**Re: Notice of Screening and Comment request for Northern Energy Capital's  
"Mobile Wind Resource Assessment" Project Proposal**

Dear Mia Otokiak,

On July 13, 2022, the Nunavut Impact Review Board (NIRB) invited parties to comment on the Northern Energy Capital's "Mobile Wind Resource Assessment" project proposal. Crown-Indigenous Relations and Northern Affairs Canada (CIRNAC) appreciates the opportunity to provide comments and offers the response below as it pertains to NIRB'S request:

**Any matter of importance to the Party related to the project proposal.**

**CIRNAC 1: Environmental Impacts**

CIRNAC notes that the Proponent has identified appropriate impacts associated with the construction phase of the project. CIRNAC recommends that the Proponent also apply their impact preventative and mitigation measures regarding fuel and waste management to their transportation phases.

**CIRNAC 2: Potential for positive effects to Inuit through employment, training, and procurement opportunities**

CIRNAC recommends that wherever possible, the Proponent continue to prioritize the employment and training of local Inuit as well as procurement with Inuit-owned

businesses when implementing project activities. Such efforts will allow for positive effects to be realized by community members and the local Inuit population. As a result, Inuit and Inuit-owned businesses situated in Baker Lake should be prioritized in any project-related employment, training, and procurement opportunities that may be made available.

## **CIRNAC 2: Consultation with Interested Parties**

CIRNAC recommends that the Proponent work with the Hamlet of Baker Lake and consult interested community members on the proposed undertaking. Issues that should be considered as part of any consultation activities may include:

- Incorporation of Inuit knowledge and Inuit Qaujimajatuqangit into project activities;
- Mitigation measures designed to prevent any disturbance to the environment;
- Training and employment opportunities for community members;
- Procurement opportunities for local businesses, and
- Regular updates on the status of project activities.

CIRNAC appreciates the opportunity to provide comments and looks forward to working with the NIRB and the Proponent throughout any further review phases related to this project.
