SCIENTIFIC RESEARCH LICENSE

LICENSE # 01 001 22R-M

ISSUED TO: Joel Heath
House 408B
Sanikiluaq, NU
X0A 0W0 Canada

TEAM MEMBERS: J. Ehn, A. Diaz

AFFILIATION: Arctic Eider Society

TITLE: Community – Based Monitoring of Sea Ice and Eider Duck Populations Around the
Belcher Islands, Nunavut

OBJECTIVES OF RESEARCH:

This project has been providing significant capacity building for Community-driven research in Sanikiluaq addressing major long outstanding gaps related to changing wildlife populations, oceanography and sea ice. The program has helped provide the first baseline data demonstrating the large-scale impact of changing oceanography in the region providing a basis for future research and monitoring. Additionally, the project is contributing to development of a novel approach to meaningfully incorporating Inuit knowledge and observations through the SIKU platform and mobile app. The program contributes to development of long-term research and monitoring for the region that will have a lasting positive impact as the community moves forward with further development of these programs and establishing long term protection and conservation measures for the region.

TERMS & CONDITIONS:

The holder of the licence will be bound by the terms and conditions of the Nunavut Impact Review Board Screening Decision Report and the Department of Culture & Heritage archaeological sites terms and conditions. The license holder will abide by all special public health protection measures imposed by Nunavut's Chief Medical Officer of Health in response to the Covid-19 Pandemic, including restrictions on non-essential travel to Nunavut. These terms and conditions will form part of this licence.

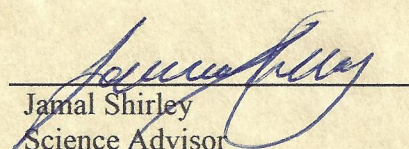

DATA COLLECTION IN NU:

DATES: January 01, 2022-December 31, 2022

LOCATION: Belcher Islands

Scientific Research License 01 001 22R-M expires on December 31, 2022

Issued at Iqaluit, NU on October 19, 2021
