Good Day NIRB,

After reviewing the documents from Northern Energy Capital, and Apex Geoscience Limited, we have concluded that this project is exempt from NRI licensing under Scientists Act. Our decision to waive the requirement is based on these two key considerations:

1. The study has been commissioned entirely by the QEC and is intended to support the potential development of new energy infrastructure for the territory.
2. Academic Institutions are not directly involved in conducting the research, and there is no intention to publish academic or peer reviewed science outputs based on the study.

We have reached out to Northern Energy Capital and Apex Geoscience Limited that this project is still of interest to NRI and would be appreciative receiving copies of any reports of activities and findings.

If you should have any questions and/or concerns, please feel free to contact our office anytime in regards to our finding.

Kind Regards,

Mosha Cote / ᓂᓄᓐ ᑕᓚᓂ
