Dear Calvin Ehaloak, Richard Dwyer, Tracey McCaie, DFO, Transport Canada, ECCC, Peter Unger, Caroline Whittle, Jared Ottenhof, and Grant Woodbury:

**RE: NPC File # 151171 [Iqaluit Marine Infrastructure - Deep Sea Port]**

The following works and activities have been proposed in the above-noted project proposal:

1. **Primary Land Use:** Marine infrastructure

2. **Project summary description:** The proponent is submitting a renewal for the Iqaluit Marine Infrastructure – Deep-Sea project to accommodate the remaining works related to the project which includes the removal of infill in front of the deep-sea port wharf. Substantial completion of the project was reached at the end of the 2022 open water season. However, some items from the construction activities were left on the substrate directly adjacent to the port. The construction debris, which includes two large boulders and one drill pipe/string will be removed from site.
3. **Associated NPC File Nos.:** 148305, 148429, 149115, 149513, and 150222; **Associated NIRB File No.:** 16YN041 and 17XN021
4. **Location:** Qikiqtani Region; [Coast of the City of Iqaluit within the municipal boundaries]

A complete description of the project proposal reviewed by the NPC can be accessed online using the link below.

The Nunavut Planning Commission (NPC) has completed its review of the above noted project proposal. NPC has determined that this project proposal is outside the area of an applicable regional land use plan. The activities associated with this proposal were previously reviewed by NPC (most recently on February 1, 2024). In addition, the works and activities listed above were previously screened by the Nunavut Impact Review Board (NIRB FILE No. 16YN041 and 17XN021). The above-noted project proposal is exempt from screening by the NIRB because the NPC is of the understanding that it does not change the general scope of the original or previously amended project activities, and the exceptions noted in Section 12.4.3 (a) and (b) of the Nunavut Agreement do not apply.

By way of this letter, the NPC is forwarding the project proposal to the regulatory authorities identified by the proponent. Project materials are available at the following address:

<https://lupit.nunavut.ca/portal/registry/registry.aspx?appid=151171> .

This decision applies only to the above noted project proposal as submitted. Proponents may not carry out projects and regulatory authorities may not issue licenses, permits and other authorizations in respect of projects if a review by the NPC is required.

If you have any questions, please do not hesitate to contact me at (867) 979-3444.

Sincerely,

Goump Djalogue, MCIP, RPP  
Manager of Planning and Implementation,

**Jurisdictional Note:**

*This conformity determination applies only to the components of the proposed project located within the Nunavut Settlement Area and under the Nunavut Planning Commission's statutory jurisdiction as defined in the Nunavut Agreement and the Nunavut Planning and Project Assessment Act (NuPPAA). Activities outside the NPC's jurisdiction remain subject to the review and regulatory processes of the relevant authorities. Proponents are responsible for identifying, contacting, and obtaining all required approvals from the appropriate regulators in every applicable jurisdiction to ensure compliance with all legislation, policies, and licensing requirements.*
