Subject: DFO-SCH Clyde River Development Project - Request to defer the submission of requirements identified in *Information Request #1*

Dear Peter Norman Evalik:

On July 2, 2021, Fisheries and Oceans Canada- Small Craft Harbours (DFO-SCH) received a letter (*Additional Information Required: Information Request # 1 for Fisheries and Oceans Canada's "Clyde River Small Craft Harbour Development" Project Proposal*) from the Nunavut Impact Review Board (the Board) indicating the need for additional information for review of the Clyde River Harbour Development Project.

DFO-SCH, would like to inform the Board that we will not be able to submit the information requirements identified in *Information Request #1* within a two week period, as described in the above mentioned letter. DFO-SCH and our retained consultant, CBCL-Canadrill, are working diligently to collate the information required for the NIRB submission in a timely manner. We are striving for to include the most accurate description and designs of the proposed project, as well as, a thorough assessment of the potential impacts of the project and proposed mitigation measures.

DFO-SCH is expecting to submit the documents to satisfy the Board's *Information Request #1* by August 19, 2021.

If you have any questions with the content of this letter, please contact my colleague Chris McDermid at (431) 335-7530 or by email at Chris.McDermid@dfo-mpo.gc.ca.

Yours sincerely,

Eleanor McEwan, P. Eng.
Senior Project Engineer
Small Craft Harbours Branch
