Appendix 1: Community Engagement and Consultation Log

Introduction and Background

This report is being submitted as required under the Terms and Conditions of Permit to Use Commissioner's Land # LUP-06-600-023 (the Permit).

Figure 1: Project location – 9 km northeast of the Hamlet of Naujaat at the base of the Melville Peninsula.

A total of eight kimberlite pipes have been identified within the Project, as well as several associated kimberlite dykes. The Q1-4 kimberlite (Q1-4) is the largest and most diamondiferous of the kimberlites discovered to date and has been the focus of North Arrow's work since acquiring the Project from Stornoway Diamond Corporation in 2013. The kimberlite is located on Commissioner's Land within the Municipality of Naujaat, approximately nine kilometres northeast of the community. North Arrow plans to continue to assess Q1-4's size and diamond value potential once the natural diamond market recovers from competition from the Lab-Grown Diamond Market and other factors. Once investors become interested in funding natural diamond exploration the Company will work towards a Preliminary Economic Assessment for the Naujaat Project.

In 2014 North Arrow extracted a 1,353-tonne sample from the A28 portion of the kimberlite under license LUP06-607-14. The following year, the Company submitted amendments to the permit for drilling, fuel storage and construction of a core logging facility at its storage location. Following review by GN-C&GS, GN-DoE, ECCC and NIRB, these permissions were combined and granted under permit LUP06-607-014 on May 4th, 2016.

The Naujaat Diamond Project (the Project) is located 9 km northeast of the Hamlet of Naujaat, Nunavut. Since diamonds were discovered in the area in 2002, the property has undergone several phases of exploration using airborne geophysics, together with property wide till sampling, drilling, and bulk sampling. The Project is currently being evaluated by North Arrow Minerals Inc. (North Arrow or the Company) and consists of seven mining leases and five mineral claims covering 11,177 hectares.

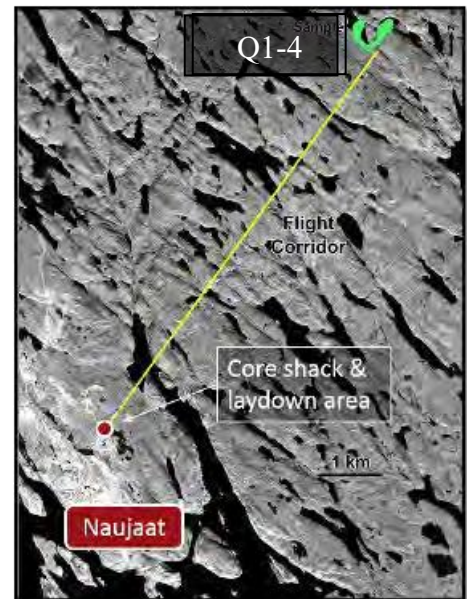

Figure 2: Flight Corridor of Helicopter from Q1- 4 to Core Shack and Laydown Area.

Permit LUP06-607-014 was renewed in 2017 and reissued as LUP06-607-~~016~~. It authorized up to 20,000 metres of drilling, and it also allowed for bulk sampling activities with a cumulative total of 1,500 tonnes. The permit was again extended in May 2021 and reissued as LUP06-607-017. It maintained the same terms and conditions, and also allowed for an increase of 500 tonnes to the total cumulative bulk sample weight, increasing the total allowable tonnage to 2,000 tonnes.

Under LUP06-607-017 North Arrow conducted a summer exploration program in 2021 that ran from June 17th to August 23rd. Fieldwork consisted primarily of bulk sampling at the Q1-4 kimberlite, and a small amount of till sampling and prospecting was also completed. Exploration crews were based in Naujaat, and a helicopter was used for transporting sample bags and work crew between town and the work site, approximately 9 km away.

LUP-06-600-022 was issued by CGS on June 6, 2024 to cover the period of September 1, 2023 to August 31, 2025.

On May 23 2025, a four year Land Use Permit was issued (LUP-06-600-023) was issued by CGS covering the period from September 1, 2025 to August 31, 2029. This annual report is a requirement of that active permit.

A wildlife camera monitoring program had been conducted in cooperation with the Arviq Hunters and Trappers Organization (HTO) in Naujaat between May 2017 and April 2021. The wildlife cameras were collecting baseline information between Naujaat and the Q1-4 diamond deposit along the alignment of an existing ATV trail that was being considered for an upgrade to an all-season Community Access Road. The cameras were taken down at the request of the Hamlet's Wildlife Officer in 2021 who had recently been made aware that a permit was required to set out the cameras. The Hamlet has stated they will consider acquiring a "Wildlife Research Permit" if the Community Access Trail Project becomes revitalized.

2. Regulatory Information

Exploration work on the Project is conducted under the terms and conditions of land use authorizations granted by the Government of Nunavut (GN) Department of Community and Government Services (CGS), and by the Nunavut Water Board (NWB). As part of the permitting process, the Project permit applications are screened by the Nunavut Planning Commission (NPC) and Nunavut Impact Review Board (NIRB) prior to issuance by the authorizing agencies. The following permits, licenses and file numbers are associated with work conducted at the Naujaat Diamond Project:

CGS: Municipal Land Use Permit LUP-06-600-023; expires Aug 31st, 2029

NWB: License 2BE-QIL2328 Type "B"; expires Apr. 1st, 2028.

NPC: File No. 148542 (Naujaat Q1-4 Project); conformity determination issued Feb. 27th, 2015.

NIRB: File No. 12EN012; Screening Decision Report dated June 5th, 2015.

3. Laydown and Core Storage Area

A small equipment and core storage area was established approximately 1 km north of the town as part of permitted activities going back to 2014 (Figure 3). This facility continues to be utilized and is

regularly monitored by a local employee to ensure the security and integrity of equipment and materials is maintained.

A moderate supply of drummed aviation fuel (Jet A) is also stored at the laydown area. Drummed fuel is stored in large secondary containment berms (Figure 4), and drums are regularly checked for damage and leaks by a local employee. No leaks were reported in 2025 reported in 2025.

Figure 3 (Inset): satellite image of Naujaat relative to Q1-4 kimberlite and Core Shack/Laydown Area. **(Main Image):** view looking west above Laydown Area and town quarry (August 2017)

Figure 4: Laydown area with sample bags (2,500) at the end of 2021 program with fuel berm demonstrated in yellow box.

4. 2025 Project Activities

No work was conducted at the project in 2025. A downturn in the diamond sector due to the impact of lab grown diamonds and other factors, has affected the ability of North Arrow to raise money for any diamond exploration related work for the time being. The company awaits a turnaround in the market to money can be raised to continue Naujaat Project work towards a Preliminary Economic Assessment.

In anticipation of a turnaround, North Arrow continues to keep the Project permitted for drilling and sampling under permit LUP-06-600-023. As mentioned above LUP-06-600-023 includes a 'laydown area and core storage area' near the town quarry where fuel, equipment and supplies are kept. The Company continues to hire a local employee to maintain and keep secure the laydown area even while no work is happening at the deposit site (*see images below from March 23, 2026*).

Figure 5: Storage sea cans and fuel in berms at North Arrow laydown area as seen March 23, 2026.

Figure 6: Drilling equipment , drill shack and drill, stored at the Q 1-4 kimberlite (October 5, 2024).

Some of the drilling equipment is also stored out at the Q1-4 deposit site. The local employee responsible for the integrity of the laydown area also checks on the drill and related equipment at the Q1-4 deposit site from time to time when out on the land to ensure they are tidy, intact and secure.

Figure 7: Drill rods stored beside drill shack out at the deposit site; Q 1-4 kimberlite in background

The last major work program conducted at the site was in 2021. North Arrow conducted bulk sampling at the Naujaat Diamond Project from three sites at the Q1-4 kimberlite (Figure 7).

Once sample collection was complete, two mini excavators remained at site for pit reclamation. A site visit was organized for August 18th, 2021, allowing two Hamlet councilors to inspect

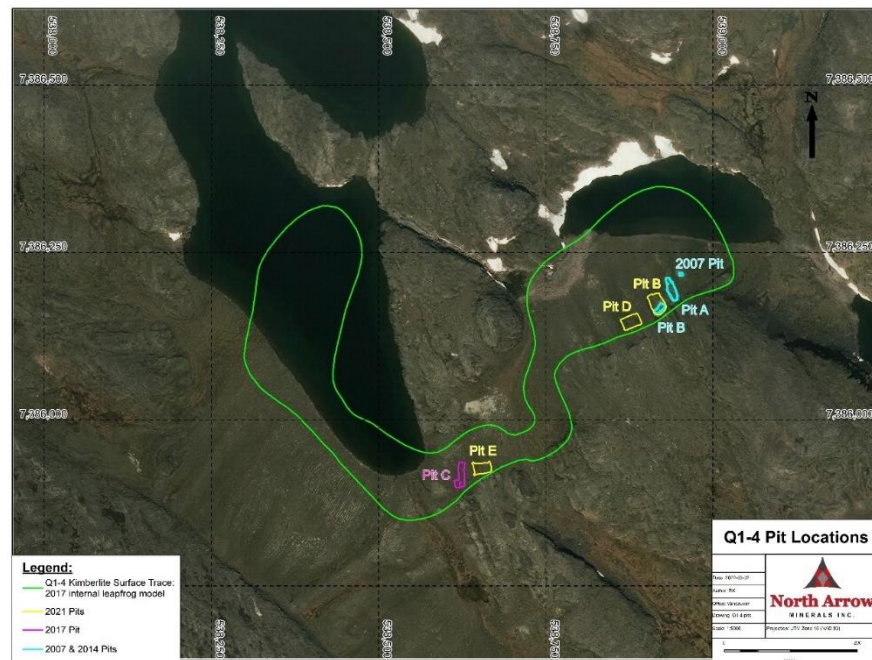

Figure 8: All sample site locations with outline of Q1-4 Kimberlite.

the reclaimed sample pits and the surrounding work area. No concerns were raised by either councilor. Following reclamation, the two excavators were slung back to the laydown area in town and loaded into shipping containers for winter storage, which is where they remain currently.

