TITLE: Chidliak Project Environmental Baseline Program

OBJECTIVES OF RESEARCH:

Research Licence 01-006-20R-M was granted for a three year term commencing on December 20, 2018 and terminating on December 31, 2021. The research licence was obtained by Peregrine Diamonds Ltd. a wholly owned subsidiary of De Beers Group. This is the second annual report for this licence. Field plans for 2021 will likely be tied to COVID restrictions in place for the year. Under ideal circumstances field work will resume to collect additional ground data in the project area. If activities are permissible they will be based out of Iqaluit and/or established field camps. Remote sensing studies will continue and follow pandemic protocols. Due to the shut down of research in 2020 we request that the term of the research licence be extended to December 31, 2021.

TERMS & CONDITIONS:

The holder of the licence will be bound by the terms and conditions of the Nunavut Impact Review Board Screening Decision Report and the Department of Culture & Heritage archaeological sites terms and conditions. The license holder will abide by all special public health protection measures imposed by Nunavut's Chief Medical Officer of Health in response to the Covid-19 Pandemic, including restrictions on non-essential travel to Nunavut.
