...

After hearing that our staff wanted to help, we asked our site employees 3 voluntary questions:

“What do I like most about my job?”

“Why is my job important to me?”

“What does Baffinland being approved to mine 6 Mtpa mean to me?”

Here are their answers.

[#MyVoiceMatters](#)

Samuel Imaruituk
Igloodik

The thing I like best about my job at Baffinland is that I get to meet new people all the time, and participate in a lot of training programs. I have also gotten to learn how Baffinland mines and ships iron ore.

My job at Baffinland is important to me because it gives me a lot of knowledge of what I want to do in life, and it provides me and my family necessities in life that I would not be able to provide without this job.

Baffinland being approved to continue shipping 6 million tonnes is important to me because I know that so much more jobs can be provided not only for Inuit, but for everyone. Also the railway would provide better dust control compared to OHT Trucks on the road.

A large cargo ship, the 'BRAND EVIDENCE', is seen from a high angle, sailing on a deep blue sea. The ship has a white superstructure and a dark hull. In the background, there are rugged, brown mountains under a clear sky. The water shows some whitecaps near the ship's wake.

Baffinland is pleased to share a unanimous letter of support from the Ikajutit Hunters and Trappers Association in Arctic Bay, for our proposal to continue shipping at 6.0 million tonnes. Baffinland greatly appreciates the growing support, & urges NIRB & @stbstvdan to take note.

Re: Ikiqit Hunters' and Trappers' Association's position on Beffinland's request to mine extra 1.8 MMT.

Our board of directors held member meeting at our community hall to discuss the request of Baffinland to mine extra 1.8 million metric tonnes.

We heard some comments but did not receive any concerns from our members from the community and we have the members vote to support or not to support the request from Baffinland and all in attendance of the meeting showed in support for the request to mine extra 1.6 million metric tonnes for 2022.

This letter will show our official stand that the community of Arctic Bay is in support for Baffinland's request.

Sincerely,

Qaunmayuq Oyukuluk

The thing I like best about my job at Baffinland is that I am able to prep things in the kitchen and I get to feed lots of people every day, I like helping others!

My job at Baffinland is important to me because I like to be busy and get things done, I like helping others, and helping my family at home and being able to pay my bills.

Baffinland being approved to continue mining 6 million tonnes is important because everyone can keep their jobs. I love all of the communication at Baffinland and meeting people from all over the world.

NIRB is holding a Community Roundtable in Pond Inlet on Tues, Aug. 16, to discuss Baffinland's renewal proposal for 6.0 mt. Baffinland CEO Brian Penney, VP of Strategic Development, Udlu Hanson, & Sr. Advisor Paul Quassa, will be there to answer your questions. We are listening.

**NOTICE OF COMMUNITY ROUNDTABLE FOR
BAFFINLAND'S "PRODUCTION INCREASE
PROPOSAL RENEWAL" PROPOSAL**

The Nunavut Impact Review Board (NIRB) has scheduled a Community Roundtable on **August 16, 2022**. The objective of the meetings is to further the NIRB's assessment of Baffinland Iron Mines Corporation's "Production Increase Proposal Renewal" a proposed amendment to the approved Mary River Project.

The meetings will be held in Pond Inlet Community Hall with remote options for online participation.

The thing I like most about my job at Baffinland is that I learn new things and stay very busy as I sanitize buildings and clean the many trailers and workplaces at Baffinland

My job at Baffinland is important to me because it allows me to feed my family, like everyone else does. I don't want to ever give up or lose my job.

Baffinland being approved to continue shipping 6 million tonnes is important to me because I think there will be even more job openings then there is already.

Nunavut Impact Review Board
P.O. Box 1360
Cambridge Bay, NU X0B 0C0
Delivered via email

NIRB File: 08MN053

Dear Madame Chair,

Co-ops understand and appreciate the weighty responsibilities of making decisions that impact people who may have a lot in common, but do not always share the same views on important matters. It is the Nunavut Impact Review Board's (NIRB) responsibility to weigh all the impacts and provide recommendations to guide responsible project development of the Baffinland Iron Mines Mary River Project and, specifically, both the proposed Phase 2 expansion and the present application for 6.0 Mtpa. The purpose of this letter is to outline the impacts that Co-ops have seen resulting from the project so that you may consider them as you weigh all the submissions received.