Staff investigated the 2021 sample pits from the ground during community meetings in summer 2022 and found no significant changes to the landscape (Figures 10-12, and 15). A local employee continues to check on the reclamation work when in the area and send photos back to North Arrow's head office in Vancouver (see Figure 15).

Figure 9: 2021 Sample Pit B, looking south from above.

Figure 10: 2021 Sample Pit D, looking south from above.

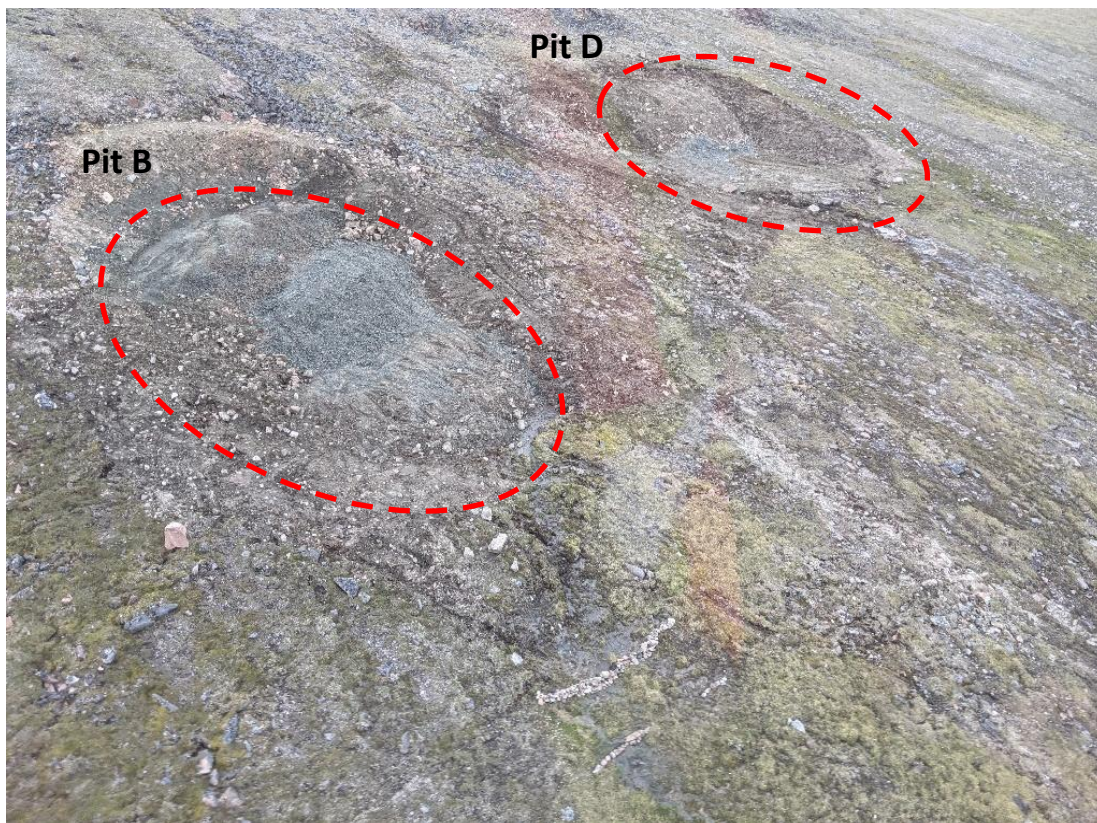

Figure 11: Reclaimed 2021 Sample Pits B and D, looking south from above.

Figure 12: Reclaimed Sample Pit E, looking northeast (taken Oct 7, 2024). ***Inset:*** Pit E in 2021 at maximum impact, looking southeast

5. Personnel

One local employee was hired on a part-time basis throughout 2025 (continues into 2026) to maintain North Arrow's laydown facility, stopping by Mondays, Wednesdays and Fridays to ensure the area was secure and undamaged by weather or vandalism.

Nothing of significance (i.e. fuel spills, garbage, break-ins/damage, etc.) was reported during checks at the laydown area.

6. Wildlife Monitoring

Wildlife monitoring was not conducted in 2025 as there was no work done.

7. Community Engagement and Consultation

Even though no exploration work happened at the Naujaat Project in 2025, North Arrow has continued to engage from time to time with the Hamlet's mayor, Kevin Tegumiar and SAO, Chantal Pelletier.

Mayor Tegumiar stated in September of 2024 that the Council is hoping to re-establish the Mining and Exploration Advisory Committee (North Arrow met with them in person in 2022 – see below) and invited North Arrow to reach out to the group with any Naujaat Project developments in the

form of a newsletter, a Zoom Meeting or an in-person meeting if funding is available. North Arrow has followed up on the invitation, but it is yet to happen.

North Arrow last visited the community in summer 2022. The trip occurred during the week of July 17th, and North Arrow remained in the community for approximately one week for various engagements. Formal meetings were held with the Hamlet Council and Mayor, the Arviq HTO, a newly formed Mining and Exploration Advisory Committee, MLA Solomon Malliki, and the greater community. Detailed logs are included in Appendix 1.

At each meeting, a presentation was given on the Naujaat Project, followed by discussion and a question-and-answer period which was recorded and documented. Most post-presentation discussions were spent on matters that included permitting, financing, environmental impact, future employment opportunities, training, a Hamlet-proposed community access trail, and Burgundy Diamond Mines, North Arrow's joint venture partner on the project.

Points of discussion regarding the project:

- Number and type of jobs that would be created if a mine were to be built
- If and when a mine might be built
- Impacts and benefits if a mine was to be built
- Project timing
- Who will be the company running a potential future mine, if not North Arrow
- Helicopters
- Sample shipment and processing
- Community access trail
- Number, size, colour and value of diamonds produced from the 2021 bulk sample
- Care for the environment

8. Summary and Future Work

Permit LUP-06-600-023 was issued on May 23rd, 2025. The new permit covers the time-period September 1st, 2025, to August 31st, 2029, and is the first four-year permit the Project has received. Other than the duration of the permit it has the same Terms and Conditions applied to the previous permits, authorizing bulk sampling, drilling, fuel storage, and a core logging facility at North Arrow's laydown facility.

No work was conducted in 2025 but the lay-down area covered under the permit still serves as a storage location for equipment and fuel, as mentioned in sections 3 and 4. A local employee continues to visit the laydown site three times per week to ensure it's security and order.

Future Work

No work is planned at the Naujaat for the foreseeable future. The natural diamond sector is in a state of transition having been impacted negatively by the creation and massive growth of the lab-grown market. The prices of lab-grown diamonds (LGDs) have been coming down very quickly as the technology to make them has become cheaper and more refined and more companies have got into the business in China and India. They are a manufactured product and are not rare. The

natural diamond business is built on rarity and it's the rarity that preserves the value so the ability to tell the difference between the two types is integral for naturals to have a future. Technologies have been developed that can detect which are lab-grown and which are not. As long as the two products can be told apart, the market for the "real thing" is expected to return and exploring for new deposits may again be something investors may look to put their money into.

The Q1-4 deposit includes a small, but predictable population of high-value, yellow-orange coloured diamonds. They are of coarse-grained size but have variable clarity thus far. From what is known about the value of the finer (or "less coarse") white diamond population, for the deposit to be economic, a high \$/carat value for the coloured diamonds will be required. To determine the value of the coloured diamonds a bulk sample an order of magnitude larger than the one collected in 2021 (i.e. 10,000 tonnes) will be required so that clear and coloured diamonds may be found in the larger sizes and a more accurate value for the diamonds can be determined.

This value could then be used as one variable of the economic equation that will make up a Preliminary Economic Assessment. Further work will also be required to fully delineate the kimberlite to estimate total tonnage down to 300 m. for the Q1-4 kimberlite. This may be done through different categories of work and is likely to include a combination of delineation drilling, and geophysics. Unfortunately, interest in funding diamond exploration projects has dried up for the time being due to a drop in diamond prices from the impact of lab-grown diamonds, as well as other factors, so there are currently no set plans for work in 2026 at the project.

Image: Mega bags of Q1-4 kimberlite in August of 2021 with two North Arrow geologists.

