Re: Revised Notice of Screening for Canada-Nunavut Geoscience Office's "Bedrock Mapping of Angikuni Lake" project proposal

Dear Lorraine Lebeau:

On April 12, 2023, the Nunavut Impact Review Board (NIRB) circulated a public notice of the screening for the Canada-Nunavut Geoscience Office's "Bedrock Mapping of Angikuni Lake" project proposal, NIRB File No. 23YN017, inviting interested parties to provide comments by May 3, 2023; comments were received from the following interested parties:

- Government of Nunavut;
- Crown-Indigenous Relations and Northern Affairs Canada (CIRNAC);
- Transport Canada;

Following a communication received on May 3, 2023, NIRB staff became aware that the Notice of Screening and Comment Request letter was not available on the public registry. While the project application and associated information for the project was available in the online public registry at www.nirb.ca/project/125785, it was determined that some parties may not have been informed of the deadline for comment, therefore an additional opportunity to submit comments is appropriate.

PROJECT OVERVIEW

Project Scope:

Project:	Bedrock Mapping from Angikuni Lake
Region:	Kivalliq

Location:	Angikuni Lake				
Closest Community:	Arviat	Distance (approximate)	330 kilometres (km)	Direction	West
Summary of Project Description:	The Proponent intends to conduct a geological survey of Angikuni Lake and surrounding areas.				
Project Proposed Timeline:	July 10-31, 2023				

According to the project proposal, the scope of the project includes the following undertakings, works or activities:

- Construction of a temporary field camp;
- Collection of rock samples using a sledgehammer;
- Use of a helicopter for transportation and mapping activities;
 - Storage of ten (10) 45-gallon containers of aviation fuel at the camp;
- Use of a Zodiak boat for transportation and mapping activities;
 - Storage of two (2) 45-gallon containers of gasoline and two (2) L of motor oil at the camp;
- Use of a water pump to retrieve 130 L of water per day from Angikuni Lake;
- Use of a diesel generator to power the camp;
 - Storage of four (4) 45-gallon containers of diesel at the camp;
- Use of a propane-powered refrigerator and freezer at the camp;
 - Storage of two (2) 100 lb containers of propane at the camp;
- Disposal of combustible wastes through incineration and/or transportation back to Arviat;
- Disposal of greywater in a greywater pit;
- Disposal of hazardous wastes such as fuel drums by transportation outside of Nunavut for proper disposal; and
- Disposal of sewage in a buried outhouse.

Inclusion or Exclusion of Scoping List

At this time, the NIRB has identified no additional works or activities in relation to the project proposal. As a result, the NIRB will proceed with screening the project based on the scope as described above.

REQUEST FOR COMMENTS

All documents received can be accessed from the NIRB's Public Registry www.nirb.ca/project/125785 and include:

- *NPC Conformity Determination*
- *NPC Application and Questionnaire*
- *Proposed Map*
- *NIRB Application*

The NIRB will copy you on screening process related correspondence and upload related documents to the NIRB's online registry for public access. The NIRB may request additional information at any time during the process.

The NIRB is copying parties and municipalities potentially affected by Canada-Nunavut Geoscience Office's project proposal with this letter, and we invite interested parties to comment directly to the NIRB by **May 15, 2023**.

The NIRB would like parties to provide comments regarding:

- Whether the project proposal is likely to arouse significant public concern; and if so, why;
- Whether the project proposal is likely to cause significant adverse eco-systemic or socio-economic effects; and if so, why;
- Whether the project proposal is likely to cause significant adverse impacts on wildlife habitat or Inuit harvest activities; and if so, why;
- Whether the project proposal is of a type where the potential adverse effects are highly predictable and mitigable with known technology, (and providing any recommended mitigation measures); and
- Any matter of importance to the Party related to the project proposal.

CONTACT INFORMATION

Please send your comments to the NIRB via email at info@nirb.ca, via fax at (867) 983-2594 or via the individual project dashboard for this assessment on the NIRB's online public registry at www.nirb.ca/project/125785.

If you have any questions or require clarification, feel free to contact the undersigned at 867-983-4603 or lklaassen@nirb.ca.

Sincerely,

Leah Klaassen
Technical Advisor II
Nunavut Impact Review Board
