Subject: RE: Is a Land Use Permit Required for Drilling within Municipal Boundaries

Good Morning Tara,

After a quick search in our data base and the Government of Nunavut (GN) data system I have found that the lot (447) you are talking about is in fact within the Hamlet of Baker Lake and appears to be under the administration and control of the GN.

Our office only authorizes land use in areas under the administration and control of Crown Land. I believe you may want to seek authorization form the Hamlet or the Commissioner.

I hope this answers your question.

Best regards,  
Jeremy Fraser  
A. Manager of Lands/ Land Administrator Specialist  
CIRNAC  
867-975-4553

Subject: Is a Land Use Permit Required for Drilling within Municipal Boundaries

Good Afternoon Tracey and Jeremy,  
Can you tell me if any authorizations are required from CIRNAC for drilling a hole to test for the potential for geothermal energy.  
The test hole will be located in the Hamlet of Baker Lake, on the QEC land parcel 447, which already houses the power plant.  
I have attached the Non-technical Summary with the description of the project proposal.  
Thanks very much,  
Tara