Appendix 1:

Community Engagement and Consultation Log (to September 2025)

North Arrow Minerals
 Naujaat Diamond Project
 Community Engagement Log – to September 2025

Date & Time	Location of Meeting	Organization	Organization's Representatives - Person(s) Engaged - Participants - Attendees	Type of organization	North Arrow Representative(s)	Type of Contact or Engagement - meeting, letter, email, phone, etc	Written Correspondence , email, letter, meeting notes, minutes	Contact / Engagement	Purpose of the engagement, issues raised, and recommendations made by affected parties	Proponent's response to issues; resolved or ongoing; changes made to project as a result of engagement activity
June 2025	Outgoing Email	Hamlet	Mayor Tegumiar	Municipal Organization	Nick Thomas	Outgoing email	Documented email	Contact	<p>To provide a brief update on North Arrow, our change of direction to exploring for gold in Botswana and to attempt to set up a meeting with Naujaat's Mining and Exploration Advisory Committee that the Mayor had resurrected.</p>	<p>Hello Mayor!</p> <p>I hope things are going well in Naujaat Kevin. Must be well into break up by now!</p> <p>North Arrow have been primarily focused on our gold project in Botswana over the last year, but our three diamond projects remain part of our property portfolio (Naujaat sits at the top of that list) waiting for a diamond market turnaround.</p> <p>As you know, we keep our exploration permit valid and continue to hire John Kadjuk to keep watch and maintain our lay down area out near the town's quarry.</p> <p>The last time we exchanged emails you had asked if we could present remotely to your Mining and Exploration Advisory Committee. I'm sorry I left that sitting without follow up for a while, but if there is interest in an update, we would be more than happy to provide one. I can't say we will have a lot of positive news to share, but it would at least manage expectations for the project and would let them know the project is still a going concern, with hopes for a future. Its also important for us to differentiate ourselves from StrategX.</p> <p>Please let me know .</p> <p>Nick.</p>

September 11, 2024	Incoming Email	Hamlet	Mayor Tegumiar	Municipal Organization	Nick Thomas	Incoming email	email	Contact.	<p>Email from Mayor Tegumiar: Hi Nick,</p> <p>My apologies for the slow communication, it's been an eventful spring and summer. Council has brought up the idea to get the committee going, the committee I spoke to you on prior to my previous departure, the Mining and Exploration Advisory Committee.</p> <p>I am wondering if North Arrow is still interested in keeping an open communication with committee members as and when needed, could be via telephone, social media or email. Also dependent on whether the Q1-4 project is expected to see further work in the future. We would provide your team the names of active committee members and would just be to consult with North Arrow specifically on the Naujaat project or projects and also to clarify current events to Council on the projects.</p> <p>I know in previous discussions we talked about North Arrow Minerals coming up to provide the current Council an in person update on the projects surrounding Naujaat, I'm looking for an update on that as well, we are not rushing any consultations, just looking for an update to provide back to Council. This Council is very keen on keeping up with current events especially on large potential items such as the diamond project. I know diamonds haven't been on high demand the past couple of years and will be a challenge to absorb cost to travel for just consultations at this time so I believe a newsletter on the project specifically reporting to Council that Lori(ASAO) or myself can present would be sufficient for the time being and we can possibly look at a consultation via teleconference at a later time when further information is available from North Arrow's end.</p> <p>Qujannamiik/Thank you</p> <p>Kevin Tegumiar Mayor, Hamlet of Naujaat</p>	<p>Hello Kevin,</p> <p>Thanks for touching base. Glad (?) to hear its been an eventful spring and summer! I hope you're hitting your stride as Mayor and things are going well for you and the community.</p> <p>We do still maintain hope for the future of the project. When that future will be is not predictable currently unfortunately. As you said, its been a very difficult time for the diamond sector in the last couple of years and when the turnaround will come isn't foreseeable still, despite most people in the natural diamond side holding the faith. These meetings are generally much better done in person, I know. I can apply for some funding to come if they are still supporting the CESP program. That may make it doable.</p> <p>Let me chat with our Management and get back to you. At the very least we can do a newsletter or a remote update for the Council and/ or the Mining and Exploration Advisory Committee.</p> <p>Talk to you soon, Nick.</p>
--------------------	----------------	--------	----------------	------------------------	-------------	----------------	-------	----------	--	---

August 19, 2024 2:15 pm	Email	Hamlet Office	Mayor Tegumiar and MLA Solomon Malliki	Municipal Organization	Nick Thomas	Email with attachments	na	Engagement	Sent email to Mayor and MLA to make sure they had seen documents regarding the Proposed Southampton Island Marine Protected Area.	Thanks Nick, Our Council saw the draft, there were further visits that were promised to the Hamlet Council but have yet to get an update from Fisheries and Ocean. Thank you for checking in to see if we are aware of the draft. Kevin Tegumiar Mayor, Hamlet of Naujaat
Feb. 14, 2024	Email	Hamlet Office	Mayor Kevin Tegumiar SAO (name unknown)	Municipal Organization	Nick Thomas	Email with letter	Letter on file	Engagement	To congratulate Kevin Tegumiar on becoming Mayor and to provide update on project status including JV with Burgundy Update, upcoming plans (or lack thereof) Land Use Permit and Laydown area discussion.	Mayor Tegumiar responded same day: Good afternoon Nick, I will have a proper response forwarded to you within the next week, I am pleased that you reached out as I was looking to contact someone from North Arrow as early as March to see where the Naujaat Diamond Project stands at this time. Also thank you for the congratulatory remarks and I look forward to further conversations with yourself and other team members from North Arrow Minerals. Take this immediate response in good faith to further discussions on the Naujaat diamond project in the near future. Qujannamiik/Thank you Kevin Tegumiar Mayor, Hamlet of Naujaat
August 31, 2023	Email	Arviq HTO	Paul Angutetuar	Municipal Organization	Nick Thomas	Email w/ letter	Letter on file	Engagement	To provide update on project status and notification of plans to have Land Use Permitted extended.	Paul responded on August 31: <i>Hi Nick I'll have the manager get at this and myself and the hamlet mayor along with their board support this and I do hope you guys reconsider coming up again thank you</i>
August 31, 2023	Email	Arviq HTO	Paul Angutetuar	Municipal Organization	Nick Thomas	Email Introduction	yes	Engagement	Wrote to connect Paul with Claudine Santos who wanted to connect with people in Naujaat who may have been following along with the DNLUP, specifically the Marine Protected Area involving Southampton Island.	Paul responded on August 31: <i>Hi Nick I'll have the manager get at this and myself and the hamlet mayor along with their board support this and I do hope you guys reconsider coming up again thank you</i>
August 30, 2023	Email	Hamlet Office	Mayor Alan Robinson	Municipal Organization	Nick Thomas	Email w/ letter	Letter on file	Engagement	To provide update on project status and notification of plans to have Land Use Permitted extended.	Mayor Robinson replied on August 30 th : Good Morning Nick, <i>Thank you for this information, I will pass your information along to our Ac/S.A.O. so that it can be</i>

										<p><i>brought before Council on September 07, 2023.</i></p> <p><i>Respectfully, Alan..</i> He cc'd the SAO and the MLA on this response.</p>
August 30, 2023	Email	Hamlet Office	Mayor Alan Robinson CC: Claudine Santos (Senator Patterson)	Municipal Organization	Nick Thomas	Email	Yes	Engagement	<p>Good afternoon Mayor Robinson, I hope you have had an enjoyable summer season in Naujaat. I understand there is an election on the horizon which means you may be into the last couple months as Mayor, unless of course you are running again! By way of this email I would like to introduce you to Claudine Santos (CC'd here). Claudine works closely with Denis Patterson, the Senator for Nunavut, and has been very active in providing feedback to the Nunavut Planning Commission on the various drafts of the Nunavut Land Use Plan (NLUP). Yesterday she was expressing concern over the proposed Marine Protected Area around Southampton Island as it is presented in the most recent Draft of the NLUP and its potential impacts on the future growth of the communities of Naujaat, Coral Harbour and Chesterfield Inlet if the plan moves forward in its current form. She asked Ken and I for people in the community that would have an interest hearing and discussing her concerns on this issue and you came to mind as someone who may have been following its development. I will leave you two to follow up with each other. I will be following up with you later this week to provide a fairly overdue update on the status and future plans for the Naujaat Diamond Project that you can share with Council at next meeting. Best regards, Nick</p>	
August 29, 2023	Email	Government of Nunavut	MLA Solomon Malliki CC: Claudine Santos (Senator Patterson) Mike MacMorran	Territorial Government	Nick Thomas	Email	Yes	Engagement	<p>Good afternoon Solomon,</p> <p>It has been a while since we have communicated. I hope the summer has been a productive one for the community and you've taken the opportunity to get out on the land.</p>	No response

