Dear Richard Dwyer, Veronique D'Amours-Gauthier, William Patch, Christopher Gerlach, Tracey McCaie, Jared Ottenhof, Francis Emingak, and Eleanor McEwan:

**RE: NPC File No. 150071 [Clyde River Small Craft Harbour Development]**

The following works and activities have been proposed in the above-noted project proposal:

1. Amendment of the type B water license No: 8BC-CLY2225 to authorize the withdrawal of water directly from the Clyde River.

2. Modifications to the original/amended project proposal: DFO- SCH is looking to change the methods used to collect water for dust suppression on the roads for our Clyde River Harbour Development project and is requesting to withdraw up to 30 m3/day of water directly from the Clyde River to be spread on the roads.
3. Related NPC File No: 149159, 149448, and 149484, Related NIRB File No: 19YN031, 21UN003 and 21YN032, Related NWB water license: 8BC-CLY2225.
4. Location: Qikiqtani Region; [Clyde River]

A complete description of the project proposal reviewed by the NPC can be accessed online using the link below.

The Nunavut Planning Commission (NPC) has completed its review of the above noted project proposal. The NPC previously reviewed works and activities associated with the current proposal and conformity determinations were issued (most recently on June 22, 2021) which still apply. In addition, associated activities were previously screened by the Nunavut Impact Review Board, including water use, quarrying, and the construction of a small craft harbour and associated infrastructures (NIRB FILE NO.: 19YN031, 21UN003 and 21YN032). It conforms to the North Baffin Regional Land Use Plan (NBRLUP). The proponent has undertaken to comply with the applicable conformity requirements of Appendix C, H, and I of the NBRLUP.

The above-noted project proposal is exempt from screening by the NIRB because the NPC is of the understanding that the inclusion of water withdrawal of up to 30 m3/day from the Clyde River does not change the general scope of the original or previously amended project activities, and the exceptions noted in Section 12.4.3 (a) and (b) of the Nunavut Agreement do not apply.

By way of this letter, the NPC is forwarding the project proposal to the regulatory authorities identified by the proponent. Project materials, including the applicable conformity requirements, are available at the following address:

<https://lupit.nunavut.ca/portal/project-dashboard.php?appid=150071&sessionid=>

The regulatory authorities to which this letter is addressed are responsible under the Nunavut Planning and Project Assessment Act (NUPPAA) to implement any of the applicable requirements by incorporating the requirements directly, or otherwise ensuring that they must be met, in the terms and conditions of any authorizations issued.

This conformity determination applies only to the above noted project proposal as submitted. Proponents may not carry out projects and regulatory authorities may not issue licenses, permits and other authorizations in respect of projects if a review by the NPC is required. Regulatory authorities may consult with the NPC to obtain recommendations on their duties to implement the existing land use plans prior to issuing licenses, permits and other authorizations under subsection 69(6) of the NUPPAA.

My office would be pleased to discuss how best to implement the applicable requirements and to review any draft authorizations that regulatory authorities wish to provide for that purpose. If you have any questions, please do not hesitate to contact me at (867) 979-3444.

Sincerely,

Goump Djalogue, MCIP, RPP  
Manager of Planning and Implementation  
Nunavut Planning Commission
