwidth. However, an electronic copy of the project proposal is accessible online from the NIRB's online public registry at <https://www.nirb.ca/project/125540>.

Please note that, the Board only directly addresses these notice letters to those individuals considered to be a "responsible Minister with decision-making authority" for the project as set out under the *NuPPAA*. However, regulatory authorities and other authorizing agencies associated with a proposed project (e.g. Regional Inuit Associations, Nunavut Water Board) will continue to be copied on the Notice of Release of the Screening Decision Report. The NIRB is providing these parties with notice and access to the Board's Screening Decision Report as required under s. 200(2) and in support of these parties in the fulfillment of their responsibilities under the *NuPPAA* and the *Nunavut Agreement* to address, and as appropriate, implement, to the fullest extent possible, any relevant NIRB recommendations contained in the Screening Decision Report.

We look forward to receiving a response from the responsible Minister and the NIRB remains available for consultation with the Minister regarding this report as necessary. If you have any questions or require clarification, please do not hesitate to contact the NIRB's Director, Technical Services, Tara Arko at (867) 983-4611 or [tarko@nirb.ca](mailto:tarko@nirb.ca).

Sincerely,

Kaviq Kaluraq  
Chairperson  
Nunavut Impact Review Board