									<p>By way of this email I would like to introduce you to Claudine Santos (CC'd here). Claudine works closely with Denis Patterson, the Senator for Nunavut, and has been very active in providing feedback to the Nunavut Planning Commission on the various drafts of the Nunavut Land Use Plan (NLUP) with a watchful eye on the methods that have been used to decide on the various Land Use Designations. She is concerned that if the right balance of conservation and development isn't achieved, the resulting NLUP could impact development (and future investment), reducing employment opportunities and benefits in Nunavut communities. Yesterday she was expressing concern over the proposed Marine Protected Area around Southampton Island as it is presented in the most recent Draft of the NLUP and its potential negative affects on the future growth of the communities of Naujaat, Coral Harbour and Chesterfield Inlet if the plan moves forward in its current form. She asked Ken and I for people in the community that would have an interest hearing and discussing her concerns on this issue and, of course you came to mind. I will leave you two to follow up with each other if a conversation seems beneficial.</p> <p>Also, I will be following up with you later this week to provide a fairly overdue update on the status and future plans for the Naujaat Diamond Project. Best regards, Nick</p>	
August 29, 2023	Telephone	Arviq Hunters and Trappers	Paul Angutetuar	Hunting Organization	Nick Thomas	Telephone call	No.	Engagement	<p>Paul called to see if we were coming up this year. Wanted to express his support for the project. Expressed this a few times actually. He also said that John Eli Tinashlu won't be in the HTO anymore. His term his done and thought we would be happy about that.</p> <p>I gave him an update on Company affairs, our switch to lithium, that we wouldn't be able to support the whale</p>	

									hunt next year. Also I told him I would be sending a more official letter to the ARviq HTO, the Mayor and Council later this week with an update on the Naujaat project.	
May 17 th , 2023	Email	Arviq Hunters and Trappers	Dolly Mablik	Hunting Organization	Nick Thomas	Email	Email on file	Engagement	<i>Dolly Mablik reached out to see if we were able to support the Bowhead Whale hunt this year.</i>	Nick responded to say yes, North Arrow will support the hunt this year, but advised them to start thinking about other possible sponsors for next year because interest in investing in diamond explorers is at an all time low and we have had to switch to looking for lithium so we can raise money. Suggested Northern Energy Capital as a future whale hunt sponsor. They are putting in a solar farm for the community. <i>*wire was sent on July 19, 2023.</i>
May 1, 2023	Email	Hamlet Office	Mayor Alan Robinson	Municipal Government	Nick Thomas	Email	Email documented	Engagement	<i>Reached out to Alan Robinson to provide an update on the Naujaat Project - Good afternoon Mayor Robinson, I hope things are good in Naujaat and the community are getting out on the land to enjoy all the daylight. Late last week an article was put out by Nunatsiq News regarding the Naujaat Diamond Project and a couple of the larger, now-polished coloured diamonds recovered from the 2021 bulk sample. Here is a link in case you haven't seen it yet – https://nunatsiq.com/stories/article/fancy-coloured-diamonds-surface-in-naujaat/. The article reminded me that North Arrow owed you an update! The completion of that sample, processing of the rock and subsequent test-polishing of some of the nicer rough diamonds marked the completion of the agreed upon work to be paid for by Burgundy Diamond Mines for them to earn a 40% interest in the Q1-4 diamond deposit. In mid-March, Burgundy announced they are buying the Ekati diamond mine in the NWT in an effort to secure an active source of yellow diamonds. This was an impressive move for a company without any real revenue, but I would say the</i>	No response.

									<p>transaction has kept them very busy over the last six months and has taken their focus off of Naujaat.</p> <p>For North Arrow, the market's appetite for funding diamond exploration has arrived at an all time low, despite a seemingly healthy global market for the polished product. Because of this unfortunate disconnect, in January and February of this year, North Arrow added a couple lithium exploration projects to our portfolio. The move has enabled the Company to finance and keep working.</p> <p>We are waiting for Burgundy to finalize their purchase of Ekati in June, after which North Arrow and Burgundy will formalize our 60/40 Joint Venture agreement and will start to consider next steps. At the present time, we do not expect to have a program in 2023 at the Naujaat Project, although we would like to come through the community later this summer to provide an update. We continue to have John Kadjuk check on our materials at the laydown area and will continue to do so.</p> <p>Please let me know if this update generates any questions. Once we have a clearer sense of what will be next for the Naujaat Project we will touch base to set up another community visit to share the information with the community and receive feedback on those plans. Hopefully between the exploration company StrategX and the solar energy project there will be some additional job opportunities for the community this summer. If you get a chance to reply with an update on Community developments, we would love to hear. We did hear that you are once again on the hunt for a new SAO. We wish you luck in finding a good fit for the community.</p>
Feb. 22, 2023	Email Message	Arviq HTO	Dolly Mablik	Local Community Organization	Nick Thomas	Email	Documented here	Engagement	<p>Hello Dolly,</p> <p>I hope you and the family are keeping well. I wanted to touch base to let you know we put out a press release yesterday regarding the polishing of two of the nicer</p>

									<p>coloured diamonds from the 2021 sample. They certainly look beautiful, despite still being fairly small! Could you please pass it on to the HTO at the next meeting?</p> <p>As far as future plans for the Project, its looking a bit quiet. The market does not really react to anything to do with diamonds right now so its making our ability to do work on our diamond projects very hard. It doesn't help that your current SAO has not responded to any emails from Ecologic Consultants or North Arrow is her entire time as SAO so far. It has killed any momentum we had trying to get the community road happening. The money we had lined up from Federal and Territorial sources for road studies and permitting has just been left to fall by the wayside.</p> <p>Once we manage to raise some money we hope to come back to the community to conduct meetings to let everyone know what is going on.</p> <p>Give my best to Tommy and the kids!</p> <p>Nick.</p>	
September 13, 2022	Facebook Messenger	Hamlet Council	Kevin Tegumiar – Hamlet SAO	Municipal Government	Nick Thomas	Messaging	File download to be saved	Engagement	<p><i>Reached out to Kevin because North Arrow heard he was attending the DNLUP hearings in Rankin Inlet. Sent him (by his request) some materials he could use showing the evolution of the DNLUP and its changing impacts on the community of Naujaat.</i></p>	
July 28 th , 2022	Facebook Messenger	Community member	Kevin Tegumiar – prior SAO of Hamlet	Municipal Government	Nick Thomas	Messaging	File download to be saved	Engagement	<p>Sent Kevin a picture of one of the diamonds taken recently with the NU toonie.</p> <p>Kevin said he met the new SAO Sandra who started to assess the work that needed to be done and expressed an understanding of why Kevin resigned.</p>	
July 21 st , 2022	Naujaat Coop Hotel Eating Area	HTO	Paul Angutetuar – HTO Chair	Hunting Organization	Nick Thomas Mike MacMorran	Face to Face Meeting	Minutes on file	Engagement	<p>Approached Paul to meet while we were in town since he did not show up at the HTO meeting we had set up the day before.</p>	<p>Paul was very apologetic for missing the HTO meeting, expressed his support for the project. See meeting minutes on file for details of conversation.</p>
July 20 th ,	Naujaat C-	HTO	Peter Manik John Eli Tinashlu	Hunting	Ken Armstrong	Face to Face	Minutes on file	Engagement	<p>Update meeting with HTO. Gave</p>	<p>See transcript on file taken</p>

2022	Store in the Coop Store		Annie	Organization	Mike MacMorran Nick Thomas	Meeting			project update, and went through very long question period dominated again by John Ell Tinashlu	from audio recording.
July 19 th , 2022	Naujaat Community Hall	Naujaat Community	Local, Stephen Kopak acted as translator.	Community	Ken Armstrong, Nick Thomas Mike MacMorran	Face to Face Meeting	Minutes on file	Engagement	Ken went through presentation, had Q&A and showed rocks and diamonds. Door prizes, food and drinks were served.	Questions on why the 2000 bags of sample shown still wasn't enough. What was the value of the diamonds.
July 19 th , 2022	Naujaat Hamlet Office	Mining and Exploration Advisory Committee	Christopher Kringayark, Community Member of MEA Mayor Alan Robinson	Advisory Committee	Ken Armstrong, Nick Thomas Mike MacMorran	Face to Face Meeting	Minutes on file	Engagement	Was supposed to be our first meeting with this new committee but only one member showed. The rest were out on the ocean because the wind had come up and blown out all of the ice. We gave the presentation to Christopher and Alan Robinson anyway.	Following update on proposed road development, Christopher said his brother Rocky, saw ~100 caribou recently roughly 10 km northwest of NAR's claims. Because most were out on the water this morning, Alan took the opportunity to cancel the meeting scheduled with Mayor and Council because all of the Councillors would be out on the waer.
July 18, 2022	Naujaat Hamlet Office	Hamlet	Mayor Alan Robinson MLA Solomon Malliki	Municipal and Territorial Government	Ken Armstrong	Face to face Meeting	Minutes on file	Engagement	To provide a high level update to the Mayor and MLA. Gave an idea of what next steps may look like. Mayor talked about how many project were ongong in the community. Both indicated their support for the Naujaat Project.	
June 26 th and 27 th , 2022	Facebook Messenger	Hamlet Council	Kevin Tegumiar – Hamlet SAO	Municipal Government	Nick Thomas	Messaging	File download to be saved	Engagement	Messaged Kevin about setting up a new meeting with Mayor and Council. Kevin also asked if we could meet with the new 'Mining and Exploration Advisory Committee' which consists of Levi, Michel (councillors), one elder from the community, one hunter, and one from the HTO	. He said he will be gone by then but he could set up a special meeting for us. Agreed to meet with the newly formed committee.
June 22 nd , 2022	Facebook Messenger	Hamlet Council	Kevin Tegumiar – Hamlet SAO	Municipal Government	Nick Thomas	Messaging	File download to be saved	Engagement	Checked in on status of Kevin's job Let him know remainder of diamond news will be out in early July and that our JV partners were enthusiastic so far. Requested that Naujaat Hamlet bill North Arrow for services from the 2021 program.	Last day will be the 14 th of June. He has a lot of work left to do, but was expressing a sense of freedom on the horizon. He also expressed that in a year or so he may pursue a different job within the Hamlet, "Mayor or Coucillor perhaps". Kevin told Nick to resent the hours we used the Hamlet

