**Re: Letter of support for the small craft harbour project-Arctic Bay, Nu**

To whom it may concern:

This letter is to inform you that the Ikajutit Hunter's & Trapper's Organization (IHTO) is in full support of the Small Craft Harbour Project for Arctic Bay. The IHTO board of director's has been consulted on the design and construction planning for the harbour on several occasions over the last three (3) years. We understand that mitigation measures will be implemented to minimize any potential impacts on wildlife and to confirm that our access to water and ice are maintained at all times while the harbour is being constructed. We do not have any concerns about the Project impacting wildlife, fish or fish habitat or our ability to harvest.

We look forward to continued collaboration with the Project team and to the construction of this important harbour for our community.

If you have any questions please do not hesitate to contact me at the Ikajutit HTA office

Best regards,
