TITLE: CANDAC-The Canadian Network for the Detection of Atmospheric Change

OBJECTIVES OF RESEARCH:

The Canadian Network for the Detection of Atmospheric Change (CANDAC) continues to operate the Polar Environment Atmospheric Research Laboratory. Aside from the impact of the COVID-19 pandemic, our operations remains targeted at approximately 330 manned operator days per year, and will continue to remotely operate as many instruments as possible. We continue to publish research papers in peer-reviewed journals and to make numerous presentations at national and international conferences and workshops and are members of multiple-nation Arctic research coordination efforts such and the Sustaining Arctic Observing Network and the International Arctic Systems of Observing the Atmosphere. CANDAC continues to offer resources for teachers available on our website as well as continuing to participate in teacher training conferences and science outreach events for students.

TERMS & CONDITIONS:

The holder of the licence will be bound by the terms and conditions of the Nunavut Impact Review Board Screening Decision Report and the Department of Culture & Heritage archaeological sites terms and conditions. These terms and conditions will form part of this licence. These terms and conditions will form part of this license.

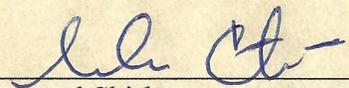

DATA COLLECTION IN NU:

DATES: May 2,2022 to December 31,2022

LOCATION: Eureka

Scientific Research License 02 034 22R-M expires on December 31,2022

Issued at Iqaluit, NU on May 2,2022
