Subject: [EXTERNAL] TR: NIRB 125734: Return to Proponent for Université de Sherbrooke's "Multidisciplinary Observatory for Arctic Climate Change and Extreme EventsMonitoring (MOACC)" Project Proposal

CAUTION: This email originated from outside of the organization. Do not click links, open attachments or follow direction, unless you recognize the sender and know the content is safe.

Hi Calvin, I re-submitted but I am not sure I understand what is needed as you provided very little details on the items you listed, here is what I did:

§ Fill out the non-technical project description in English and Inuinnaqtun;

All the files are in the system since the beginning and original submission. They are still there, among which you already have project description in English and Inuinnaqtun...

§ In the Activities Section on the NIRB application, you mentioned arial surveys, can you put information on the arial equipment to be used in the Material Use section;

Yes this was added as requested: UAV, so in the re-submitted version I updated as requested.

§ Waste – Information on waste management; and

We work from CHARS campus, so no waste are to be produced on site, nor need to be managed. I looked into the waste option and I could not find option for 'not planned'...so I left it blank.

§ Information on the temporary camp.

The temporary camp is the one already on-site and owned and managed by POLAR (CHARS) so it would be under their own license. But it would only be used for storage of breaks and again, we will stay on CHARS campus. Should that info be added anywhere? If so I would appreciate where would you wish me to add this info.

Thanks for your patience!

Alex

Objet : NIRB 125734: Return to Proponent for Université de Sherbrooke's "Multidisciplinary Observatory for Arctic Climate Change and Extreme Events Monitoring (MOACC)" Project Proposal

22-Aug-2022

Dear Alexander Langois,

Your project proposal No. 125734 has been reviewed by the Nunavut Impact Review Board (NIRB or Board) and is being returned to you for further editing.

Please log in to your account on the NIRB website at www.nirb.ca to review the changes requested by NIRB.

- § Fill out the non-technical project description in English and Inuinnaqtun;
- § In the Activities Section on the NIRB application, you mentioned arial surveys, can you put information on the arial equipment to be used in the Material Use section;
- § Waste – Information on waste management; and
- § Information on the temporary camp.

Best regards,

Calvin Ehloak
Technical Administration Coordinator