The Mary River project has proven to be an excellent opportunity for Co-ops and their communities to prosper through contracting. As major contractors, the Co-op System has a shared responsibility to work with Baffinland as an active participant in the delivery of benefits through the Cooperative Business Model to improve everyday life in the communities. Each Co-op and community have distinct priorities with respect to delivering patronage rebates to Members, lowering prices, investing in community infrastructure, grants & donations, training & development, etc. Since 2018, the Co-ops in Arctic Bay, Igloodik, Pond Inlet and Sanirajak have returned over \$4,500,000 in patronage dividends to over 3,400 individual Members. The joint-venture partnerships of these Co-ops have provided over \$4.6 million to Co-op Members during the life of the project to date. It is our expectation that Phase 2 will bring additional economic opportunities to cooperatives that would be transformational with respect to the Co-op's ability to deliver benefits to individual Members. As for the application to continue shipping 6.0 Mtpa, should that application be denied and Baffinland operations cease, the Co-op System and individual Co-op Members will certainly experience material negative financial impacts.

Key additional direct measurable benefits through Baffinland contracting:

- Approximately 78 tons of Food delivered to Kaniqtugaapik Food Bank and Iliqsasivik Society in Clyde River
- Food/contributions of \$67,600 in the amount of approximately 21 tons provided to Qajuqturvik Food Centre in Iqaluit
- Food/contributions of \$75,000 in the amount of almost 22.5 tons of food provided to school foodbanks at Nakasuk and Joamie schools in Iqaluit
- Over 15 tons of water valued at more than \$50,000 contributed by BIM to the Iqaluit DEA during the water crisis October 2021
- \$10,650 contributed to the Nunavut Kamtsiaqtut Helpline
- \$5,250 contributed to the REACH Program in Iqaluit
- \$18,850 to sponsor Iqaluit New Year's Eve Fireworks 2020 & 2021 through 123Go
- Freight for Foodbanks Canada "After the Bell" program of almost \$6,100
- Country Food donation to Elder's Centre in Iqaluit valued at over \$1,600
- Christmas Food Hampers delivered to over 1,500 households in impacted communities
- Two separate cleaning/sanitation kits delivered to each of over 1,500 households in impacted communities during the pandemic valued at approximately \$300,000
- Contribution of an ATV and freight valued at over \$22,000 to the school in Grise Fiord

Co-op Members and their families in the communities have long suffered from a lack of employment, training and business opportunities, contributing to economic and social inequities. In addition to the positive impacts of contracting activity to support responsible development, there are enormous opportunities for employment available to Nunavummiut either directly with Baffinland or because of the spin-off benefits of the project.

Research commissioned by the Nutrition North Canada program highlights an inverse relationship between household income and reported household food insecurity. "Nationally, almost half of households with no more than \$10,000 annual income are food insecure, with that incidence dropping to about 10% among households with incomes between \$30,001 and \$40,000." (Phillips & Associates, 2017) and "...the fact that food prices are indeed higher in the North erodes the buying power of a given household income, exacerbating the effects of poverty." (Phillips & Associates, 2017). Anecdotally, Member Co-ops note increases in disposable income in the community when seasonal or temporary construction projects are employing community residents. Because of the estimated life-of-mine for this project, the employment opportunities can be transformational and multi-generational for the communities of the region, and significant Territorially.

The Qikiqtani Inuit Association (QIA) is the legitimate representatives of the Inuit people of the Region. We have confidence that they have negotiated a fair and reasonable Inuit Impact Benefits Agreement (IIBA) and subsequent Inuit Certainty Agreement (ICA). Please consider the impacts on communities as outlined above as you work towards your final decisions on these project applications.

Co-operatively yours,

Duane Wilson
