---

Good afternoon,

Can you save this correspondence from the proponent, and I think we have enough information to start the screening process.

Best regards,

**Francis Emingak**

Hi,

We will be setting up a camp with canvas tents.  
We will be using naptha for coleman stoves and lanterns.  
All waste will be brought back to the community dump.

Amanda

**Subject:** Char Habitat Restoration near Kugluktuk, Nunavut

Good afternoon Amanda,

My name is Francis and I am the Junior Technical Advisor assigned to your application with the NIRB, I just have some questions and need some clarification on some topics;

Camp:

- Are you going to be setting up a camp, or is there already a camp at each site?
- If you are going to be using white gas “naphtha”, it is missing in the detail fuel and hazardous material use.
- Waste Management, what are you going to be doing with the combustible waste?

The information is needed to fully understand the project and would be easier for the Board to make a decision.

Looking forward to hear from you.

Best regards,

**Francis Emingak**