										services.
May 30 th , 2022	Facebook Messenger	Hamlet Council	Kevin Tegumiar – Hamlet SAO	Municipal Government	Nick Thomas	Messaging	File download to be saved	Engagement	Messaged Kevin to let him know our flights into the community were cancelled and we didn't make it out of Winnipeg.	Kevin said he would update the Mayor and Council.
May 29 th , 2022	Facebook Messenger	Hamlet Council	Kevin Tegumiar – Hamlet SAO	Municipal Government	Nick Thomas	Messaging	File download to be saved	Engagement	Kevin let me know he had submitted his resignation to to the Mayor but he refused to read it to the Council. He also confirmed that our upcoming meeting was for 10 am on Tuesday, May 31 st .	
May 11 th	Facebook Messenger	Hamlet Council	Kevin Tegumiar – Hamlet SAO	Municipal Government	Nick Thomas	Messaging	File download to be saved	Engagement	Messaged to check in on his situation as SAO and to let him know that North Arrow won the Corporate Award at the NMS. Asked how a recent DNLUP meeting went.	Kevin expressed a lot of frustration over his inability to get any time off for his mental health and with the audit on the horizon he won't be able to get any time off. Was very happy NAR won the NMS award "with big fishes like AEM and Baffinland". NLUP Meeting was just to prep the delegates on the hearings. No room for amendments, just a presentation. Expressed the community's issue with the plan infringing on the Municipal lines. They need access to gravel "it is our only survival at this time"
May 3, 2022	Facebook Messenger	Hamlet Council	Kevin Tegumiar – Hamlet SAO	Municipal Government	Nick Thomas	Messaging	File download to be saved	Engagement	Kevin messaged to say he sent Ecologic the signed agreement but said that he may not be around come July as he wants to quit. His health is getting worse with the stress. Expressed that the job is hard for a male Inuk. Would better for a female because they don't have the expectation on them to harvest or take the family on a land trip. He feels he needs to take his family on the land, but can't do it safely because his mind is on everything going on in the community.	Nick responded to say that it is good having an Inuit person in the role as SAO.
May 2, 2022	Facebook Messenger	Hamlet Council	Kevin Tegumiar – Hamlet SAO	Municipal Government	Nick Thomas	Messaging	File download to be saved	Engagement	Touched base regarding signing contract with Ecologic again. Kevin expressed concern over his sick younger brother, and	Kevin expressed concern over his sick younger brother, and daughter with a broken collar bone. Also, that there were

									daughter with a broken collar bone. Also, that there were accusation made against him by the Mayor and staff. Expressed want to quit his job. Needs time off he expressed.	accusation made against him by the Mayor and staff. Expressed want to quit his job. Needs time off he expressed.
April 25, 2022	Facebook Messenger	Hamlet Council	Kevin Tegumiar – Hamlet SAO	Municipal Government	Nick Thomas	Messaging	File download to be saved	Engagement	Touched base with Kevin to firm up dates for Community visit and also to check whether the Hamlet was planning to attend the Nunavut mining Symposium. Nick also wanted to know who was accompanying Patterk on earlier photo.	Kevin said dates for meetings could work. Expressed a want to go the NMS, but it was sold out. Seeing if room comes available because he and someone from the newly formed Mining and Exploration Committee wanted to go. Kevin identified Dino Mablik in photo.
April 12-14 th , 2022	Facebook Messenger	Hamlet Council	Kevin Tegumiar – Hamlet SAO	Municipal Government	Nick Thomas	Messaging	File download to be saved	Engagement	Checked in with Kevin to see if May 31 st would work for Council and community meetings. Kevin asked about the NU Mining symposium dates. Nick thanked Kevin for quick turnaround of CESP Fund Application. Nick requested Kevin to find the Ecologic contract to get it signed so they could keep working on the permitting of the proposed access road.	Agreed to move their auditor out of the Council Chambers for the meeting. Nick let Kevin know the NU Mining Symposium dates and let him know Ken would be presenting. Kevin agreed to find the unsigned contract for Ecologic.
April 7 th , 2022	Internet	Hamlet Council	Kevin Tegumiar – Hamlet SAO	Municipal Government	Nick Thomas	Email	File download to be saved	Contact	Nick sent CESP Fund Application to Kevin to be presented to Hamlet Council and the plan for community engagement approved. Two trips, three people from NAR.	Kevin responded April 14 th that the Council approved of the engagement plan laid out in the CESP Application.
April 4, 2022	Phone call	HTO	Dolly Mablik – Arviq HTO Manager	Local Organization	Nick Thomas	Phone call	Na	Contact	Calling Nick back; planted seeds for June visit to Naujaat to meet with HTO to share our diamond results; and idea of NAR plans for 2022 and into 2023. Wanted to let her know about the road funding partners meeting a couple of days back and gave her an update.	June will be a good time for a meeting with the HTO. I will call to firm up as we get closer. Agreed that we can update the HTO on diamond project and how the road is developing with the Hamlet, hopefully provided by Jason from Ecologic. Dolly also wanted me to know that their Chair, Paul Angutetuar, is reaching out and communicating independently of the HTO when should not

										be. I agreed to let her know if he contacts me and what about.
March 31, 2022	Zoom Online Video Conference	Naujaat Hamlet CanNor ED&T Ecologic	HOST: Jason Jones - Ecologic Kevin Tegumiar – SAO, Hamlet of Naujaat Nadege Gatera – CanNor Representative, Iqaluit Lazarus Akeeagok, ED&T Robert Connelly, ED&T David Fredlund, ED&T Ken Armstrong, NAR Nick Thomas, NAR Mike MacMorran, NAR	Funding Partners for Community Access Road	Ken Armstrong Nick Thomas Mike MacMorran	Video Meeting	Meeting recording	Engagement	Purpose of meeting was to try and get CanNor, ED&T, Naujaat and NAR set for moving forward on the road together. A pressing of the reset button so to speak to set the new goals for 2022 and 2023. Much of the reason was to put the spotlight on Kevin to do a better job of keeping on top of road related issues.	This was achieved fairly well. Plans were established for summer 2022 consisting of completion of all studies for permitting, all archaeological studies and remediation required for road route to not destroy sites. Consultation with community, HTO, and Hamlet regarding type of main water crossing will also be conducted and decided upon.
March 30 th , 2022	Facebook Messenger	Hamlet Council	Kevin Tegumiar – Hamlet SAO	Municipal Government	Nick Thomas	Messaging	File download to be saved	Engagement	Kevin messaged to find out if North Arrow would be doing a presentation on the 2021 sample at some point.	Nick responded, “We are definitely hoping to come up. Processing of the sample for diamond content has been slower than we hoped. I think it would make the most sense to come once we have all of the results out. At this point it seems like that would be May to have it all done and out. So possibly end of May or early June for a visit. Will that work for you and the council?” Kevin stated that he has a community audit in May so June meetings would be better.
Feb. 14, 2022	Facebook Messenger	Hamlet Council	Kevin Tegumiar – Hamlet SAO	Municipal Government	Nick Thomas	Messaging	File download to be saved	Engagement	Kevin reached out asking if NAR had any propane to power their new Zamboni.	North Arrow did not have any propane left as we had sent it up to the Mel camp.
Jan 31 st , 2022	Facebook Messenger	Hamlet Council	Kevin Tegumiar – Hamlet SAO	Municipal Government	Nick Thomas	Messaging	File download to be saved	Engagement	Checked in with Kevin regarding Covid and the community	Kevin responded that they got up to 15 cases but are now down to 4 cases and with no hospitalizations.
Jan. 20 th , 2022	Facebook	Community of Naujaat	Kevin Tegumiar – Hamlet SAO	Community	Nick Thomas	FB Post	File download to be saved	Engagement	Sent out memorial post on George Putulik acknowledging his passing and sending condolences to family with nice photo of George and Godelieva.	Responses sent from George’s daughter and wife, as well as a message from SAO, Kevin Tegumiar. Sent printed photos of George to his family members.
Jan 15 th , to Jan 20 th , 2022	Facebook Messenger	Hamlet Council	Kevin Tegumiar – Hamlet SAO	Municipal Government	Nick Thomas	Messaging	File download to be saved	Engagement	Nick Thomas Touched base with Kevin after hearing Covid had a presumptive case of Covid. A	Kevin confirmed that it was likely. it likely made it in through medical travelers. Expressed

