We don't expect that any waste will be produced, and anything would be returned to Resolute and disposed of via the waste management systems in place.

You don't often get email from vnayak@nirb.ca. [Learn why this is important](#)
Thanks for clarifying that. Could you also provide details on the disposal plans for any waste produced during the project activities?

There is no storage and management of fuel as they are short trips and all refueling is done at Resolute.

Thanks,
Jenn

Hi Ms. Provencher,

I am following up on my previous request regarding NIRB Application #126168. To proceed with public commenting, I need clarification on fuel and waste management.

Best regards,

Dear Ms. Provencher,

Could you please clarify the following for the proposed project assessing oil-related contaminants in birds , **NIRB Application #126168**

- Fuel Management:
 - Storage and transportation of fuel for Twin Otter and boats.
 - Refueling protocols at remote sites.
- Waste Management:
 - Collection, storage, and disposal of waste, including hazardous waste.

Best,
