<p>Do you have any suggestions or recommendations for this application?</p> <p>Transport Canada has reviewed the available project documents and understands that the project potentially includes water crossings. Works in navigable waterways may require an approval to be issued under the <i>Canadian Navigable Waters Act</i> (CNWA). Works in non-navigable waters are not subject to the CNWA and do not require approval from Transport Canada. The proponent is encouraged to consult the following link for additional information and guidance in determining the applicability of the CNWA to this project: A Guide to the Navigation Protection Program’s Notification, Application and Review Requirements (canada.ca). The proponent may also reach out directly to Transport Canada’s Navigation Protection Program (NPP) at tc.nppnr-pnprn.tc@tc.gc.ca for assistance.</p>
