Hello Mia,

Fisheries and Oceans Canada (DFO) received a Request for Review from AECOM for the installation of temporary culverts on Remus Creek and West Remus Creek in order to allow construction equipment access to the Eureka High Arctic Weather Station for the work referenced in 21UN002.

We wanted to advise you that DFO has completed their review of these works and will be sending a Letter of Advice to the proponent.

Please let us know if you have any questions.

Sincerely,

Deborah Silver

Fisheries and Oceans Canada has changed the way new project proposals (referrals), reports of potential Fisheries Act violations (occurrences) and information requests are managed. Please be advised that general information regarding the management of impacts to fish and fish habitat (e.g. Measures to Protect Fish and Fish Habitat) that enable you to determine Fisheries Act requirements are available at DFO's "Projects Near Water" website at www.dfo-mpo.gc.ca/pnw-ppe/index-eng.html. For all occurrence reports, or project proposals where you have determined that you cannot avoid impacts to fish and fish habitat, please submit to fisheriesprotection@dfo-mpo.gc.ca. For general inquiries, call 1-855-852-8320.
