Slight correction, the range of our vessel ages in 2023 will be 2010 to 2022, average vessel age remains the same.

Subject: marine workshop - follow up response

Hey Kelli, Cory

At the workshop we got a question about the age of our vessels. I confirmed that our entire fleet this year will have been built between 2011 and 2022, with the average age of the vessel being 7 years. I also confirmed that our vessels do generally switch from their main engines to auxiliary engines when at anchor. This requirement will be added to our Standing Instructions to Masters this year for added assurance that it continues to happen. I think these would be a good addition to the report if it's possible to include them

Thanks,

Lou
