Good afternoon Emily and Kelli,

Thank you for taking the time to go over the 2021 Meliadine Site Update photo requests with Brett and I yesterday. The team has started gathering the relevant photos and we look forward to sharing them with NIRB.

With respect to the August 10th *“Opportunity to Address Concerns Regarding Blasting in the Vicinity of Caribou at Agnico Eagle Mines Limited’s Meliadine Gold Mine Project”* letter NIRB sent to Agnico Eagle, Agnico Eagle has asked KHTO for a meeting to clarify certain statements and make sure we properly understand and capture KHTO’s concerns in our answer. KHTO has agreed to this meeting and proposed it takes place on August 24th, 2021.

In this context, and in order to provide NIRB with a comprehensive answer, would NIRB accept Agnico Eagle submits its answer by or before August 30th?

We thank you in advance for your attention,
Sara

Good afternoon Emily and Kelli,

Thank you for your message and availability, it will be good to discuss the site update photos as well as you propose!

2:00 pm MST work with us tomorrow, I’ll send a Teams meeting invite for everyone.

Kind regards and looking forward to meeting with you tomorrow.

Sara

Hi Sara,

We can definitely have a meeting about the 2021 caribou migration season and if you/your team has any questions about the site update photos that would be great to chat about as well.

Does 2:00pm MST either Thursday or Friday (Aug 12 or 13) work for you? I can set up a meeting on our teleconference line unless it works better for you to use that Agnico Eagle teams line we have used previously, either seems to work well on our end!

Also, I am cc'ing Kelli Gillard as she is filling in for Erin on the Agnico Eagle files, on top of managing project monitoring, so she will be participating in the call as well.

Kind Regards,

Emily Koide

Good afternoon Emily,

I hope this message finds you well.

I wanted to know if you had time for a short call this week related to the 2021 caribou migration season?

This would also be an opportunity to introduce you to two new Environment Department Colleagues (one is not that new but she has recently changed positions so you will likely see her name/be in touch with her in the future!).

Thank you in advance for your attention and we look forward to talking with you,

Sara
