Agnico Eagle Mines Limited
for development of the
Meliadine Gold Mine Project Proposal
in the
Kivalliq Region of Nunavut

March 2, 2022

134 terms and conditions to
limit adverse ecosystemic
and socioeconomic effects

FEIS Addendum Composition

- Project description
- Components and activities
- Consultation and Engagement
- Impact Assessment
- Human Health and Ecological Risk Assessment
- Accidents and Malfunctions
- Mitigation, management and monitoring plans

AGNICO EAGLE

MELIADINE DIVISION

Meliadine Mine – Meliadine
Extension FEIS Addendum

JULY 2022

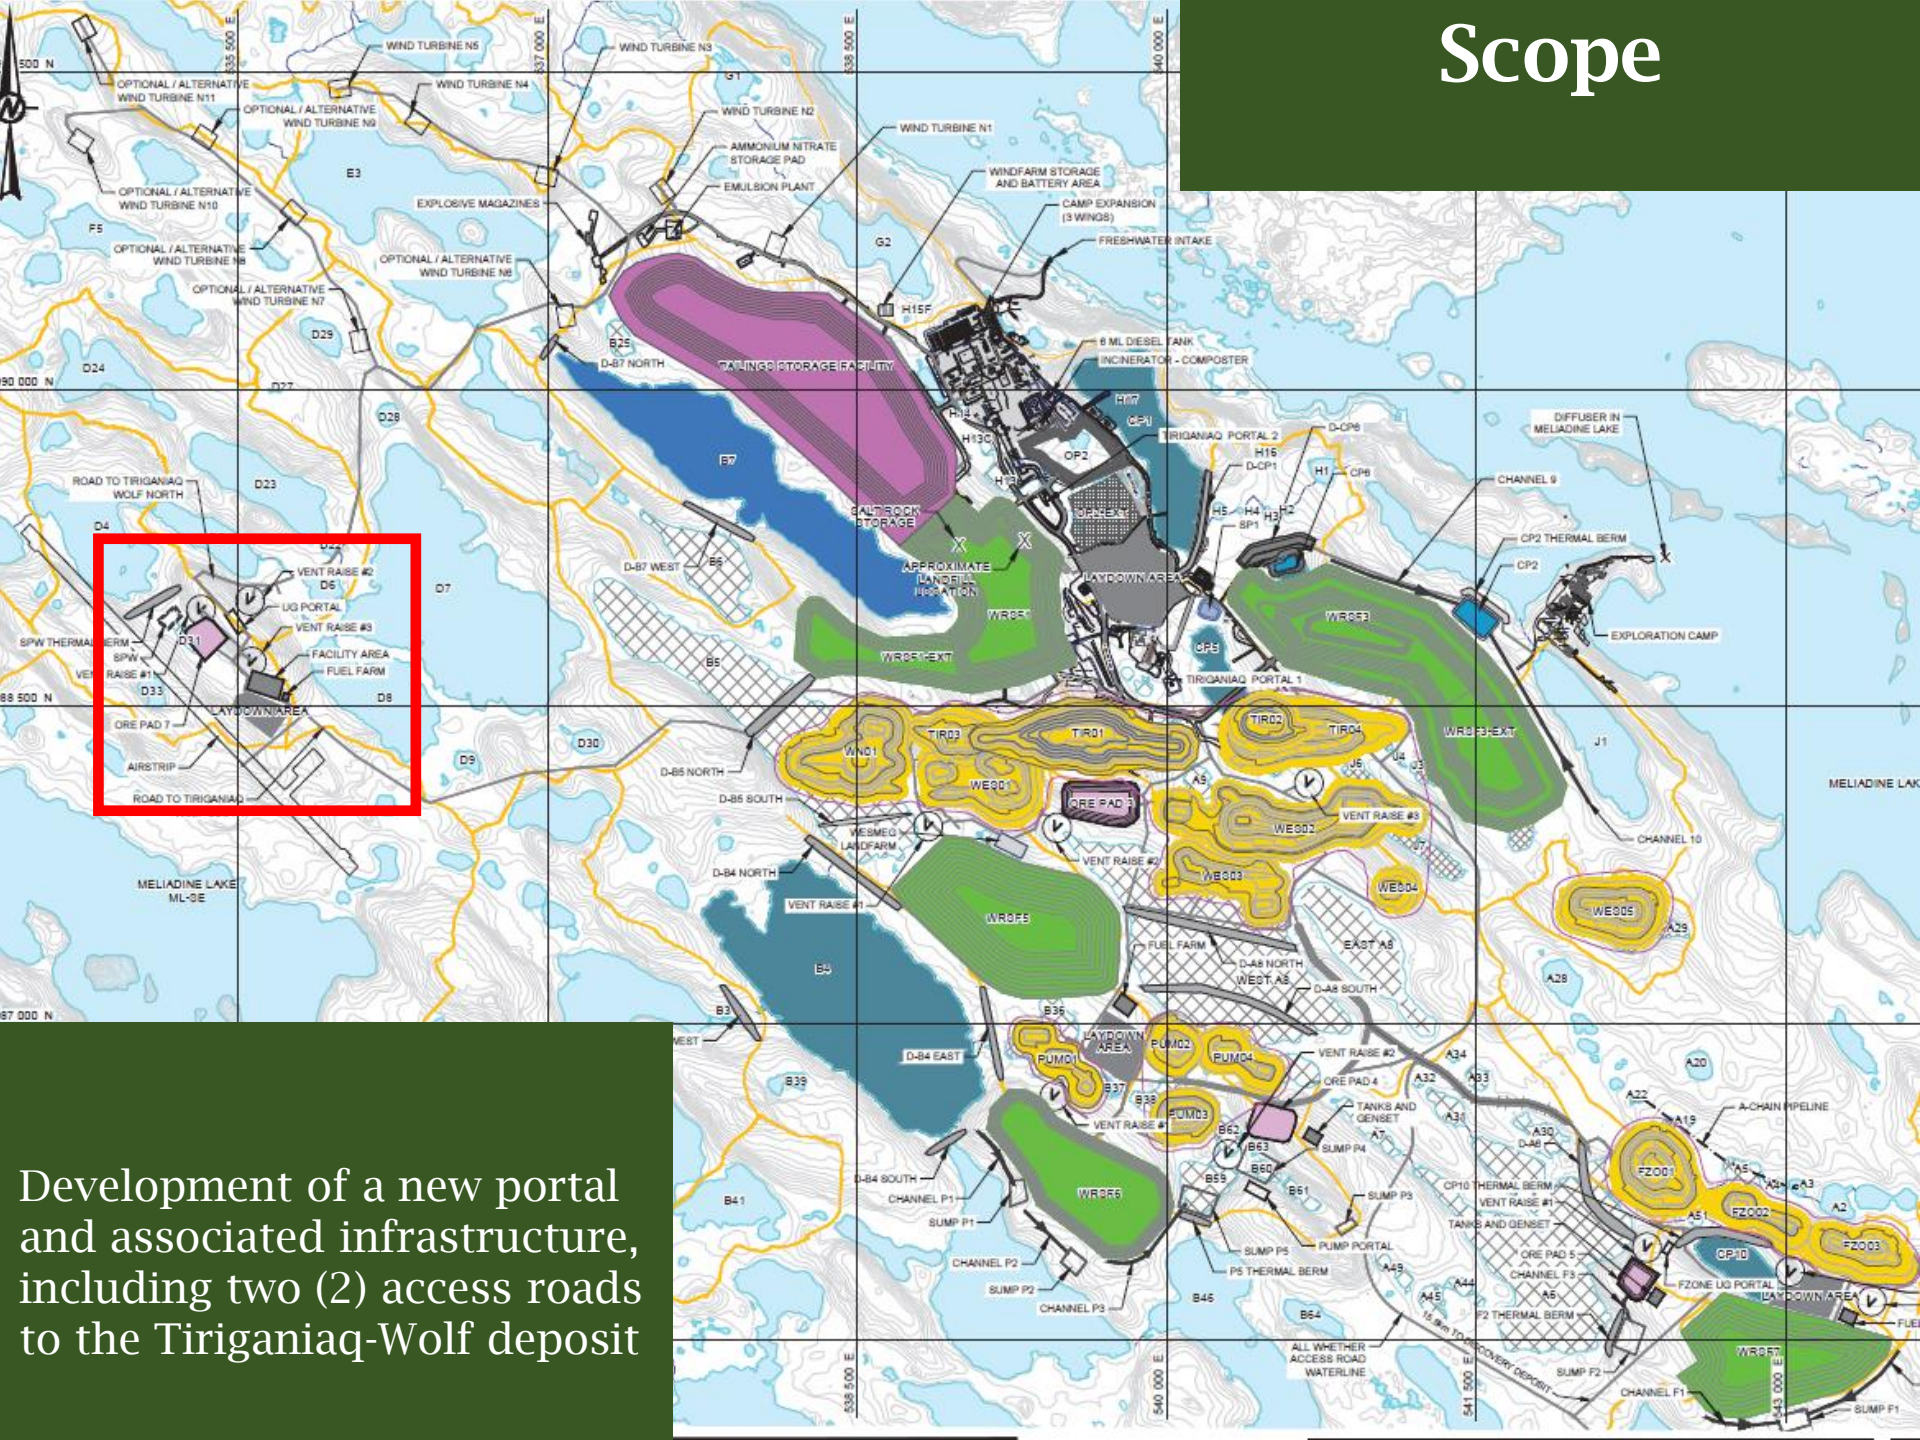

Scope

ᑭᓐᓂᓐ ᑭᓐᓂᓐ

- Addition of underground mining at the Pump, F Zone, and Discovery deposits, which were previously approved for open-pit mining;
- Extension of the operation phase (i.e. mine life) by 11 years to 2043;
- Increase in employment to 905 employees with associated camp expansion

