Hi Charlotte,

This forwarded email received an out-of-office reply from Dele. Given the time constraints on this application, it is now being sent to you. Please see below.

Cheers,
Leila

Subject: Clarification required: NIRB File 24KN042 CRINAC's Bernard Harbour DEW Line Site Remediation Project App#125992

Good day Dele,

We've received your application (#125992) through the NIRB's Public Registry.

To move forward with the application, we will need some clarifications (see below) to determine the scope of the project and commence screening:

1. Provide a functional e-copy of the Remedial Action Plan (the current copy is not viewable).
 - according to the Project Proposal Report, this plan describes in detail works and activities of the project.
2. Address inconsistencies in the NIRB Online Application as follows:
 - missing information under "Authorizations" with that provided in the Project Proposal Report
 - inconsistent estimates under "Material Use" with that provided in the Commission Application.

If you have any questions regarding this application, please reach out.

Thank you | Koana,

Leila Cai
