Subject: [EXTERNAL] Logistics and Draft Agenda for Impact Statement (IS) Guidelines Workshop for the NIRB's Review of De Beers Canada Inc.'s "Chidliak Diamond Mine" Project Proposal – Health Canada Comment

CAUTION: This email originated from outside of the organization. Do not click links, open attachments or follow direction, unless you recognize the sender and know the content is safe.

Hello,

Thank you for your letter, dated July 31, 2023, providing Health Canada with the opportunity to comment on the *Draft Agenda* for the Nunavut Impact Review Board's (NIRB) Impact Statement Guidelines Workshop taking place in Iqaluit on August 28 and 29, 2023.

Health Canada has an interest in the assessment of potential project-related health risks and we would welcome an opportunity to cover this topic, including IS Guidelines *Section 8.3 – Human Health Risk Assessment (HHRA)*, as part of the workshop. Inclusion of this topic should be of benefit to all participants providing an opportunity to discuss the merits of HHRA, answer questions, and identify current resources and guidance.

Please contact Paul Partridge (paul.partridge@hc-sc.gc.ca) if you have any follow-up questions or wish to discuss the agenda further.

Regards,

Impact Assessment Team
Health Canada / Government of Canada