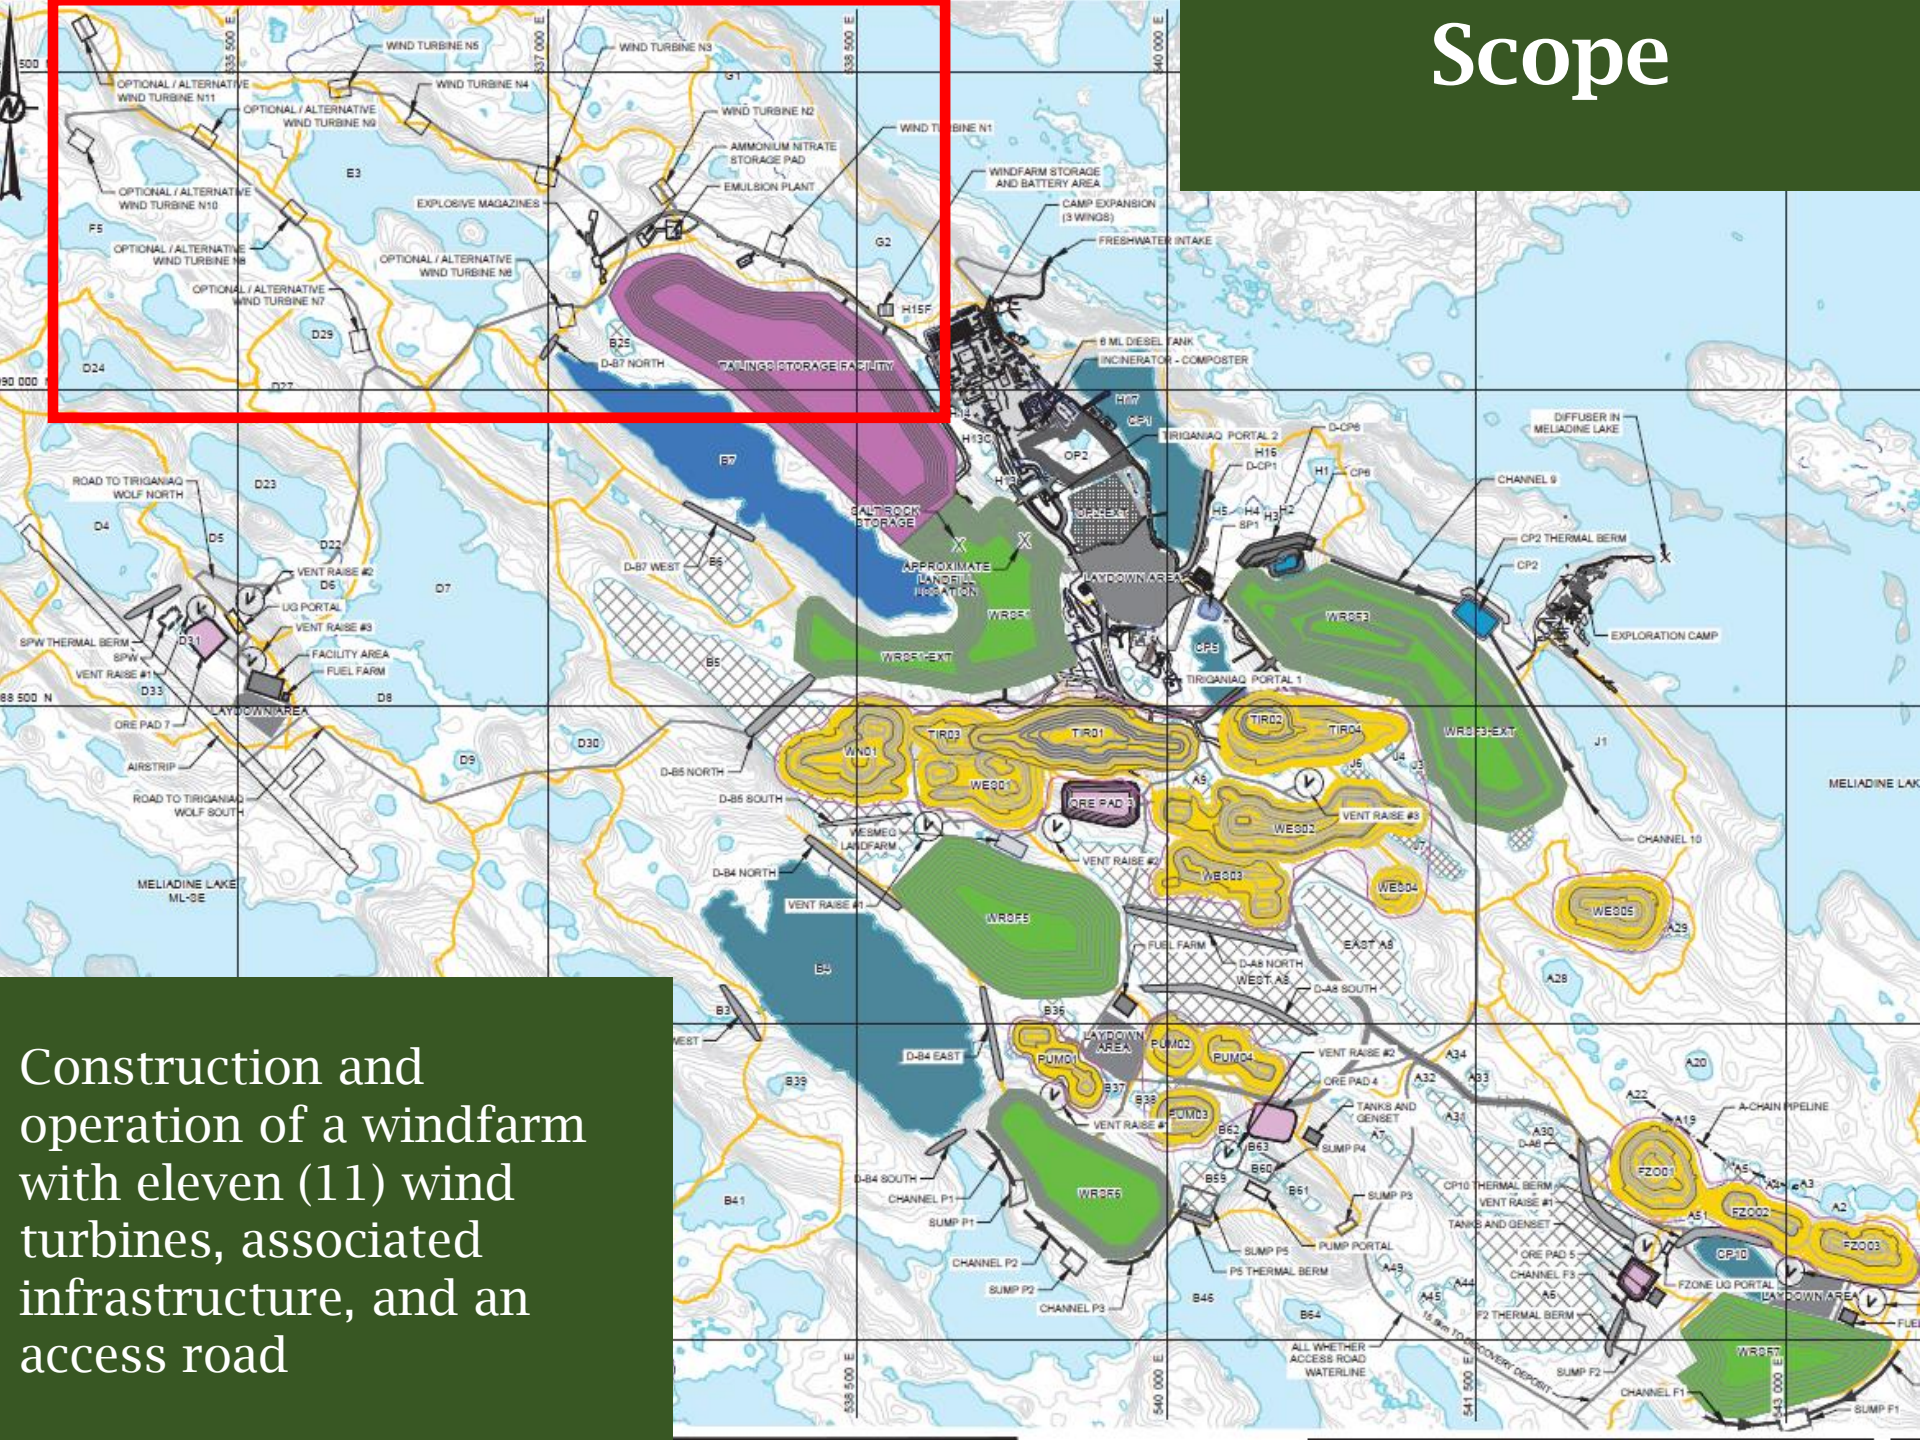

Scope

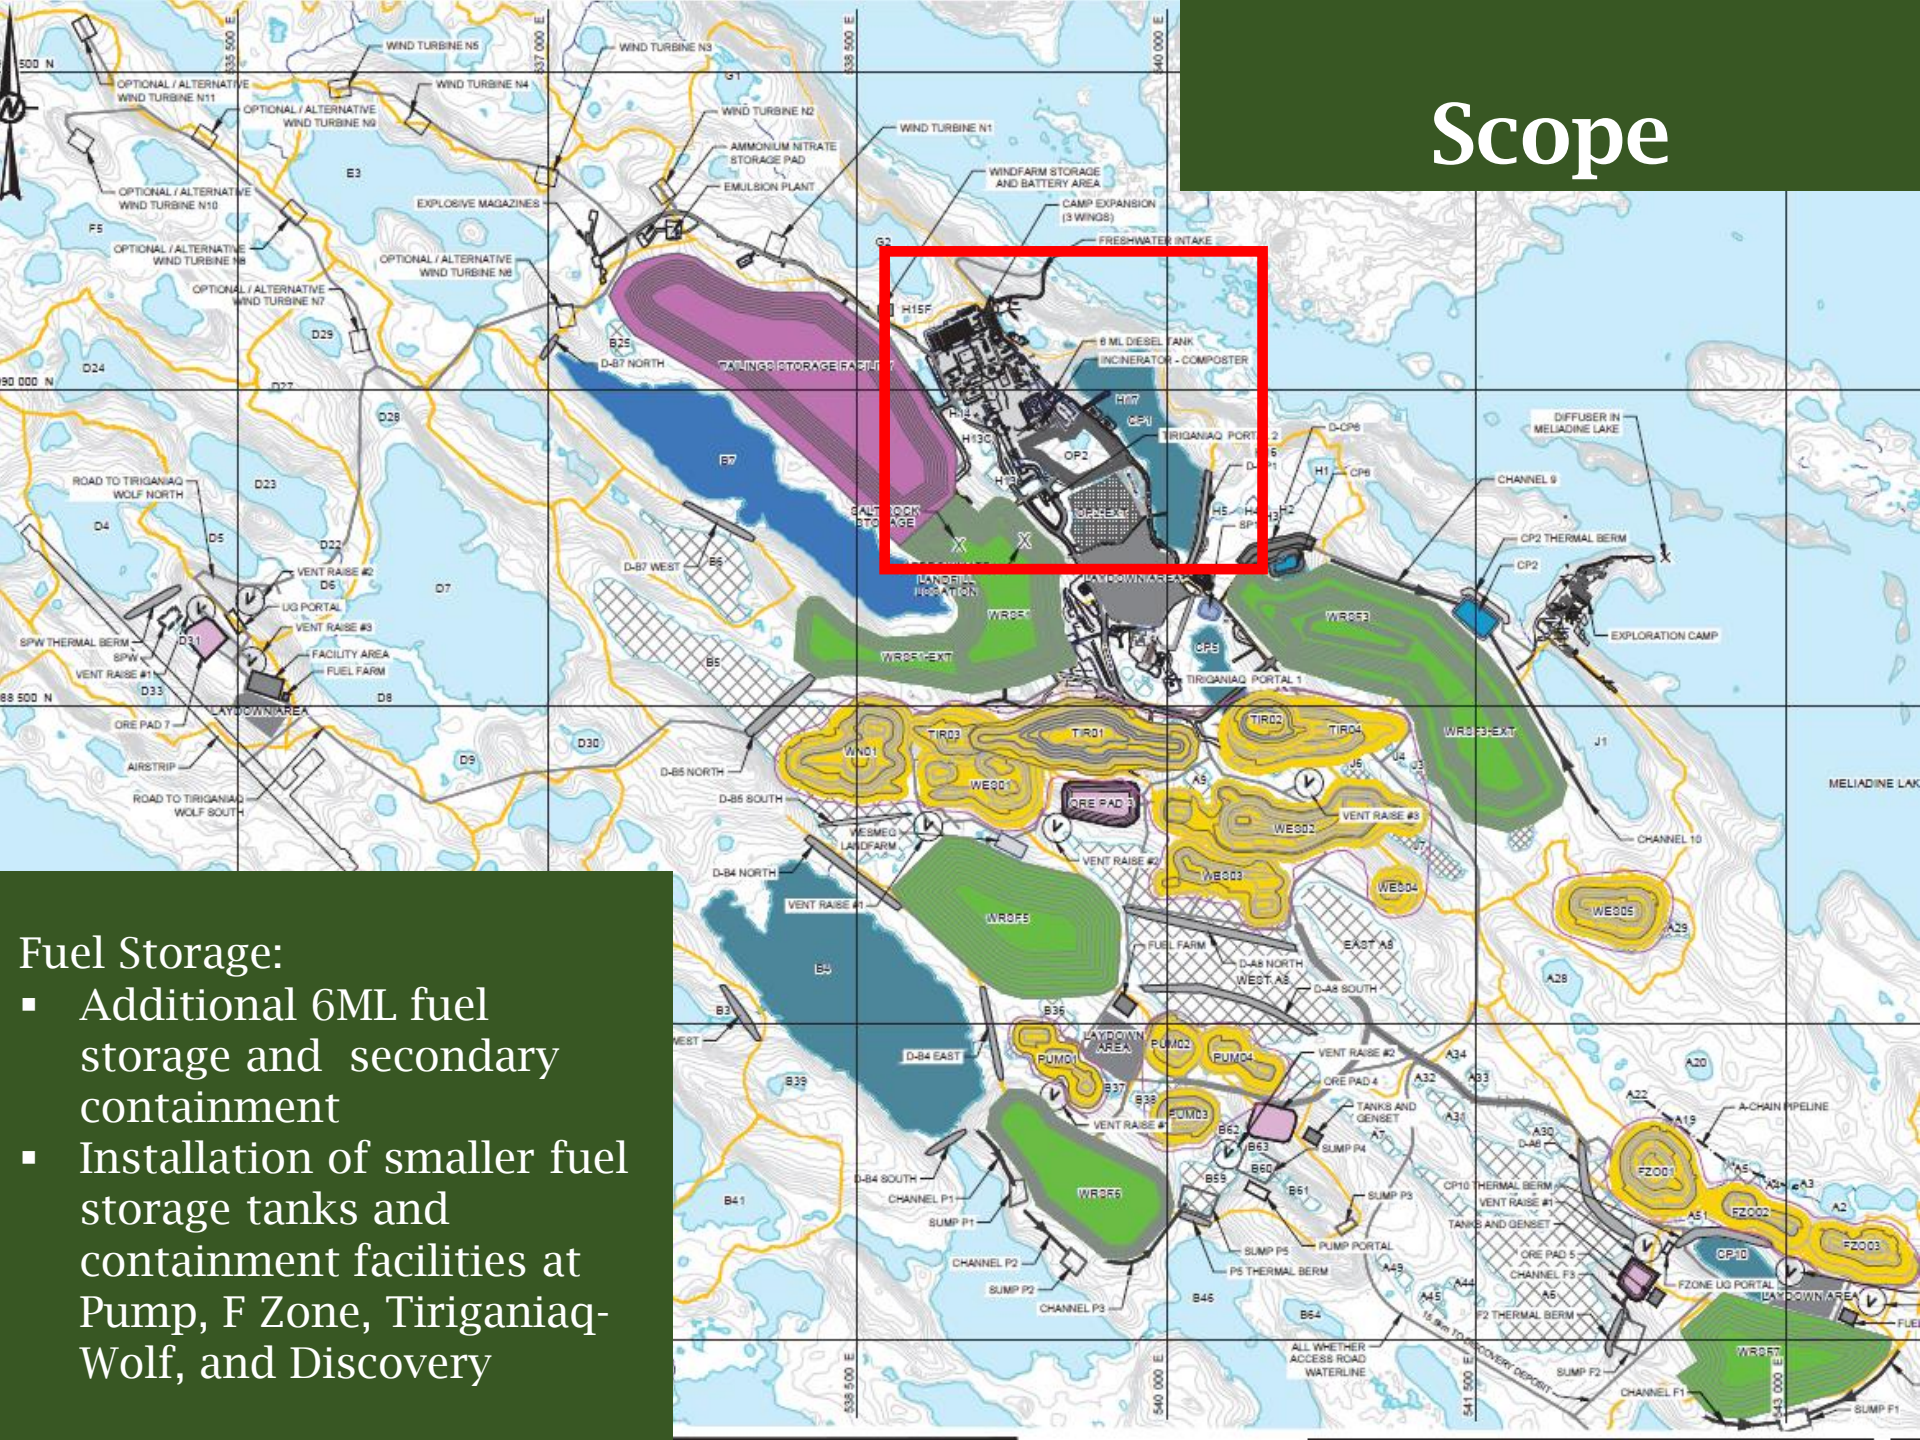

Development of a new portal and associated infrastructure, including two (2) access roads to the Tiriganiaq-Wolf deposit

Scope

Construction and operation of a windfarm with eleven (11) wind turbines, associated infrastructure, and an access road

