

COMMENT FORM FOR NIRB SCREENINGS

The Nunavut Impact Review Board (NIRB) has a mandate to protect the integrity of the ecosystem for the existing and future residents of Nunavut. To assess the environmental and socio-economic impacts of the project proposal, NIRB would like to hear your concerns, comments and suggestions about the following project proposal application:

Project Proposal Title:	Nut Lake Project		
Proponent:	Greenridge Exploration Inc.		
Location:	Kivalliq		
Comments Due By:	July 16, 2025	NIRB #:	25EN025

Indicate your concerns about the project proposal below:

<input type="checkbox"/> no concerns <input type="checkbox"/> water quality <input type="checkbox"/> terrain <input type="checkbox"/> air quality <input checked="" type="checkbox"/> wildlife and their habitat <input type="checkbox"/> marine mammals and their habitat <input type="checkbox"/> birds and their habitat <input type="checkbox"/> fish and their habitat <input type="checkbox"/> heritage resources in area	<input type="checkbox"/> traditional uses of land <input checked="" type="checkbox"/> Ghotelnene K'odtineh Dene harvesting activities <input type="checkbox"/> community involvement and consultation <input type="checkbox"/> local development in the area <input type="checkbox"/> tourism in the area <input type="checkbox"/> human health issues <input type="checkbox"/> other: _____ _____ _____
---	--

Please describe the concerns indicated above:

The activities described in the "Nut Lake Project may result in significant adverse impacts on the ecosystem, wildlife, wildlife habitat, and harvesting activities of Ghotelnene K'odtineh Dene and other Indigenous peoples, as well as other potential socio-economic effects on Ghotelnene K'odtineh Dene.

Ghotelnene K'odtineh Dene have significant concerns related to the proposed activities, particularly on the potential impacts to caribou and their habitat. Also of concern for Ghotelnene K'odtineh Dene is the potential for long-term adverse irreversible cumulative effects from this project, other projects in the general area and within the Beverly/Qamanirjuaq herds' range. There is a need for greater assessment of the cumulative impacts to wildlife and wildlife habitat, particularly caribou, from this project proposal.

Do you have any suggestions or recommendations for this application?

The potential for long-term adverse irreversible cumulative effects to caribou and caribou habitat from this project are so unacceptable that it should be modified or abandoned.

Do you support the project proposal? Yes <input type="checkbox"/> No <input type="checkbox"/> Any additional comments? Ghotelnene K'odtineh Dene support the modification or abandonment of this project until a thorough assessment of the cumulative impacts to caribou that could result from the impacts of the proposed activities combined with those of any other project that has been carried out, is being carried out or is likely to be carried out within the Beverly/Qamanirjuaq herds' range is completed.
