Subject: BIMC Technical Meetings - Commitment re narwhal and beluga in Kugaaruk

Hi all,

In light of the information provided by DFO this morning that the narwhal and beluga found near Kugaaruk are likely to be influenced by Baffinland's activities, and the Kugaaruk HTO (CC'ed) has expressed a desire to participate in the consultations and community engagement activities of Bafinland, WWF would like to put forth the following suggested commitment:

Baffinland commits to consult with the community of Kugaaruk on the current and future mining operations, especially as it relates to impacts on Narwhal and Beluga.

Thanks for your consideration, we are happy to discuss further as needed.

Cheers,
Erin