Scope

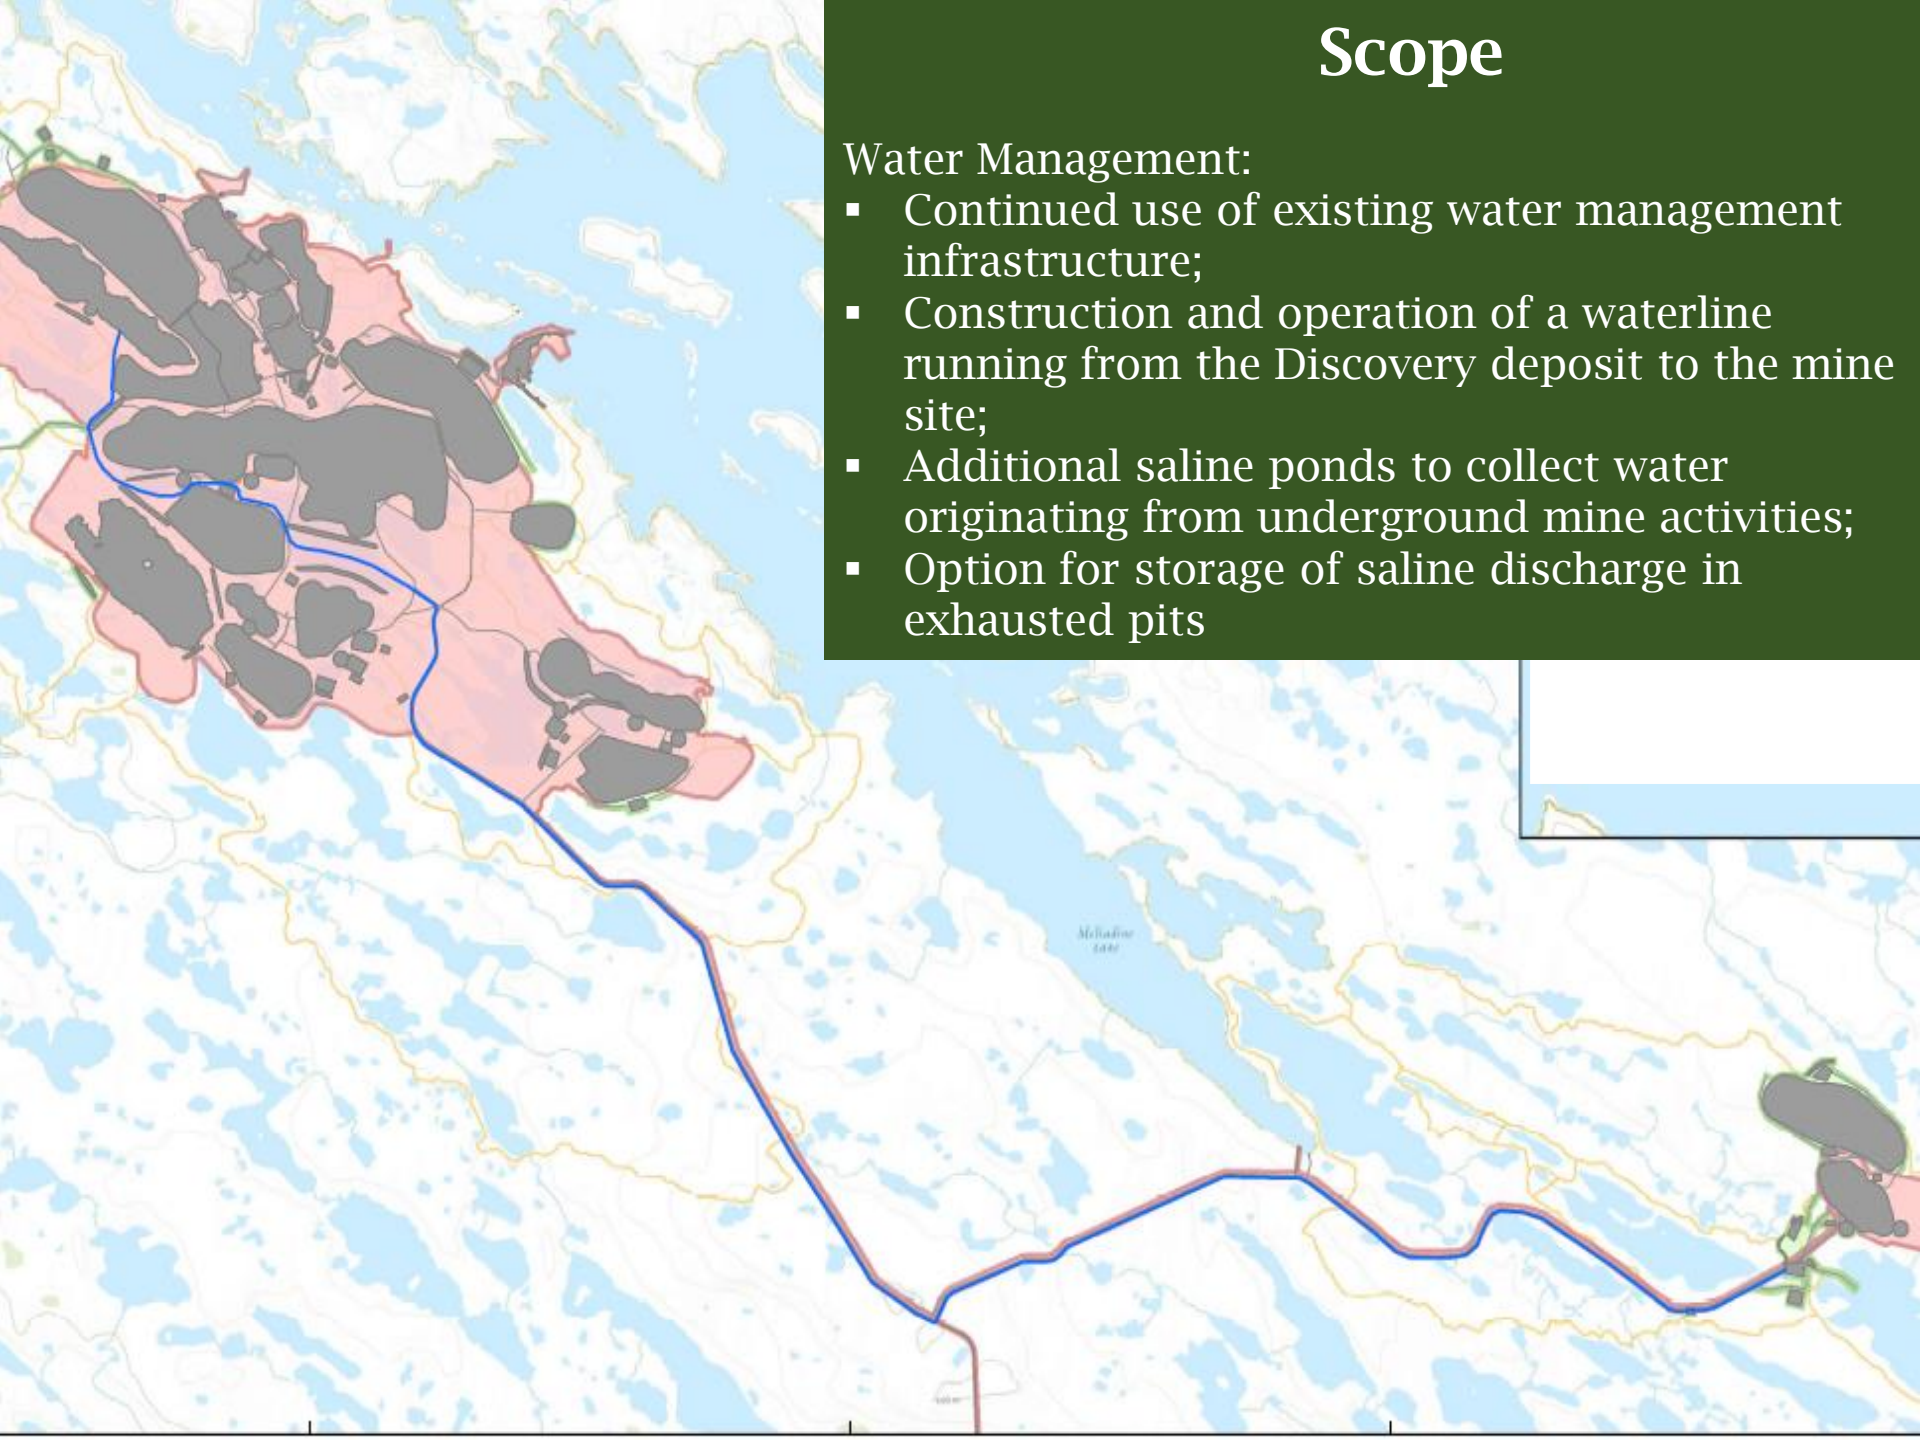

Fuel Storage:

- Additional 6ML fuel storage and secondary containment
- Installation of smaller fuel storage tanks and containment facilities at Pump, F Zone, Tiriganiaq-Wolf, and Discovery

Scope

Water Management:

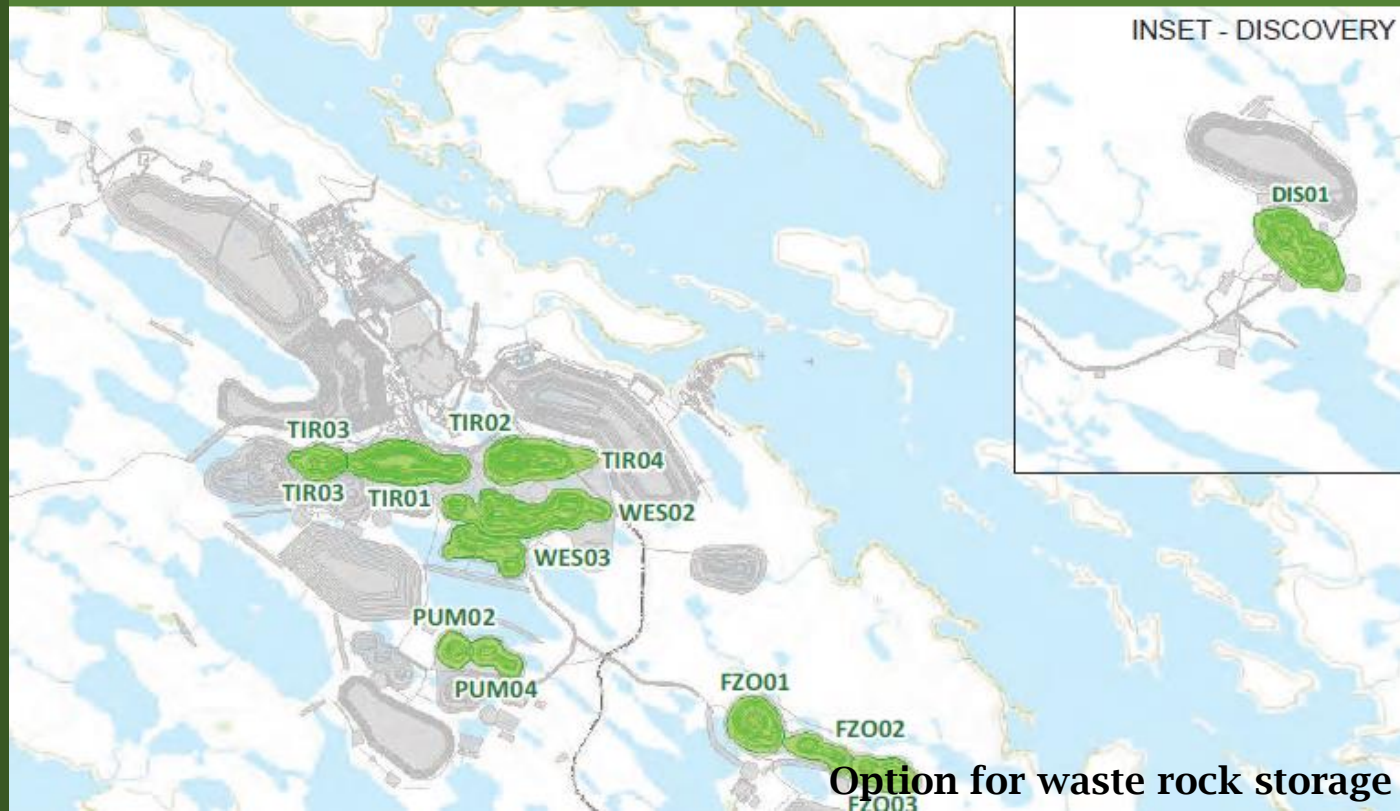

- Continued use of existing water management infrastructure;
- Construction and operation of a waterline running from the Discovery deposit to the mine site;
- Additional saline ponds to collect water originating from underground mine activities;
- Option for storage of saline discharge in exhausted pits

Scope

Waste Management:

- Continued use of existing waste management infrastructure;
- Addition of waste rock storage facilities, temporary salt waste rock piles, landfarms, a landfill and a composter;
- Option to store waste rock and tailings in exhausted pits

