1. Introduction

The following Annual Report outlines the Nunavut Impact Review Board's (the NIRB or Board) organizational structure, procedural updates, and activities as they related to administration of the *Access to Information Act* (the Act) during the 2023-24 reporting period. This report has been prepared and tabled in Parliament in accordance with section 72 of the Act.

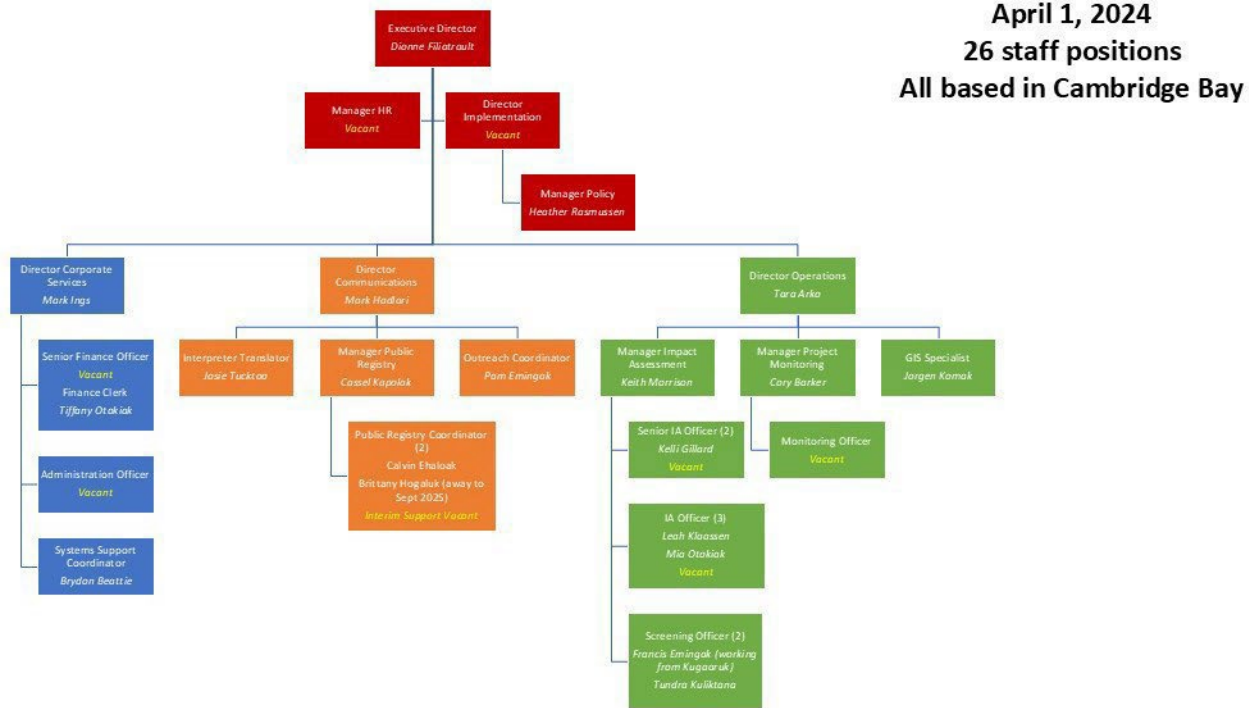

The purpose of the *Access to Information Act* is to ensure transparency in Canadian government institutions. The Act “gives Canadian citizens, permanent residents, and any person or corporation present in Canada a right to access records of government institutions that are subject to the Act”¹ and as a result increases the transparency and accountability of these institutions.

The NIRB is an institution of public government created by the *Nunavut Agreement* to assess the potential impacts of proposed development in the Nunavut Settlement Area prior to approval of the required project authorizations. Using both traditional knowledge and recognized scientific methods, the NIRB assesses the potential biophysical and socio-economic impact of proposals and will make recommendations and decisions about which projects may proceed. The Board may also establish monitoring programs for projects that have been assessed and approved to proceed. The NIRB's mandate and authority comes from Article 12 of the *Nunavut Agreement* and the *Nunavut Planning and Project Assessment Act*.

As indicated in the report that follows, the majority of the NIRB's Access to Information (ATI) requests are treated informally. This is due to the fact that a significant portion of the NIRB's documents are made publicly available on its online public registry as well as to the low volume of ATI requests that the NIRB receives.¹

2. Organizational Structure

The NIRB is a relatively small organization with 26 staff members reporting to a Board of Directors. It is organized into four (4) departments with the Executive Department overseeing the Corporate Services, Operations and Communications Departments. There are two (2) staff members directly responsible for ensuring adherence to the *Access to Information Act* (the Act); the Executive Director and the Systems Support Coordinator.