									fair amount of back and forth over the next week.	that it was tough being a community administrator in these times. Balancing the community's fear of it with the need for people to have public access. Also, that most of his staff are 'working from home', but they don't have remote access. So no work being done.
January 10 th , 2022	Facebook Messenger	Hamlet Council	Kevin Tegumiar – Hamlet SAO	Municipal Government	Nick Thomas	Messaging	File download to be saved	Engagement	Communication that a bill had been sent to NAR for the road LIDAR and that North Arrow would pay the portion that was for our splinter road and the rest would be for Naujaat to pay for using Territorial funding.	Kevin responded that he would look into it.
January 6 th , 2023	Facebook Messenger	Hamlet Council	Kevin Tegumiar – Hamlet SAO	Municipal Government	Nick Thomas	Messaging	File download to be saved	Engagement	Touched base with Kevin to find out if George's family had acknowledged his loss publicly yet, and could we send our condolences.	The community had a memorial service for him on the island nearby where his belongings were found. OK to send a card and pictures now.
January 4 th , 2022	Facebook Messenger	Hamlet Council	Kevin Tegumiar – Hamlet SAO	Municipal Government	Nick Thomas	Messaging	File download to be saved	Engagement	Wished Kevin a Happy New Year and discussed the lack of Covid in Naujaat when other communities had outbreaks.	Kevin acknowledged that they didn't have it, but that it was coming and the community needs to be ready to live with it. Best way to become immune.
Dec. 7 – 14 th , 2021	Facebook Messenger	Hamlet Council	Kevin Tegumiar – Hamlet SAO	Municipal Government	Nick Thomas	Messaging	File download to be saved	Engagement	Continued communication regarding George Putulik with the search eventually being called of on the 14 th . Asked permission to send a card of condolence to the family. He said wait until the family has acknowledged the loss publicly.	Kevin said wait until the family has acknowledged the loss publicly before sending a card.
Dec. 6 th , 2021	Facebook Messenger	Hamlet Council	Kevin Tegumiar – Hamlet SAO	Municipal Government	Nick Thomas	Messaging	File download to be saved	Engagement	More back and forth regarding George. Also asked Kevin if North Arrow could come to the community in January or February of 2022. Also provided brief update on progress processing the bulk sample of summer 2021. Some discussion on Janie, the new receptionist being able to step up as a go between between Kevin and North Arrow to help keep things on track.	No response regarding having Janie fill a liaison role.
Dec 4 th , 2021	Facebook Messenger	Hamlet Council	Kevin Tegumiar – Hamlet SAO	Municipal Government	Nick Thomas	Messaging	File download to be saved	Engagement	Kevin called early in the morning asking if they could use some of our fuel to help locate a lost hunter (and employee of NAR),	

									George Putulik. Back and forth about 10 times on details and updates re: missing hunter	
June to September 2022	Naujaat	Community	Employees, Naujaat Leadership (Hamlet and HTO), Aivilik MLA	Community	Mike MacMorran Dan Gainer Barb Kupsch	Face to face engagement		Engagement	North Arrow worked out of the community from June to August conducting the bulk sample. Constant interaction with community.	
June 30 th , 2021	Letter sent	Naujaat Hamlet	TO: SAO (Elizabeth Kusugak filling in Temporarily while Kevin in Winnipeg for daughter's medical; Mayor Alan Robinson CC: Dolly Mablik, Manager of Arviq HTO Patterk Netser, MLA for Aivilik Constituency Robert Connelly, ED&T in Rankin Inlet	Municipal Organization	Nick Thomas	Formal Letter in English and a translated into Inuktitut on July 5 th , 2021.	Letter on file on NAR server in English and Inuktitut	Engagement	Purpose of letter was to document formally North Arrow's discussion with Elizabeth that NAR's protocol would be coming in line with that mandated by the Territory. ie: no isolation hotels for employees who are double vaccinated.	No response from Letter, but no resistance from Mayor's office or Council.
June 29 th , 2021	Naujaat	Hamlet Council	Elizabeth Kusugak – Manager of Finances / Temporary SAO	Municipal Organization	Barb Kupsch	In person meeting and follow up email		Engagement	In person follow up after Nick Thomas had a phone call with Elizabeth suggesting our employees who were double vaccinated should not have to isolate for two weeks.	Barb Kupsch asked in person and then by email to have this statement that 'employees who have two vaccinations don't need to isolate' in writing from Elizabeth and she responded in ALL CAPS on June 28 th at 2:45 pm: AS LONG AS PEOPLE ARE VACCINATED, ITS FINE TO COME IN TO NAUJAAT AND DO THEIR BUSINESS, KEEPING IN MIND THAT WE STILL HAVE TO FOLLOWING THE PROTOCOL FROM THE GOVERNMENT TO HAVE PEOPLE WEAR MASKS, ALTHOUGH SOME ARE NOT FOLLOWING IT , ITS BEST TO FOLLOW THAT GUIDLINE. IF PEOPLE ARE VACCINATED THEY DON'T NEED TO ISOLATE BUT I DON'T KNOW WHAT PROVINCES HAVE IN PLACE FOR PEOPLE TRAVELLING THANK YOU FOR YOUR COMMITMENT TO OUR COMMUNITY ELIZABETH
June 29 th , 2021	Phone call	Naujaat Hamlet	Elizabeth Kusugak, Manager of Finances Temporary SAO while Kevin Tegumiar is in Winnipeg on Medical trip	Municipal Organization	Nick Thomas	Phone	Follow up email only	Engagement	Phone call was to suggest changes in Covid protocol to be in line with Territorially	Elizabeth Kusugak stated that our workers should not have to isolate if they have both vaccinations. Whatever

									mandated procedural updates regarding doubly vaxed people entering NU: They no longer have to go into an isolation hub. Not actually allowed in the isolation hotels according to CPHO of Nunavut. Barb Kupsch	arrangements we made previously with the Mayor and Council have changed to fit what the CPHO has stated.
May 20 th , 2021	Facebook Messenger	Hamlet Council	Kevin Tegumiar – Hamlet SAO	Municipal Government	Nick Thomas	Messaging	File download to be saved	Contact	Communications regarding our request to amend Covid working protocol to fall in line with Territorial changes.	Elizabeth agreed to submit something in writing.
April 21 st , 2021	Naujaat Town Hall	Community	From Community: John Kadjuk Steven Kopak Emma I. Jeremy Itkiliq David Nimiqtatquq Jimmy Immingark Marie Kringuk Philip Katokra Pierretta Paula Akkuardjuk		Ken Armstrong Nick Thomas	In person meeting	Transcript from recording of meeting	Engagement	Purpose was to discuss the proposed Covid 19 Protocol for the summer 2021 sampling program and to receive permission to come to the community. Logistical details of the sampling process, and review the Wildlife Impact Mitigation Plan and discuss ways to improve the plan for the proposed summer program.	No issues raised by the community. Very low turnout.
April 21 st , 2021	Naujaat Town Hall	Hamlet Council	Kevin Tegumiar: SAO Alan Robinson: Mayor Donat Milortok: Deputy Mayor Levi Kotokra: councilor Michel Akkuardjuk: councillor Mary Tuktudjuk: councillor Joseph Mapsalak: councillor Theresa Tagornak The interpreter's name was Jessica Tinashlu.	Municipal Government	Nick Thomas Ken Armstrong	In person meeting	Transcript from recording of meeting	Engagement	Purpose was to discuss the proposed Covid 19 Protocol for the summer 2021 sampling program and to receive permission to come to the community. Logistical details of the sampling process, and review the Wildlife Impact Mitigation Plan and discuss ways to improve the plan for the proposed summer program.	Most issues were born of the Covid situation, and much of it was coming from Mayor Robinson. Issues were not solved on the day of the meeting. Council met again later requesting changes to our protocol. In particular that everyone be double vaccinated and spend two weeks in an isolation facility before coming.
April 20 th , 2021	Naujaat Town Hall	Arviq HTO	Paul Angutetuar, Chair Mary Tuktudjuk, Vice Chair Mark Tigumiar, board member (he left early) John El Tinashlu, board member Annie Angotialuk, board member Peter Putulik, board member	Local Organization	Ken Armstrong Nick thomas	In Person Meeting	Meeting Recording Transcript	Engagement	Purpose was to discuss the proposed Covid 19 Protocol for the summer 2021 sampling program, as well as the logistical details of the sampling process, and review the Wildlife Impact Mitigation Plan and discuss ways to improve the plan for the proposed summer program.	Main issues came from John El Tinashlu. Very concerned over Covid; very concerned about not knowing who NAR workers are and if they've had vaccinations. North Arrow reduced number of employee and contractors as much as possible and provided HTO with spreadsheet outlining crew coming to town, where they are from, where they are doing their isolation, what vaccine they have had and how many shots. John El also had issues over the two helicopters