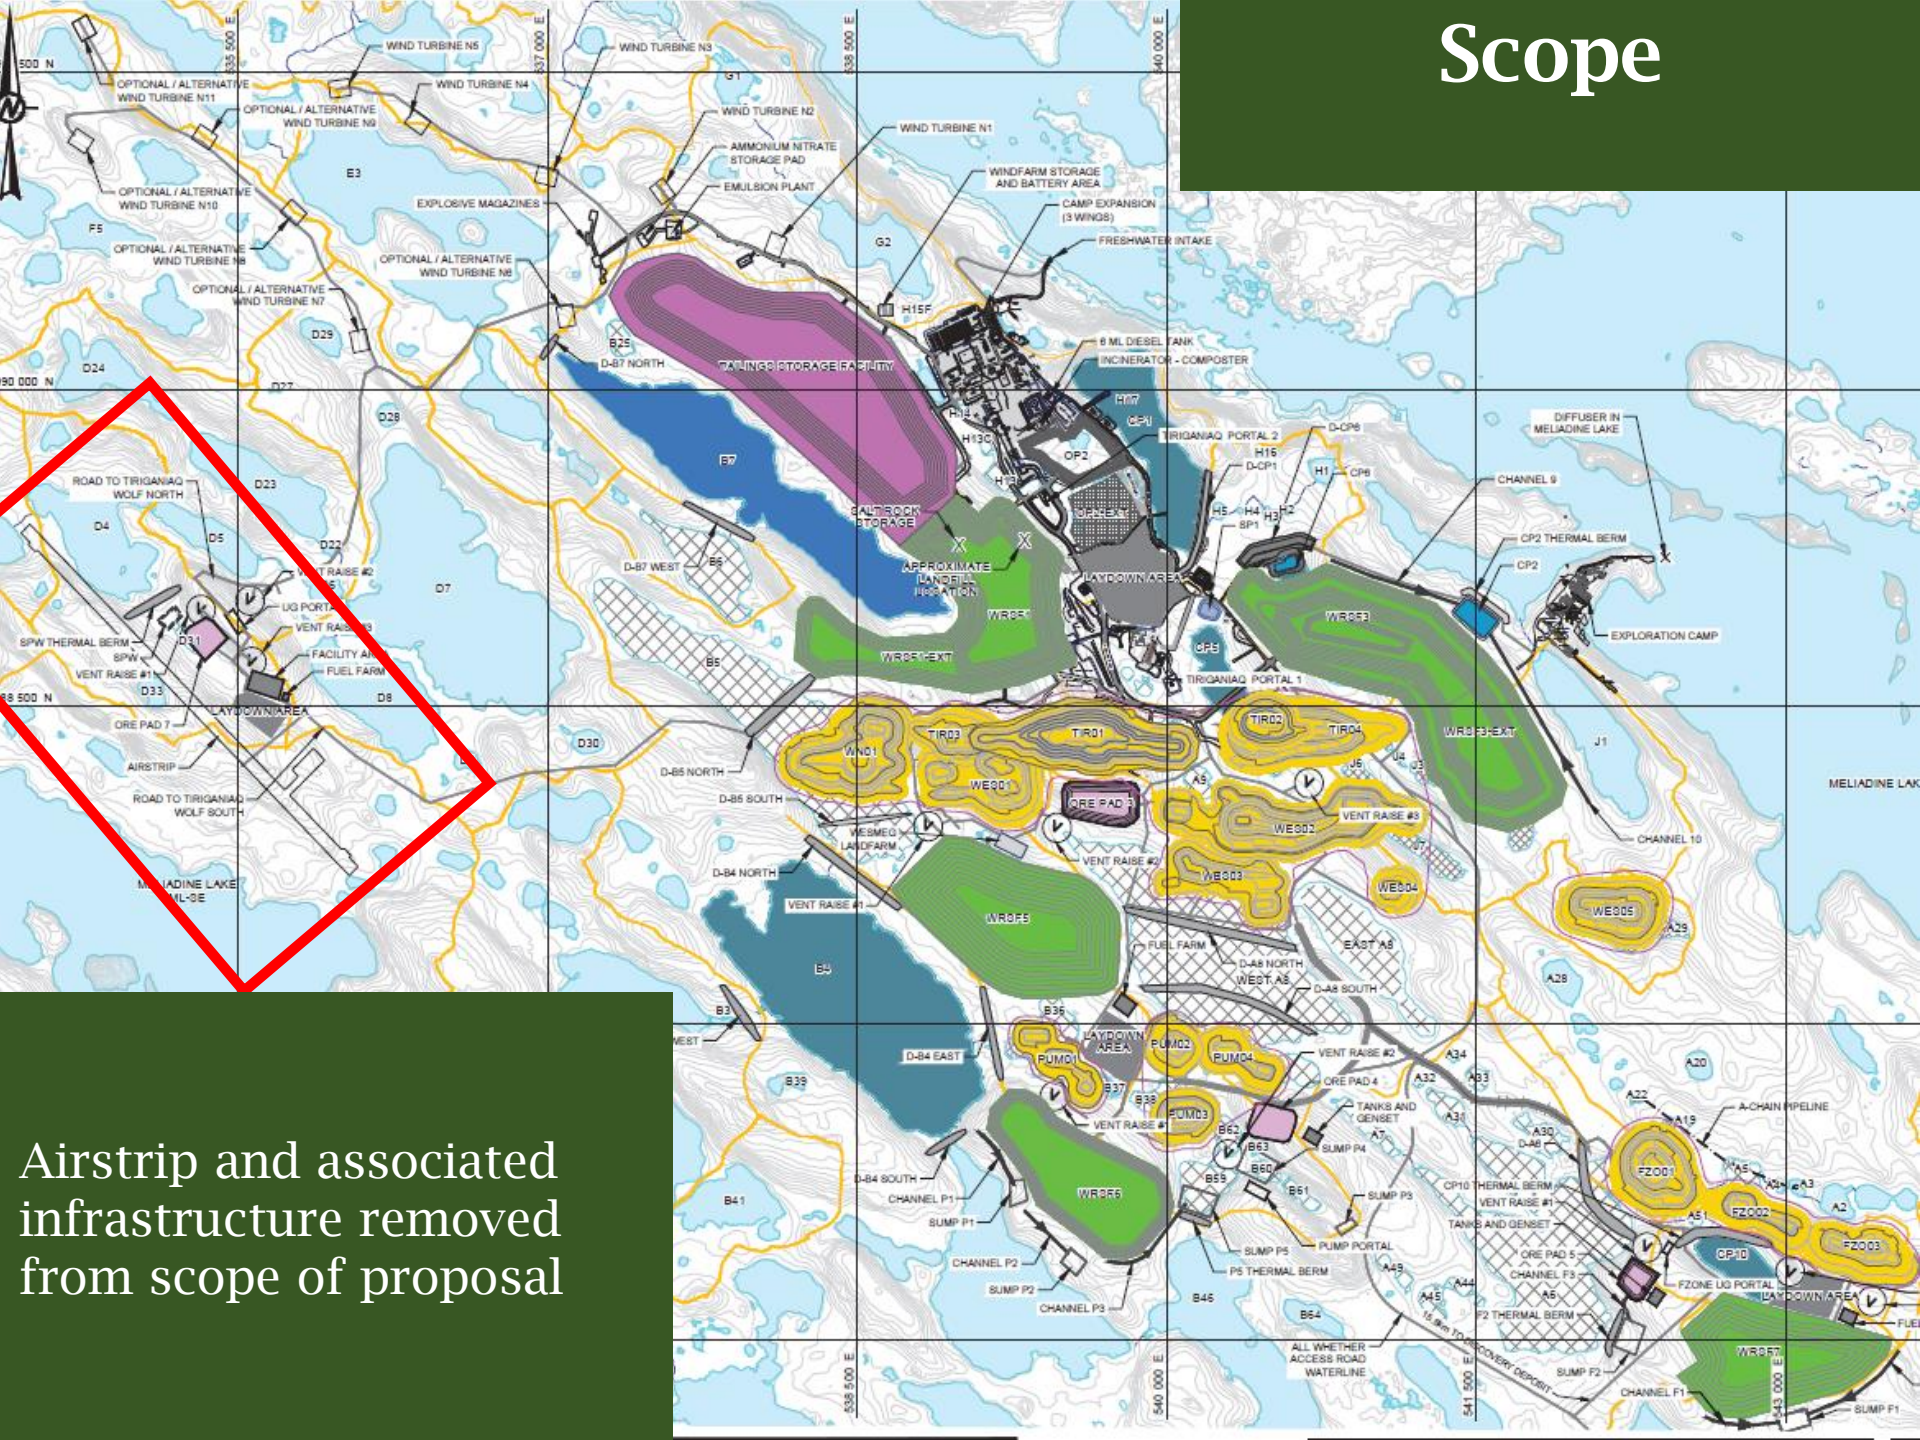

Scope

Use of additional borrow pits and quarries to replace depleted sources and build a road to the windfarm, Tiriganiaq-Wolf portal, airstrip, and road to Discovery and other deposits

Scope

Airstrip and associated infrastructure removed from scope of proposal

NIRB Assessment Process

- What do you think about the Project Proposal?
- Comments, questions or concerns
- What environmental or socio-economic components are important to you?
- What potential effects do you think this Project might have on the land, animals and people?

