Good morning Mia,

Here are my answers to the questions:

1. The camp pad will be decommissioned and removed, the roads decommissioned by grading to match the adjacent ground surface, and the airstrip will be left in place.
2. The new on-site landfill will be capped, and it will be subject to a long-term monitoring program.

Cheers,
Owen

Subject: NIRB 25UN029: Clarification

Good afternoon, Owen,

As mentioned earlier this week, we're at the last step of the screening process and sent our Board Members a Draft Screening Decision Report with all project information within the document for Board voting.

One Board Member had two clarification questions and that's why I'm emailing now, to get the clarification answers from you before they conclude their voting.

The two questions are:

1. Will be upgraded air strip, roads and new camp pad be decommissioned/reclaimed at the end of the project?
2. Will the new on-site landfill be decommissioned/capped at the end of the project?

The sooner you reply, the sooner the Board can vote on this file, and then we can close/complete this screening!

Thank you for your time and response in advance; it makes it clear for the Board Members to be able to make a clear and full vote on the file!

Best regards,

Mia Beattie
