**Re: Notice of Screening and Comment request for McGill University's "Developing new technologies to investigate the Devon Island subglacial lake system" Project Proposal**

Dear Francis Emingak,

On June 13, 2022, the Nunavut Impact Review Board (NIRB) invited parties to comment on McGill University's "Developing new technologies to investigate the Devon Island subglacial lake system" project proposal. Crown-Indigenous Relations and Northern Affairs Canada (CIRNAC) appreciates the opportunity to provide comments and offers the responses below as it pertains to the NIRB's request:

**Any matter of importance to the Party related to the project proposal.**

**CIRNAC #1: Potential for Positive Effects to Inuit Through Employment, Training, and Procurement Opportunities**

CIRNAC recommends that the Proponent prioritize the employment and training of local Inuit as well as procurement with Inuit-owned businesses when implementing project activities. Such efforts will allow for positive effects to be realized by community members and the local Inuit population. As a result, Inuit and Inuit-owned businesses situated in Grise Fiord and Resolute Bay should be prioritized in any project-related employment, training, and procurement opportunities that may be made available.

**CIRNAC #2: Consultation with Interested Parties**

CIRNAC recommends the Proponent consult with the Hamlet of Grise Fiord, the Hamlet of Resolute Bay, the Iviq Hunters and Trappers Organization, and the Resolute Bay Hunters and Trappers Association. Issues that should be considered as part of any consultation activities should include:

- Incorporation of Inuit knowledge and Inuit Qaujimajatuqangit into project activities;

- Mitigation measures designed to reduce disturbances to wildlife and the environment;
- The experience of community members who participate in traditional and non-traditional activities within or in close proximity to the project area;
- Training and employment opportunities for community members;
- Procurement opportunities for local businesses; and
- Regular updates on the status of project activities.

CIRNAC appreciates the opportunity to provide comments and looks forward to working with the NIRB and the Proponent throughout any further review phases related to this project. Should you have any questions, please contact Richard Bingley by e-mail at [richard.bingley2@rcaanc-cirnac.gc.ca](mailto:richard.bingley2@rcaanc-cirnac.gc.ca) or David Abernethy at (867) 222-1610 or email at [david.abernethy@rcaanc-cirnac.gc.ca](mailto:david.abernethy@rcaanc-cirnac.gc.ca).

Sincerely,

Felexce Ngwa  
Manager, Impact Assessment