										and the sound impact of that. Our response was that two helicopters doesn't mean more sample, it means possibly less time and the chance to have the sample complete before the majority of caribou come through from mid-August on to late October.
October 21, 2020	Email	Hamlet	Mayor Alan Robinson CC'd: Kevin Tegumiar, SAO	Municipal Government	Sent by Ken Armstrong Nick Thomas CC'd	Email / Letter	Email	Engagement	Main purpose was to provide Mayor Alan Robinson with some background on the proposed road that the Hamlet and Ecologic are in the process of studying and having financed and permitted. See emails.	No response as Oct. 22, 2020
October 21, 2020	Email	Hamlet	Kevin Tegumiar, SAO Cc'd: Mayor Alan Robinson Katelyn Tatty EDO	Municipal Government	Nick Thomas	Email / Letter	Email	Engagement	Letter was composed to inform Kevin that the ED&T still has money for funding infrastructure projects and that he should re-activate work with Ecologic as he has applications for funding just requiring Hamlet Council approval.	No response as Oct. 22, 2020
October 9, 2020	Teleconference	Hamlet	Kevin Tegumiar: SAO Alan Robinson: Mayor Donat Milortok: Deputy Mayor Levi Kotokra: councillor Michel Akkuardjuk: councillor Mary Tuktudjuk: councillor Peter Manik: councillor Joseph Mapsalak: councillor Theresa Tagornak: New Councillor The interpreter's name was Jessica Tinashlu.	Municipal Government	Ken Armstrong Mike MacMorran Barb Kupsch Nick Thomas	Meeting by Teleconference	Meeting Minutes from partial recording	Engagement	Following a few prickly emails from the somewhat new Mayor Alan Robinson we thought it best to bring the discussion to the entire Council via a teleconference seeing as going to the community currently comes with a 14 day quarantine period in Winnipeg. We provided a presentation in English but with interpretation provided after each slide plus the presentation was translated into Inuktitut. Meeting Minutes on file	
June 1, 2020	na	Hamlet Leadership	Mayor Alan Robinson SAO, Kevin Tegumiar	Municipal Government	Nick Thomas	Email	Letter to support press release	Contact	Sent a letter to support the press release that announced North Arrow's partnership with EHR	No response.
January 29 th , 2020	Tundra Takeout	Arviq HTO	Louis Angotingoar – Chairman Mary Tuktudjuk Peter Manik David Ammaq Hugh Haqpi – Acting also as translator John Ell Tinashlu	Community Hunting Organization	Nick Thomas	Meeting	Meeting Minutes on file	Engagement	- Project update - provide more detail on the potential helicopter supported 2000 tonne sample. - details on 10,000 tonne sample.	- continued concern over what would happen to the two lakes at Q1-4. - In future, some examples of remediated lakes after mining complete would go a long way.

									<ul style="list-style-type: none"> - Provide results of compiled wildlife report. - Give update on Hamlet and Ecologic's permitting and studies. 	<ul style="list-style-type: none"> - Discussion over what opportunities could be available if either or both of the programs were to move forward. - One member, John Ell Tinashlu questioned why the 2000 tonne helicopter sample needs to happen at all. "Just wait for the road. What's is the hurry"? Answering this is difficult because it is a southern junior company's need to be busy and moving things forward. - we agreed to discuss the wildlife mitigation plan as we get closer to the program to find ways to lessen the impact of the heli.
January 28 th , 2020	Naujaat Hamlet Office, Mayor's Office	Hamlet Leadership	Mayor Alan Robinson SAO, Kevin Tegumiar	Municipal Government	Nick Thomas	Meeting	Meeting minutes and sound file on server	Engagement	<p>Introduction of Nick Thomas & North Arrow to the new Mayor.</p> <p>Provide a presentation covering the history of the Naujaat Diamond Project, information on diamond exploration.</p> <p>Discuss future potential plans for project: preliminary bulk sample and road supported full bulk sample.</p> <p>Introduction to access road idea and studies conducted thus far.</p>	<p>Generally a positive meeting. Some misunderstanding over North Arrow's sampling of kimberlite, thinking we're profiting from the sale of diamonds from the earlier sampling.</p> <p>Ended saying he wishes us luck and that he has heard nothing negative from people about how we're doing our work.</p> <p>Said the job took some getting used to at first. He was acting without the proper discussions with the Council and has had to learn other things about the job.</p>
January 27 th , 2020	Naujaat Town Hall / Youth Centre	Community of Naujaat	Henri Aglukka, Philomen Thadiaz Akkuardjuk, Dawtin Kringayark, Chastity N., Laura Tagornak, David Nimiqtatquq, Louisa Kringuk, Linda Tagornak, Wendy Palliser, Emmanuel N., Tiffany Siusangnark, Martha Iguptak, Michael Siusangnark, Simona Benoit, Natalie Iguptak, Delilah Kopak, Gino Immingark, Eric Nanorak, Arsene, Perpetua A., Mary Rose Kopak, Moses Kopak, Tianna Shea, Owen Basil, Robert Kaufman (briefly came before the meeting to ask for some help on a Science Fair Project for his grade 12s).	Municipality	Nick Thomas	Meeting	Meeting minutes on file	Engagement	<ul style="list-style-type: none"> - Project update - provide more detail on the potential helicopter supported 2000 tonne sample. - details on 10,000 tonne sample. - Provide results of compiled wildlife report. - Give update on Hamlet and Ecologic's permitting and 	<ul style="list-style-type: none"> - continued concern over what would happen to the two lakes at Q1-4. - In future, some examples of remediated lakes after mining complete would go a long way. - Discussion over what opportunities could be available if either or both of the programs were to move forward.

									studies.	
January 27 th , 2020	Naujaat Hamlet Council Chambers	Hamlet Council of Naujaat	Kevin Tegumiar: SAO Donat Milortok: Deputy Mayor Levi Kotokra: councillor Michel Akkuardjuk: councillor Mary Tuktudjuk: councillor Peter Manik: councillor Joseph Mapsalak: councillor	Municipal Government	Nick Thomas	In person meeting	Minutes written down after meeting. Only one NAR staff made it to town	Engagement	- Project update - Meet new councilors and new Mayor - provide more detail on the potential helicopter supported 2000 tonne sample. - details on 10,000 tonne sample. - Provide results of compiled wildlife report. - Give update on Hamlet and Ecologic's permitting and studies.	- Most questions from the new councilor, Michel Akkuardjuk. - concern over impact of helicopter not being able to see caribou in valleys despite having wildlife monitors on board. - Agreed to revisit Wildlife Protocol document used in 2017 to look for improvements to bring to - Re-iterated support for processing the 10,000 tonne sample in town by Donat Milortok.
5 pm, October 8 th	Naujaat Tundra Takeout	Arviq HTO	Louis Angotingoar – Chairman Mary Tuktudjuk Peter Manik Conna Katokra David Ammaq Dino Mablik Hugh Haqpi – Acting also as translator Dolly Mablik – Executive Assistant Jason Jones – Ecologic	Community Hunting Organization.	Nick Thomas Ken Armstrong	In person Meeting	Minutes taken from voice recording; on file on the server	Engagement	To provide update on the Naujaat Diamond Project. To consider an in-between stage option of taking a smaller sample while the access trail gets funded, permitted and built to answer one of the questions; whether the yellow diamonds truly have a course population. Present recent Wildlife camera report. Also for Ecologic to provide a road update to the HTO.	Questions revolved around impact of trail on fish in the water courses, archaeology mitigation if required and what kind of employment may be offered during the bulk sample or the smaller sample. All questions were answered to the satisfaction of the HTO keeping in mind more work is to come and more meetings will take place before that time.

Present recent Wildlife camera report. Also for Ecologic to provide a road update to the Community of Naujaat	Questions regarding the smaller water crossings and how the trail will cross those.
1 pm October	Council Chambers,	Hamlet Council	Ecologic Jason Jones	Municipal Government	North Arrow Nick Thomas	In Person Meeting	Minutes taken from recording;	Engagement	To provide update on the Naujaat Diamond Project. To	No problems with the update; in particular, no one objected

7 th , 2019	Naujaat		Salomon Malliki: Mayor Kevin Tegumiar: SAO Joseph Mapsalak: Councillor Mary Tuktudjuk: Councillor Levi Kotokra: Councillor Peter Manik: Councillor Dino Mablik: Councillor		Ken Armstrong		on file in the server.		consider an in-between stage option of taking a smaller sample while the access trail gets funded, permitted and built to answer one of the questions; whether the yellow diamonds truly have a course population. Also for Ecologic to provide a road update to the Council.	to the idea of a program this summer that would include a 1500 to 2000 tonne sample. No issues raised with the road as it stands at this point. A few questions regarding the timing of building the main water crossing.
August 8, 2019	Phone	Hamlet Council	Kevin Tegumiar, SAO	Municipal Government	Nick Thomas	Phone	No	Engagement	Called to discuss with Kevin the SAO a few points that had been building up and gone unanswered. - extension of LUP that was applied for at the end of 2018. - Timing of next Council Meeting to discuss CESP Funding application put in by North Arrow. - To give heads up of letter written by Ken headed their way that we would like them to send to Bernie MacIsaac of ED&T if they approve of the content. - Discussion of upcoming arch study and need for quorum of councillors at the meeting in case mediation needs to occur. - request for workers with ATV to take out Access Trail Scientists from Ecologic	Kevin talked to all of the points. Expressed that he is very busy and can't answer all of my emails. I apologized for sending so many! - Getting quorum is very difficult right now. If its not windy everyone is out on their boats right now. - Understood the purpose of the letter and would watch out for it. Mayor in office 1/2 day the following day. - Took down the date of proposed arch study related meeting and will try to get councillors out and will pass on the info to those that can't make it. - suggested posting guide work to Facebook to see if anyone was available. To many people out on the water right now to want work. - mentioned that he has asked Katlyn EDO to apply top use some of their money to connect the trail from the laydown to the Old Water Lake road for this year. Hope to start in the fall.
July 17, 2019	Naujaat Hamlet Council	Hamlet Council	Patrick Young, Golder Archaeologist Kevin Tegumiar, SAO Levi Kotokra, Councillor Donat Milortok, Councillor Joseph Mapsalak, Councillor Peter Manik, Councillor Jason Jones, Ecologic	Municipal Government	Jason Jones, Ecologic (although this time he was there to represent the Hamlet mostly)	Face to Face Meeting - Update and discussion	Minutes available	Engagement	1.Update on Community Access trail permitting, funding and timing by Jason Jones. -Peter wanted a reminder on need for heavy equipment - Donat asked a few questions about aggregate and the need for blasting - Donat and Joseph both raised the need to keep the larger community	Kevin SAO, speaking as proponent of the road said he would do a better job of communicating what Access Trail developments are happening to the Council. In particular the cameras

