Annex 1 Statistical Report on the <i>Privacy Act</i>	8

1. Introduction

The following Annual Report outlines the Nunavut Impact Review Board's (the NIRB) organizational structure, procedural updates and activities as they relate to the *Privacy Act* (the Act) for the 2020-21 reporting period. This report has been prepared and tabled in Parliament in accordance with section 72 of the Act.

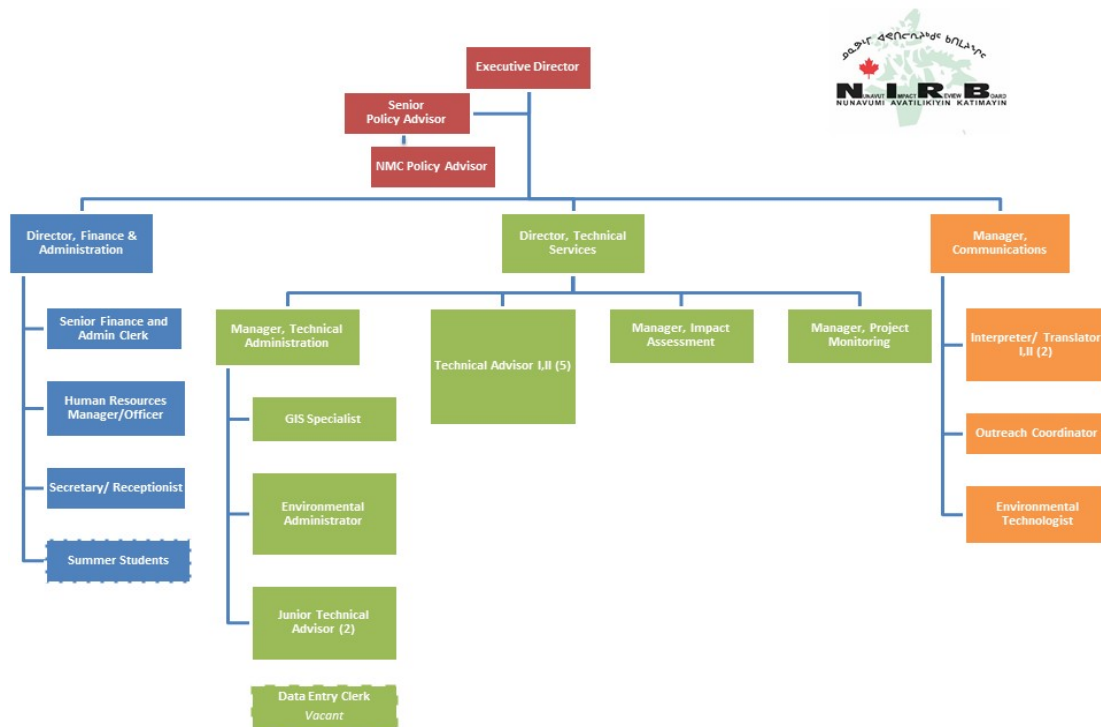

The purpose of the *Privacy Act* is to ensure the protection and responsible usage of personal information held by Canadian government institutions. The Act “gives Canadian citizens, permanent residents, and individuals present in Canada the right to access their personal information held by government institutions that are subject to the Act, and protects that information against unauthorized collection, use, retention and disclosure”¹ and as a result provides individuals with greater control over their personal information held by government institutions in Canada.

The NIRB is an institution of public government created by the *Nunavut Agreement* to assess the potential impacts of proposed development in the Nunavut Settlement Area prior to approval of the required project authorizations. Using both traditional knowledge and recognized scientific methods, the NIRB assesses the potential biophysical and socio-economic impact of proposals and will make recommendations and decisions about which projects may proceed. The Board may also establish monitoring programs for projects that have been assessed and approved to proceed. The NIRB's mandate and authority comes from Article 12 of the *Nunavut Agreement* and the *Nunavut Planning and Project Assessment Act*.

The NIRB is committed to ensuring the privacy of the personal information it collects through its processes. Though the NIRB collects a relatively small amount of personal information and has yet to receive a Personal Information Request, it maintains a strong set of policies and procedures to ensure its adherence to the Act.¹

¹ <https://www.canada.ca/en/treasury-board-secretariat/services/access-information-privacy.html>

2. Organizational Structure

The NIRB is a relatively small organization with 26 staff members reporting to a Board of Directors. It is organized into four (4) departments with the Executive Department overseeing the Finance and Administration, Technical, and Communications Departments. There are two (2) staff members directly responsible for ensuring adherence to the *Privacy Act* (the Act); the Executive Director and the Environmental Technologist.

The role of the Executive Director, as it pertains to the Act, is to ensure the NIRB is adhering to its responsibilities under the Act and to provide final approval of all responses to Personal Information (PI) requests. The Executive Director also manages any consultations from other government institutions and agencies relating to the Act.

The Environmental Technologist's responsibilities relating to the Act include coordinating responses to PI requests received under the Act, ensuring that the NIRB's processes and procedures as they relate to the Act are up to date, monitoring the NIRB's online Access to Information and Privacy (ATIP) request system, and preparing annual and statistical reports.

The NIRB recognizes that all staff members have a role to play when it comes to the protection of personal information and maintains policies and protocols to that effect.

