Board of Directors  
Nunavut Impact Review Board  
Nunavut, Canada

To Whom It May Concern:

The Hamlet Council of Arctic Bay is supportive of the NIRB Screening Application submitted by Advisian for our Small Craft Harbour Project (the Project).

The Hamlet has collaborated closely with the Project team over the past 3 years on the Project design and construction planning.

The Hamlet has the capacity to provide municipal services to the Project (in particular potable and non-potable water, waste-water disposal and solid waste disposal). We understand that the Project is coordinating with the Government of Nunavut's Petroleum Products Division to confirm that the fuel needs for the Project will be met without burdening the community's already strained fuel supply. We are also aware that due to limited accommodations in the Hamlet, a camp for approximately 30 workers will likely be required. We are supportive of a construction camp and will work directly with the selected contractor to locate an appropriate area for the camp within our municipal boundaries.

The Project has the Hamlet's approval to operate and source rock from a new quarry that will be located approximately halfway between Arctic Bay and Victor Bay. The Hamlet is already working with the GN Planning and Lands office on a Quarry Agreement that will allow rock to be produced at that quarry for the Project. We are also supportive of the Project making improvements to our existing Hamlet road (the haul route) to haul rock from the new quarry to the small craft harbour site. In addition to our long awaited and much needed new harbour, we will have a new quarry for rock and gravel production.

The Hamlet wishes to ensure that residents will have opportunities, in several areas, to participate in the construction of this much needed project.

We look forward to the many benefits this Project will bring to our community.

If you have any questions, please do not hesitate to contact me at the Hamlet of Arctic Bay Office

Sincerely,

Eric Altwasser  
Acting SAO/Finance Officer  
Hamlet of Arctic Bay