									<p>more informed about why cameras are deployed etc. Kevin agreed to do better; -Levi was going to mention to folks while doing his radio show tonight.</p> <p>2. Archaeology along road alignment preliminary oral report. - no concerns raised re. archaeology but there appear to be interest among council in getting out on the trail when engineers or archaeologist are next on site.</p> <p>Preliminary oral report on archaeology follow up being conducted by Golder's Patrick Young. Patrick gave a short update on archaeological findings with respect to potential interactions with trail alignment, and provided a look ahead to next steps (e.g., more comprehensive participation by Hamlet on archaeological concerns and plans).</p>	<p>documenting the melt at the main water crossing were brought up because people don't know why they are there. Possibly a Facebook role or posting in the Hamlet a poster.</p> <p>Note from Kevin: <i>Hey Nick The meeting went well with Jason and Patrick, we only had 4 council members but it was mainly informational so I think Jason and Patrick got a great response from the councilors that were available.</i></p>
July 17, 2019	Email	Hamlet Council	Kevin Tegumiar	Municipal government	Nick Thomas	Email	Email message filed	Contact	<p>Aspect of today's meeting between Jason and Kevin and Council was hopefully to have Council approve the Consultation plan put out for the CESP. They did not have quorum so will have to do it at the next Council meeting.</p>	<p>That one request you sent me earlier for council's approval, unfortunately we weren't able to include it as I did not have a quorum but I'll include it in my next regular meeting which was suppose to be yesterday but had to be postponed due to not being able to have a quorum. We had proper interpretation this time around so all members we had in this meeting were pleased of the news provided by Jason.</p>
July 10 th , 2019	Telephone	Hamlet Council	Kevin Tegumiar SAO	Municipal government	Nick Thomas	Telephone	Conversation	Engagement	<p>Notes to Ken and Jason summarizing conversation: Just got off the phone with Kevin. I needed to find out which day he could do the meeting with Patrick, hoping for the Wednesday.</p> <p>It turns out he has had one or two of the councilors say they can no longer be at the Tuesday meeting. That puts him at less than quorum so he can't get too much done as far as council decision making. This is positive in the way that he can move it to</p>	

									<p>the Wednesday some time to allow Patrick a couple days to visit the arch site and come in to the meeting with enough information to know what questions to ask. It just won't be the big decisions that can be answered but this meeting is more preliminary as far as I understand as he will be back in August.</p> <p>The other upside of that is I could have you (Jason) arrive on the Wednesday and make the meeting if you can't leave early on the Monday (see my other emails). It just doesn't leave you much time in town and day of flights often end up to missed events. It's more of a gamble.</p> <p>The other discussion we had was around North Arrow's submission of a Community Engagement Support Plan fund application. He will watch out for my submission and can either bring it into the meeting to discuss or sign it himself or provide feedback.</p> <p>And oh, no news on funding yet. He did ask when we may get another crack at the Northern Trade Corridors fund. He did discuss his chat with CanNor's Crystal. She said they were asking about who is running the project, the Hamlet or North Arrow. They also wanted to know a bit more about who Ecologic is working for.</p>	
March 21, 2019 11:00 am	Naujaat, Council Chambers	Hamlet of Naujaat	<p>Salomon Malliki: Mayor Kevin Tegumiar: SAO Joseph Sivanertok: Councillor Donat Milortok: Councillor Victoria Tagornak: Councillor Mary Tuktudjuk: Councillor Levi Kotokra: Councillor Peter Manik: Councillor Dino Mablik: Councillor Joseph Mapsalak: Councillor Jason Jones - Ecologic</p>	Municipal Government	Nick Thomas Ken Armstrong	Face to Face Meeting	Meeting recording and Minutes	Engagement	Community Access Trail update: permitting, funding, relationships and business arrangements, training, timing, cost and alignment.	Very positive engagement with leadership. Leadership is taking ownership of the trail and accepting the idea that the trail will have a multitude of economic benefits beyond North Arrow's sample of the Q1-4 kimberlite.
March 21, 2019 1:00 pm	Naujaat Tundra Takeout Meeting Room	Arviq HTO (Naujaat)	<p>Louis Angotingoar – Chairman Peter Manik Mary Tuktudjuk Peter Manik David Ammaq Hugh Haqqi – Acting also as translator Dolly Mablik – Executive Assistant Jason Jones – Ecologic rep.</p>	Community Hunting Group	Nick Thomas Ken Armstrong	Face to face meeting	Meeting recording and Minutes	Engagement	Community Access Trail update: permitting, funding, relationships and business arrangements, training, timing, cost and alignment.	Very positive meeting. Many good questions. Again like meeting with leadership earlier in the day there is a feeling of ownership of the trail emerging. Jason Jones from Ecologic did a great job discussing things in terms that resonated with the HTO. Main concerns: construction times of day and year. Water

										crossings. Type of material to be used for the road base,
March 21, 2019 7:00 pm	Naujaat Community Hall / Teen Centre	Community	Emma, Jocelyn Oolateeta, Kera, Mary Tuktudjuk, Emmanuel N., Mona Siusangnark, Asina, John Sivnurtok, John Kadjuk, Gino (not Oscar), David Ammaq (HTO Member), Honore (elder at every meeting), Simeonie Kringayark, Leonard McDonny, Leo Akkuardjuk, Merrill Siusangnark, Jimmy I, Jackie Paul, Jarrod, Richard Jr. Arsotialuk, Elizabeth Aglukka, Irene, Erin Angotialuk, Tyra, Remi A., Jocelyn, Oolateeta, Jason Jones – Ecologic	General population of Naujaat	Nick Thomas Ken Armstrong	Face to Face Meeting	Meeting recording and Minutes	Engagement	Community Access Trail update: permitting, funding, relationships and business arrangements, training, timing, cost and alignment.	Most questions revolved around jobs and training. What kinds of training and jobs? Where the training would take place? What kind of equipment would be needed and would there be training to operate it. One question on whether lakes would be drained.
September 11 to 13 th , 2019	Naujaat Community Hall / Teen Centre	Kivalliq Mayors	Every community was represented by their Mayor or Deputy Mayor for two days of presentations and discussions by representatives from Government, Business, and Industry. In attendance on day one: Premier Joe Savikataaq, Minister David Akeagok, Minister Jeannie Ehaloak, Minister David Joanasie, Minister Lome Kusugak, KIA President David Ningeongan, CEO Arctic Cooperatives Rod Wilson, and Nick Thomas Manager of Community and Investor Relations North Arrow Minerals. The second day of the agenda included MLA Patterk Netser, MLA Cathy Towntongie, President Calm Air Gary Bell, MP Hunter Tootoo, Minister George Hickey, President Nunavut Tunngavik Aluki Kotierk, Dr. Maria Bronson "Building Strength in Naujaat", and Co-Founder Growing North Ben Canning. The discussions were productive with several resolutions being adopted at the end of the session on September 13th, 2018. Jason Jones from Ecologic attended with Nick Thomas to meet the leadership in Naujaat and make contacts within the NU Political group.	Territory Regional Group	Nick Thomas	Meeting		Engagement	North Arrow was invited by Mayor Solomon Malliki to present to the Mayors and other attendees the proposal of the road. Nick Thomas presented on day one. Focused message on how the trail would benefit the community. Other aspects opened up by the trail: tourism, aggregate deposit access, carving stone and possibly diamonds. Also discussed how the road would help make the diamond project move forward which would in turn create more jobs for the community.	Made first contact with MLA Patterk Netser who was very receptive to the idea and offered his assistance in the future.
June 19, 2018	Naujaat Council Chambers	Hamlet council	SAO Rob Hedley SAO in training, Kevin Tegumiar Solomon Malliki Joseph Sivanertok: Councillor Donat Milortok: Councillor Victoria Tagornak: Councillor Mary Tuktudjuk: Councillor Levi Kotokra: Councillor Peter Manik: Councillor Dino Mablik: Councillor Joseph Mapsalak: Councillor	Hamlet Council	Nick Thomas Ken Armstrong	Face to face meeting	Conversation only	Engagement	Purpose of the trip was to discuss the situation w/ road that NAR had proposed the previous October following costing and routing studies completed during summer work 2017; Price tag of ~\$4 to \$5 million, too much to try raise money to do. NAR was following up in person on the letter sent to Rob Hedley in February; that the building of the trail would become a community	Response was very positive. The community has been supportive asking since 2013 when a road may built out in that direction. Discussed the different funds that are available Federally and Territorially.

									run initiative; would make more sense as they could have better access to government funding for community infrastructure.	
February 22, 2018	na	Hamlet	SAO: Rob Hedley	Hamlet council	Nick Thomas	Emailed Letter	Letter	Contact	- Letter outlined the estimated costs of building a road out to the Q1-4 kimberlite to be around \$3 to \$4 million, to much for NAR to ask our shareholders to finance. Proposed the community try and access government funds through ED&T and CGS to pay for the construction of the road while NAR continues to fund the permitting related studies. Outlined potential pay-for-use of the trail arrangement during the 10,000 bulk sample. Letter was to set the stage for a follow-up in-person meeting.
