Good Morning,

Project proposal Title : Investigating Scott Inlet seeps with autonomous underwater vehicles, by Memorial University, NIRB #: 22YN022 with commenting closing date of June 03, 2022 was reviewed last night during Clyde River Hunters & Trappers Association board of directors regular meeting and it was concluded that more time is needed to properly consult with our members because the area in question is important hunting and traveling zone.

So therefore we are requesting that a commenting date to be extended to June 30, 2022.

Thanking you in advance

James Arreak  
Manager