The role of the Executive Director, as it pertains to the Act, is to provide final approval of all responses to Access to Information (ATI) requests and disclosures of documents. The Executive Director also receives and responds to all ATI consultations received from other governmental institutions and organizations.

The Systems Support Coordinators responsibilities relating to the Act include coordinating responses to requests received under the Act, ensuring that the NIRB's ATI processes and procedures are up to date, monitoring the NIRB's ATIP Online Reporting System (AORS) request system, and preparing annual and statistical reports.

There are two (2) principle ways in which the NIRB receives ATI requests. The first is through correspondence in the form of an official letter delivered to the NIRB. The majority of the requests received in this manner are consultations received from other governmental

institutions and organizations. The second is through the ATIP Online Request System found on the NIRB's website (<https://www.nirb.ca/information-requests>).

3. Delegation Order

The powers and responsibilities of the NIRB's Executive Director under the *Access to Information Act* (the Act) have not been formally delegated using a delegation order. However, as stated above, the Systems Support Coordinators job description includes duties related to the Act.

4. Highlights of the Statistical Report, 2023-24

The NIRB submitted its 2023-24 Statistical Report to the Treasury Board Secretariat (TBS) by email on July 14, 2024. As indicated in the report, the NIRB received two (2) Access to Information (ATI) requests in total during the 2023/2024 reporting period, both of which were answered within the regulated timeline.

The NIRB still has one outstanding request from the 2020/2021 reporting period that is being processed.

The cost indicated in the statistical report (\$15,151) expresses one tenth (0.10) of the salary of the System Support Coordinator position. This cost relates to this position's duties relating to both the *Access to Information Act* and the *Privacy Act*. This figure does not include the salaries of staff members who may be involved in internal consultations relating to ATIP requests.

A copy of the NIRB's 2023-24 statistical report can be found in Annex 1 of this report.

5. Training and Awareness

During the 2023-24 period no training was taken. Periodic reminders were provided to all NIRB staff and board members pertaining to the Access to Information and Privacy Policy.

The NIRB has engaged with the Canada School of Public Service in the past to determine eligibility for access to relevant course offerings and was informed that our organization does not fall within the scope of the school's mandate and is not eligible to obtain services from the school.¹ The NIRB further sought to discuss development of a memorandum of understanding or similar agreement to allow access on a cost-recovery basis; unfortunately the Canada School of Public Service was unwilling to engage or discuss the matter further. As a departmental corporation under the oversight of the Treasury Board, the NIRB would respectfully suggest that the Government of Canada should determine an acceptable approach to allow for select offerings of the Canada School of Public Service to be provided to external organizations like the NIRB which are required to implement these federal responsibilities.

¹ The Canada School of Public Service adopted a business model in 2014-15 whereby its client base is now defined as the federal public service as circumscribed by the Financial Administration Act schedules: Schedules I, IV and V. The NIRB and other Nunavut IPGs are not included within Schedule V: Separate Agencies.

6. Policies, Guidelines, Procedures, and Initiatives

During the 2023-24 reporting period, the NIRB continues the use of the ATIP Online Request Service (AORS) version 3. The AORS is an online platform that the public can use to submit ATIP requests to a wide range of Federal Government institutions with the purpose of streamlining the ATIP submission process. The NIRB is supportive of the AORS initiative as it promises to provide an efficient system for users and increase transparency across a wide range of institutions.

The NIRB maintains its current Information Requests page on its website for reporting purposes and is providing a link to the AORS website for users.

No other changes were made to the NIRB's policies, guidelines, procedures, and initiatives as they relate to the *Access to Information Act* during the 2023-24 reporting period.

7. Summary of Key Issues and Actions Taken on Complaints or Audits

The NIRB received no complaints, audits, or investigations during the reporting period.

8. Monitoring Compliance

The NIRB ensures its adherence to the timelines required by the *Access to Information Act* by maintaining regular communication between the Systems Support Coordinator and the Executive Director when an ATIP request is being processed as well as by using the tracking system that is built into the AORS ATIP tool. This tracking system allows both internal and external users of the website to see when a request was filed, what the status of the request is and, when complete, how long it took for a request to be closed.

Dionne Filiatrault
