

**List of Commitments Resulting from the Technical Meetings held on January 11, 2021  
for the Saline Effluent Discharge to Marine Environment, Rankin Inlet, Meliadine Gold Mine, Nunavut**

	<b>Party Responsible for Commitment</b>	<b>Party(s) who raised (Item#)</b>	<b>TM Commitment</b>	<b>Timeline for Submission</b>	<b>Form of Submissions</b>
1.	Agnico Eagle	HTO	Agnico Eagle commits to testing the line prior to each discharge season. The details of the type of tests will be presented in a management plan in accordance to commitment to CIRNA-TCR-09.	60 days prior to the commissioning of the Waterline.	Management Plan
2.	Agnico Eagle	CIRNA (CIRNAC-TRC-08)	Agnico Eagle commits to providing additional details on the operation of the fiber optic leak detection system with a specific example where it is in operation.	January 14, 2021	Technical Memorandum
3.	Agnico Eagle	KivIA	Agnico Eagle will provide the results of 2020 Height of Land Surveys results within the Annual Report.	March 31, 2021	Annual Report.
4.	Agnico Eagle	KivIA (KivIA-TC-16)	a. Agnico Eagle in consultation with the Terrestrial Advisory Group (TAG) will revise the Terrestrial Environment Management and Monitoring Plan (TEMMP) for the Meliadine Project that will include additional details on monitoring and analysis of caribou movement through the Meliadine project Awar/waterlines corridor taking into consideration options such as: geo-fencing GPS collar tracking (which GN will make its best efforts to provide), camera study, KHTO	TBD pending on first meeting of the TAG.	Revised TEMMP

	Party Responsible for Commitment	Party(s) who raised (Item#)	TM Commitment	Timeline for Submission	Form of Submissions
			<p>road monitoring, and site visits by Elders, and show how this monitoring will feed into adaptive management of project operations, taking into consideration seasonal caribou movement through the corridor. This next version of the TEMMP will be revised following the establishment of the Terrestrial Advisory Group, and the receipt of advice from the Terrestrial Advisory Group on potential appropriate TEMMP revisions and/or special studies taking into consideration the changes to the corridor.</p> <p>b. Regarding establishing a Terrestrial Advisory Group for the Meliadine Project, the recommended T&amp;C from GN is supported (GN-TRC-06; 1 to 2).</p>		
5.	Agnico Eagle	KivIA (KivIA-TC-17)	<p>a. Agnico Eagle will provide details on the proposed side slope of the covered waterlines on February 5<sup>th</sup>, 2021.</p> <p>b. Agnico Eagle will provide details on the actual side slopes (“as built”) within 6 months of completion of waterline construction</p>	<p>a. February 5, 2021</p> <p>b. Within 6 months of completion of the Waterline construction.</p>	Report
6.	Agnico Eagle	KWB (KWB-TC-02)	Agnico Eagle agrees to discuss further with KWB on potential impacts to lakes from potential spills along the AWAR following receipt of KWB’s	Prior to January 29	Meeting minutes and response by KWB.

	Party Responsible for Commitment	Party(s) who raised (Item#)	TM Commitment	Timeline for Submission	Form of Submissions
			comments on the lakes of concern, per KWB-TRC-02.		
7.	Agnico Eagle	GN (GN-TRC-06)	AEM will collaborate with the Government of Nunavut through the Terrestrial Advisory Group in evaluating a remote triggered camera program to estimate levels of project-related and public traffic, at various points along the all-weather-access-road during June, July and August. A primary objective of this program will be to support caribou effects monitoring and potentially replace existing monitoring requirements that are duplicated.	January 12, 2021	TBD
8.	Agnico Eagle	KWB	Agnico Eagle commits to include HTOs, KWB and Northlands Denesuline First Nation and Sayisi Dene First Nations in the Terrestrial Advisory Group of the project.	TBD	
9.	Agnico Eagle	BLHTO	During the construction phase, Agnico Eagle commits to no open trenches during the caribou migration. Agnico Eagle will advance construction by sections and consider caribou migration into the construction schedule.	Construction	
10.	Agnico Eagle	KWB	Agnico Eagle commits to provide the Camera Study Report as part of the Annual Report.	March 31, 2021	Annual Report

	<b>Party Responsible for Commitment</b>	<b>Party(s) who raised (Item#)</b>	<b>TM Commitment</b>	<b>Timeline for Submission</b>	<b>Form of Submissions</b>
11.	Agnico Eagle	SDFN	Agnico Eagle will provide the locations of the laydown areas and estimated dates when these will be put in place in accordance to the KivIA production lease.	January 15, 2021	Technical Memorandum
12.	Agnico Eagle	SDFN	The next version of the TEMMP will be revised following the establishment of the Terrestrial Advisory Group, and the receipt of advice from the Terrestrial Advisory Group on potential appropriate TEMMP revisions and/or special studies taking into consideration the changes to the corridor.	TBD	
13.	Agnico Eagle	SDFN	Agnico Eagle will provide a list of the various TEMMP documents that have been/will be submitted.	February 5, 2021	Table
14.	Agnico Eagle	BLHTO/ HTO	Agnico Eagle will have a discussion with HTO and BHTO to discuss the no hunting zone near AWAR.	TBD	
15.	Agnico Eagle	KivIA	<ul style="list-style-type: none"> <li>a. A call will be held with interested parties to review the framework of the Adaptive Management Plan. (KivIA, ECCC, CIRNA).</li> <li>b. Agnico Eagle will provide an update on the framework of the Adaptive Management Plan</li> </ul>	<ul style="list-style-type: none"> <li>a. January 21, 2021</li> <li>b. January 29, 2021</li> </ul>	
16.	SDFN	AEM SDFN-TC-01	SDFN would provide an update on the status of the review of the documents provided last week.	13 January, 2021

		SDFN-TC-02			
17.	Government of Nunavut	AEM	<p>a. The Government of Nunavut commits to developing and finalizing a Research Contribution Agreement (Including a Data Sharing Agreement) in collaboration with Agnico Eagle in which GN agrees to provide caribou and wildlife data collected by GN as part of its regional monitoring programs promptly upon request by Agnico Eagle without need for further agreement, in a form that can be used by Agnico Eagle to carry out the monitoring and analysis required by the TEMMP, with appropriate and reasonable data sharing restrictions which enable Agnico Eagle to share its analysis with the NIRB and members of the TAG.</p> <p>GN commits that it will make its best efforts to include in its collaring program of the herds which may interact with the Meliadine Project collars a “geofencing” function. Collars with a geofencing function will provide better data for both GN and Agnico Eagle to analyze caribou movement through and near the Meliadine Project as well as support ongoing GN regional monitoring.</p>	<p>a. Agreement completed by Mid-February and data should be provided annually or upon request.</p> <p>b. Annually as part of the Annual Report</p>	Shape files
