**Nangmautaq Hunters and Trappers Association Comments for Pre-Hearing Conference**

Ms. Kaluraq,

The Nangmautaq Hunters and Trappers Association (HTA) apologizes that it was unable to send a representative to the pre-hearing conference on Baffinland's phase 2 expansion this week. Unfortunately, our board members had work commitments and were therefore unable to attend.

The Nangmautaq HTA has several outstanding concerns with the Phase 2 proposal, including (but not limited to):

- The Nangmautaq HTA believes this project will have significant impacts to our members' ability to hunt caribou and marine mammals.
- The Nangmautaq HTA is opposed to icebreaking in Baffin Bay and supports the Pond Inlet HTO's recommendation for a shorter shipping season.
- The Nangmautaq HTA believes Baffinland needs to finalize more details of its monitoring and mitigation plans before the final hearing.

Because of these concerns, the HTA is not ready to support the Phase 2 expansion.

The Nangmautaq HTA will work with the Hamlet of Clyde River on a more detailed written submission that discusses these issues. We hope to submit these detailed comments before the end of October.

The Nangmautaq HTA intends to participate in the NIRB final hearing for this project.

Sincerely,

Gary Aipellee, Manager

Nangmautaq HTA
