13-May-2021

Dear Barnie Aggark,

The Nunavut Impact Review Board (NIRB or Board) has rescheduled the Public Hearing in Rankin Inlet, Nunavut from June 14-17, 2021. Therefore, the NIRB is recontacting agencies to appoint community representative(s) to participate in the Board's assessment of Agnico Eagle Mines Ltd.'s (Agnico Eagle or Proponent) "Saline Effluent Discharge to the Marine Environment" proposal, a proposed amendment to the approved Meliadine Gold Mine Project (NIRB File No.: 11MN034; PC 006 Amendment 1).

As described in the original correspondence released by the Board on April 9, 2021 (attached), individual(s) selected as a representative does not need to be an elected official or staff person from your organization; however, it is important that the appointed person be comfortable speaking and asking questions publicly as well as being able to share their views on behalf of your organization and/or your community.

The NIRB will cover payment of airfare, hotel, and meal costs associated with the representative's travel for this event, **however the NIRB does *not* provide any honoraria payments for community representatives.**

If your organization or the individual is not comfortable to attend the Public Hearing in person, the NIRB is looking at options to have representatives participate within their home community. Please advise Emily Koide, Technical Advisor I at ekoide@nirb.ca or (867) 983-4612 not later than **May 28, 2021** if you would prefer to use this option.

Once a representative has been selected by your organization, please have the community representative complete the forms and submit to the NIRB office at info@nirb.ca or via fax (867) 983-2594 by **May 28, 2021**.

****If individuals are travelling, please complete Appendix F in order to receive per-diem

If you have any questions about selecting a community representative for this event, please contact Ellie Adjun, Outreach Coordinator, by email at eadjun@nirb.ca or by calling toll-free at 1-866-233-3033.

Best regards,

Cassel Kapolak
