Hello Paul,

We can only go with what they commented on and are not able to specify concerns made from parties.

We encourage you to get in contact with the Arviat HTO to seek more clarity on their concerns.

Thank you for taking the time.

Best regards,

Mia Otokiak

CAUTION: This email originated from outside of the organization. Do not click links, open attachments or follow direction, unless you recognize the sender and know the content is safe.

Thank you Mia I'll work on getting NIRB a comprehensive response next week. The Arviat HTO response is very general – did they raise any specific concerns that you can provide in order to address their concerns?

Thanks, Paul