Nunavut Information Sessions - Comments from the Community:

Ecosystemic

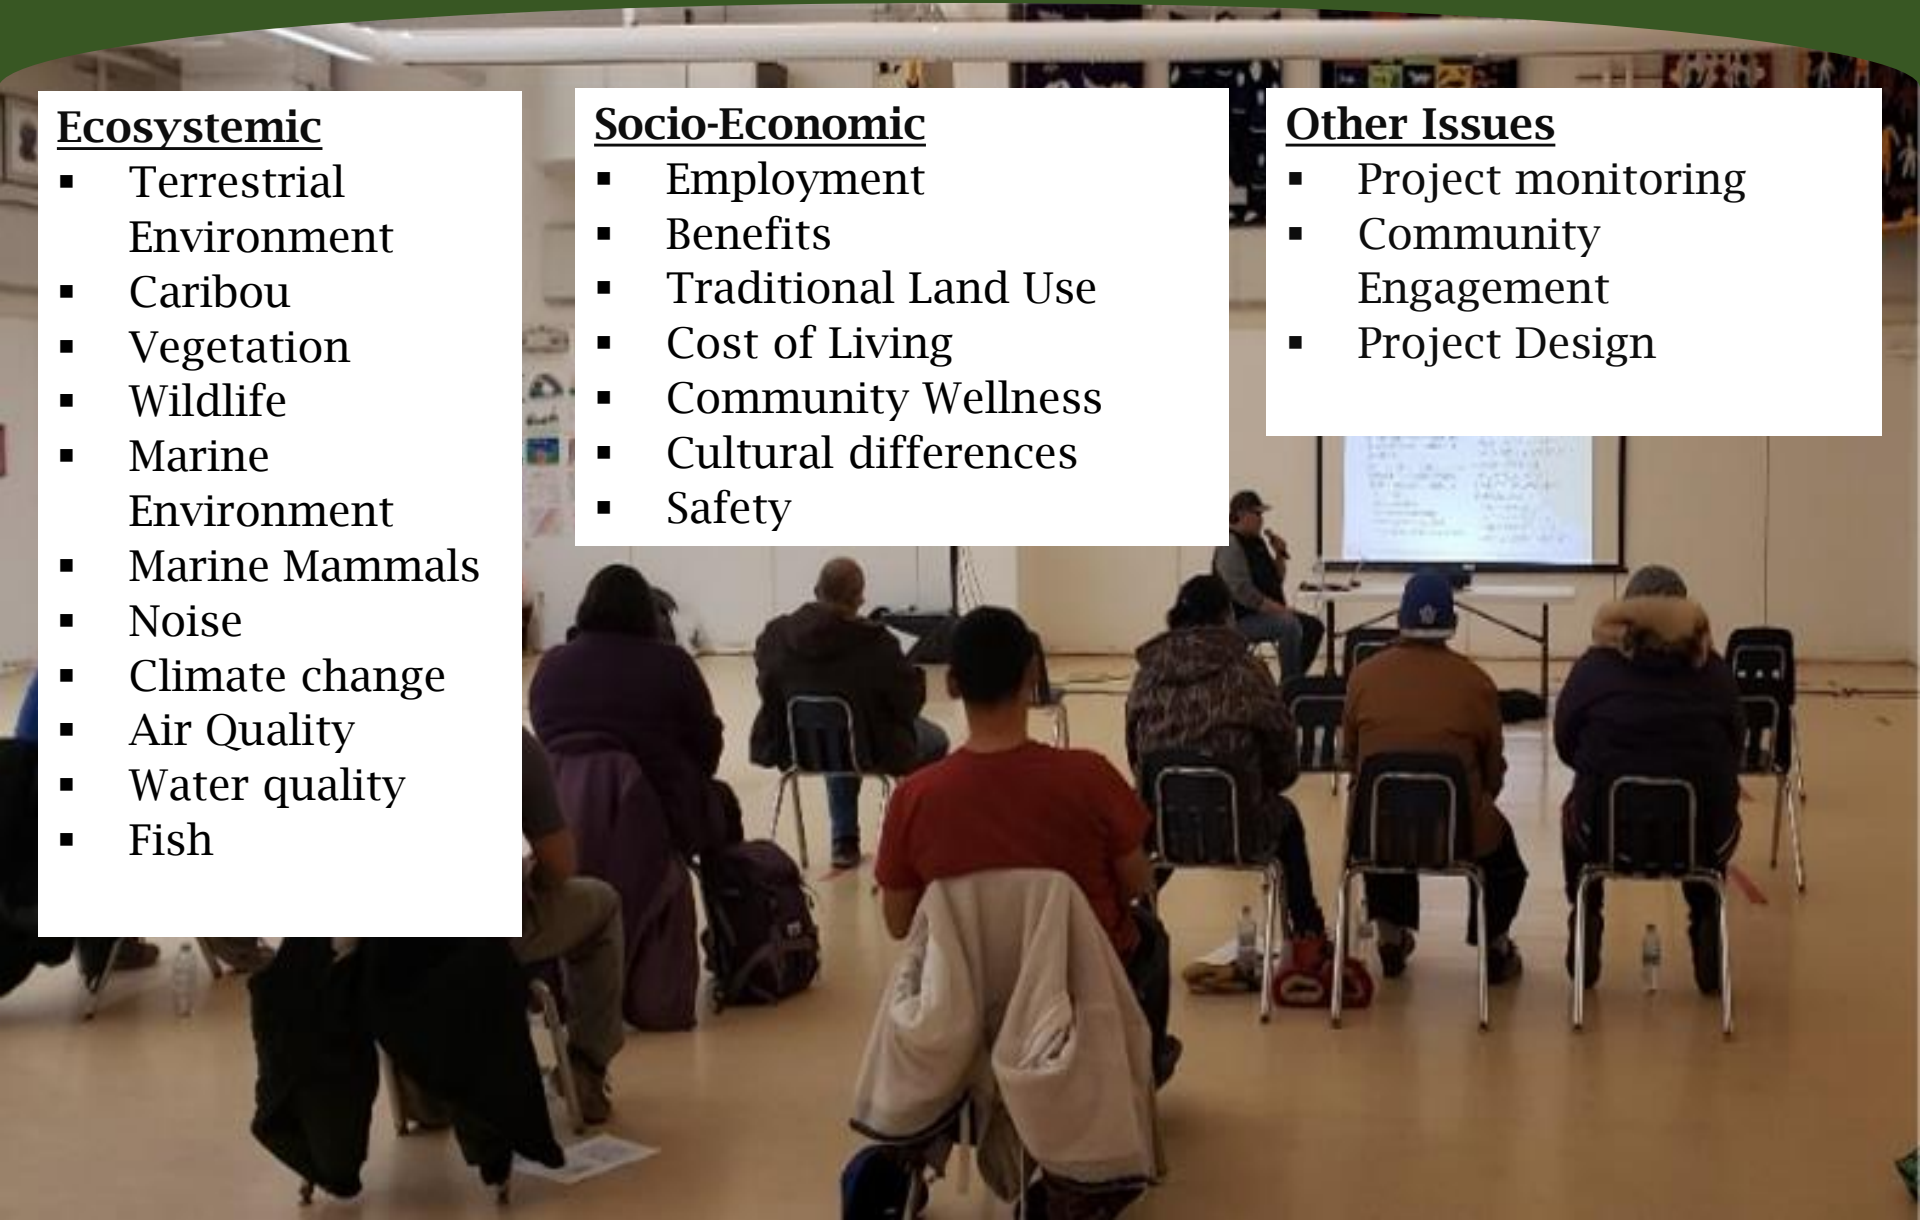

- Terrestrial Environment
- Caribou
- Vegetation
- Wildlife
- Marine Environment
- Marine Mammals
- Noise
- Climate change
- Air Quality
- Water quality
- Fish

Socio-Economic

- Employment
- Benefits
- Traditional Land Use
- Cost of Living
- Community Wellness
- Cultural differences
- Safety

Other Issues

- Project monitoring
- Community Engagement
- Project Design

Community Roundtable- Comments from the Community:

