

NIRB Project Application 125987

Comments posted by Karen Hamre on July 7, 2026

The Nunavut Impact Review Board (NIRB) has a mandate to protect the integrity of the ecosystem for the existing and future residents of Nunavut. To assess the environmental and socio-economic impacts of the project proposal, NIRB would like to hear your concerns, comments and suggestions about the following project proposal application:

Indicate your concerns about the project proposal below:

- Water quality
- Air quality
- Marine mammals and their habitat
- Traditional uses of land
- Community involvement and consultation
- Tourism in the area

Please describe the concerns indicated above:

The road is right in the middle of a main harvesting area for caribou. The Dolphin Union caribou are already struggling. So are the people of Kugluktuk. The project will harm both, along with the marine environment and other wildlife. As a taxpayer, i don't want public money to go into this.

Do you support the project proposal?: No
