Local Services and Local Employment:

s3.9.4: Will the applicant rely on local services and employment where possible?

YES

i. Describe the services retained and the people to be employed.

For the duration of our project, we will have monitoring equipment running continuously. Though many of these instruments can operate without maintenance, we generally collect better data when someone is routinely cleaning and checking on the instruments. We plan to retain the services of at least one local resident in both Pond Inlet and Resolute to assist us with this routine cleaning. The job responsibilities will include: traveling to the site, taking photos of the equipment, cleaning instruments, and adjusting or repairing wires when necessary. We may also ask that the local resident assist us with communicating our scientific research with the community.

Communication on Scientific Research:

s3.2.8: The applicant will, at minimum, translate a summary of its work into Inuktitut and communicate with communities using language that is clear and non-technical. The results of all scientific re
