Dear members,

We appreciate the time taken to access our project proposal. Canadian Arctic Holidays takes NIRB recommendations seriously. We have been working on revising our plans and have collected additional documentation to support some issues raised but the participating parties. Before we apply again through NIRB with our changes, we have been waiting to consult with community members and the Agguttinni Park staff after the meeting that is supposed to be held in the coming weeks. All this has been delayed and/or put on hold due to Covid.

We continue to feel that it would be an amazing project for the community of Clyde River, territory of Nunavut.

Sincerely,

Nansen