There are two (2) principle ways in which the NIRB can receive PI requests. The first is through correspondence in the form of an official letter delivered to the NIRB. The second is through the online ATIP request system found on the NIRB's website (<http://www.nirb.ca/information-requests>). This tool provides a simple method for members of the public to both submit ATIP requests to the NIRB and to review what other requests have been made in the past.

It should be noted, however, that this online tool for submitting ATIP requests is in the process of being phased out due to the NIRB's recent onboarding to the new ATIP Online Request Service (the AORS). More information about this development can be found in section 6 of this report.

3. Delegation Order

The powers and responsibilities of the NIRB's Executive Director under the *Privacy Act* (the Act) have not been formally delegated using a delegation order. However, as stated above, the Environmental Technologist's job description includes duties related to the Act.

4. Highlights of the Statistical Report, 2020-21

The NIRB submitted its 2020-21 Statistical Report to the Treasury Board Secretariat (TBS) by email on June 4, 2021. As indicated in the report, the NIRB received no Personal Information (PI) requests during the reporting period. This result is consistent with all other reporting periods as the NIRB has never received a PI request.

This lack of PI requests is understandable, as the NIRB collects a relatively small amount of private personal information. This is partly due to efforts taken by the NIRB to limit the personal information it collects to only what is required for operations, in adherence to the *Privacy Act*, and because a significant portion of the NIRB's processes are highly public in nature. For example, personal opinions expressed by members of the public during the NIRB's review processes are given with the full understanding that they are being made in a public forum and will be made available in public documents such as comment forms and hearing transcripts. The majority of the private personal information that the NIRB does manage is collected in the service of staffing and human resources, such as resumes, identification, or financial information

required for payment. The NIRB maintains a strong set of policies and procedures to safeguard this type of information.

The cost indicated in the statistical report (\$14,409) expresses one tenth (0.10) of the salary of the environmental technologist. This cost relates to this position's duties relating to both the *Access to Information Act* and the *Privacy Act*. This figure does not include the salaries of staff members

who may be involved in internal consultations relating to ATIP requests.

As there were no PI requests in the reporting period, there are no highlights to report regarding request dispositions, completion times, exemptions, exclusions, extensions or consultations.

A copy of the NIRB's 2020-21 statistical report can be found in Annex 1.

5. Training and Awareness

During this reporting period several one-on-one meetings were held with newly recruited staff members to inform them of the policies and procedures of the NIRB, including those relating to compliance with the *Privacy Act*. Periodic reminders are also provided to all NIRB staff and board members.

6. Policies, Guidelines, Procedures and Initiatives

During the 2020-21 reporting period, the NIRB completed the process of onboarding to the ATIP Online Request Service (AORS). The AORS is an online platform that the public can use to submit ATIP requests to a wide range of Federal Government institutions with the purpose of streamlining the ATIP submission process. The NIRB is supportive of the AORS initiative as it promises to provide an efficient system for users and increase transparency across a wide range of institutions.

To ensure the system remains streamlined, the NIRB has phased out its online ATIP tool in 2019-20. The NIRB, however, will maintain its current Information Requests page on its website for reporting purposes and are currently providing a link to the AORS website for users to submit a request. Additionally, the NIRB plans to use this page to outline alternative methods of accessing information held by the NIRB in an effort to reduce the number of ATIP requests that pertain to documents that are already publicly available. No other changes were made to the NIRB's policies, guidelines, procedures and initiatives as they relate to the *Privacy Act* during the 2020-21 reporting period.

7. Summary of Key Issues and Actions Taken on Complaints or Audits

The NIRB received no complaints, audits or investigations during the reporting period.

8. Monitoring Compliance

In the event of a Personal Information (PI) request, the NIRB would ensure its adherence to the timelines required by the *Privacy Act* by maintaining regular communication between the

Environmental Technologist and the Executive Director during the processing of the request as well as by using the tracking system that is built into the NIRB's online ATIP tool. This tracking system allows both internal and external users of the website to see when a request was filed, what the current status of the request is and, when complete, how long it took for a request to be closed. Despite the fact that the NIRB has never received a PI request, these practices are in place to maintain accountability between the Communications and Executive Services departments and between the NIRB and the public.

9. Material Privacy Breaches

No material privacy breaches were reported to the Office of the Privacy Commissioner or the Information and Privacy Policy Division, Treasury Board of Canada Secretariat during the 2020-21 reporting period.

10. Privacy Impact Assessments

The NIRB did not perform any Privacy Impact Assessments during the 2020-21 reporting period.

11. Public Interest Disclosures

No public interest disclosures were made under paragraph 8 (2)(m) of the *Privacy Act* during the reporting period.

Should you have any questions or require clarification on specific points within this report, please contact the undersigned directly at (867) 983-4608 or via email at kcostello@nirb.ca.

Sincerely,

Karen Costello
Executive Director
Nunavut Impact Review Board

Statistical Report on the *Privacy Act*

Name of institution: Nunavut Impact Review Board

Reporting period: 2020-04-01 to 2021-03-31

Section 1: Requests Under the *Privacy Act*

1.1 Number of requests

	Number of Requests
Received during reporting period	0
Outstanding from previous reporting period	0
Total	0
Closed during reporting period	0
Carried over to next reporting period	0
