Nunavut Impact Review Board's Review of Baffinland Iron Mines Corp.'s Phase 2 Development Proposal – Written Questions

Hamlet of Sanirajak Questions for Fisheries and Oceans Canada

1. Fisheries and Oceans Canada indicated that they are recommending that Baffinland start using distillate fuels within Canada's 200-mile Economic Zone. Will Fisheries and Oceans Canada commit to recommending to the Minister of Northern Affairs that should he approve Baffinland's Phase 2 proposal, that he will direct that a certificate condition will be that Baffinland will be required to use distillate fuels within Canada's 200-mile Economic Zone irrespective of whether such a certificate condition is recommended by the Nunavut Impact Review Board to the Minister of Northern Affairs.

Yours truly,

Louis M. Primeau, B.Comm., CPA-CMA, CPA-CGA
Chief Administrative Officer / Director of Finance
