Re: Outstanding Monitoring and Reporting Information Required for Environment and Climate Change Canada's "Isachsen High Arctic Weather Station Waste Fuel Reduction Program Project

Dear Owen Wade:

Please be advised that the Nunavut Impact Review Board (NIRB or Board) has not received confirmation from Environment and Climate Change Canada (ECCC) that Monitoring and Reporting Requirements 1 and 2[i] of the Screening Decision Report[1], dated June 19, 2025, for the "Isachsen High Arctic Weather Station Waste Fuel Reduction Program Project" have been fulfilled.

Accordingly, the Board requests that ECCC provide a Spill Contingency Plan and confirm that the requirements set out under Monitoring and Reporting Requirements 1 and 2 have been fulfilled, no later than July 22, 2026. Please submit the information to the NIRB at info@nirb.ca or through the online public registry at www.nirb.ca.

Sincerely,

Varun Nayak
Monitoring Officer
Nunavut Impact Review Board

i

Spill Contingency Plan

1. The Proponent shall ensure its Spill Contingency Plan includes the up-to-date emergency contact numbers for the Government of Nunavut – Department of Environment, Manager of Environmental Protection (867-975-7748), and Environment and Climate Change Canada, Enforcement Branch (867-975-4644).
2. The Proponent shall implement the recommendations found in the 2003 CCME Guidance Document PN 1326 entitled "Environmental Code of Practice for Above Ground and Underground Storage Tank Systems Containing Petroleum Products and Allied Petroleum Products."
