

COMMENT FORM FOR NIRB

Baffinland Iron Mines Corp.'s

"Phase 2 Development" Proposal Public Hearing

The Nunavut Impact Review Board (NIRB) has a mandate to protect the integrity of the ecosystem for the existing and future residents of Nunavut. To assess the environmental and socio-economic impacts of the project proposal, NIRB would like to hear your concerns, comments and suggestions about the following project proposal application:

Project Proposal Title: Phase 2 Development Proposal Public Hearing

Proponent: Baffinland Iron Mines Corp.

Location: Pond Inlet, NU

Indicate your concerns about the project proposal below:

no concerns
water quality
terrain
air quality
wildlife and their habitat
marine mammals and their habitat
birds and their habitat
fish and their habitat
heritage resources in area

traditional uses of land
Inuit harvesting activities
community involvement and consultation
local development in the area
tourism in the area
human health issues
other:

ALL OF THE ABOVE

Please describe the concerns indicated above:

The manipulation being allowed in inexcusable - the proponent (BIM) is violating IQ by not working with Inuit, but instead using fear tactics to try to create buy-in; threatening to remove benefits + employment, instead of looking for productive ways

Do you have any suggestions or recommendations for this application?

Baffinland does not have it's current problems dealt with, and is not TRULY following Inuit Qaujimajatuqang in creating solutions. NIRB needs to call them out on their false + manipulative information.

Do you support the project proposal? Yes ☐ No ☒ Any additional comments?

Absolutely NOT. If Baffinland has not been able to manage current concerns, then it should not be allowed to expand !!!

Name of person commenting: Shelly Elverum of Pond Inlet

to work with communities to move the project forward.
They are not being transparent about future processes, but
instead using manipulation, threats and coercion to try
to scare people into saying yes. Unacceptable and
gas against IQ! From a process standpoint
alone, BIM is creating fear, distrust and division
within and between the affected communities.