Ecosystemic

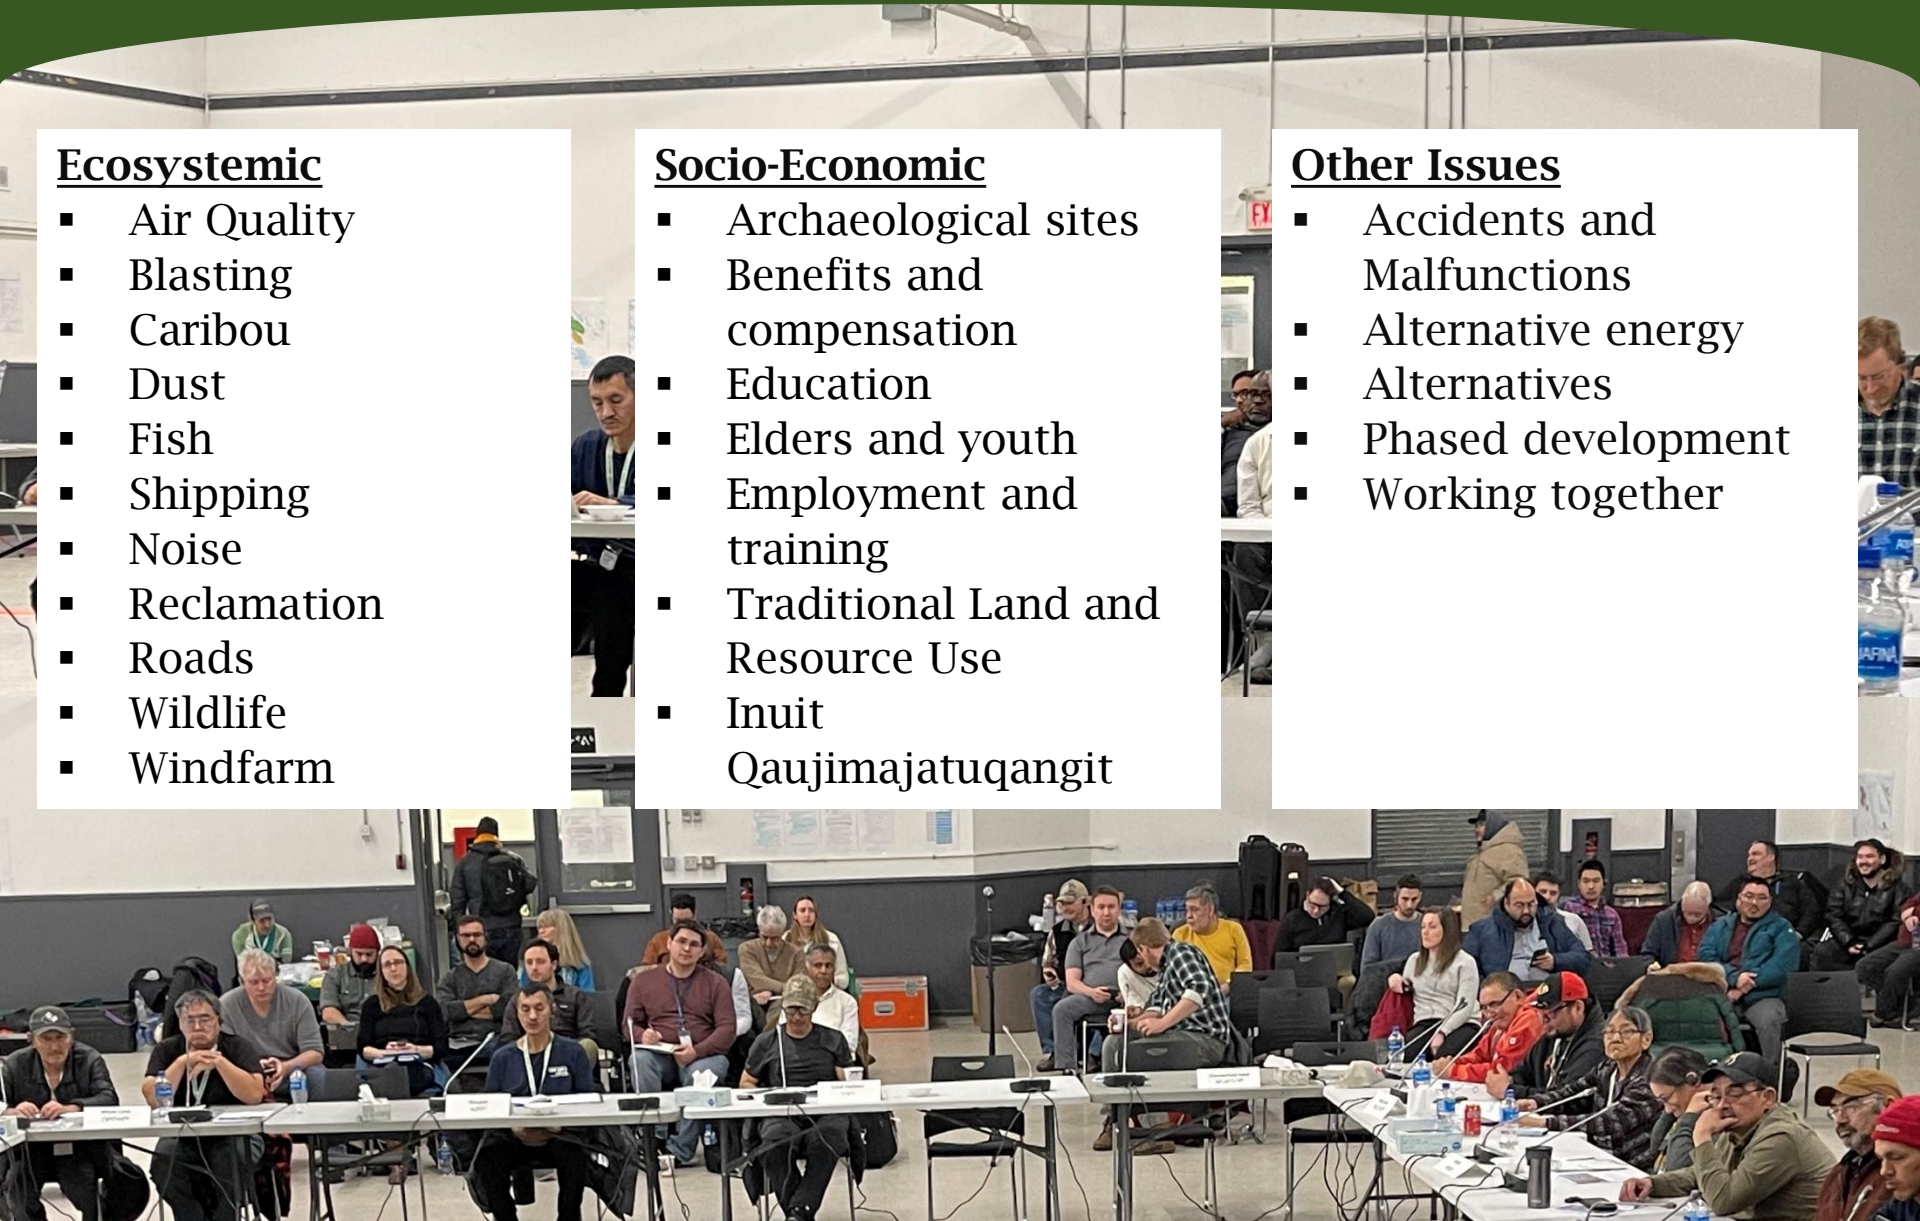

- Air Quality
- Blasting
- Caribou
- Dust
- Fish
- Shipping
- Noise
- Reclamation
- Roads
- Wildlife
- Windfarm

Socio-Economic

- Archaeological sites
- Benefits and compensation
- Education
- Elders and youth
- Employment and training
- Traditional Land and Resource Use
- Inuit Qaujimajatuqangit

Other Issues

- Accidents and Malfunctions
- Alternative energy
- Alternatives
- Phased development
- Working together

How can you get involved?

- Provide feedback today to staff or on the comment forms
- Review material online: www.nirb.ca/project/125684
- Register for a NIRB account at www.nirb.ca and follow the project (11MN034) to receive updates and notifications
- Submit written comments and questions: info@nirb.ca
- Phone the NIRB's office toll free: 1-866-233-3033
- Participate in the Public Hearing Community Roundtable

Questions / Comments

Masi Cho Thank you
